## THE GUARDIAN'S BICYCLE ROAD RACE

### Will Start This Evening In Front of The Guardian Office At Six O'clock—The List Of Entries, the Officials and Map of The Course—Keep the Track Clear

This evening will without doubt witness one of the most interesting athletic contests that has taken place for some time—that is the bicycle road race over the course outlined below in the map.

The conditions of this race are familiar to readers and the participants in the contest are men who can lay fair claim to the title of athletes, as will be seen from the following list of entries:—

G. Ballingall, unattached.
Walter Mullins, unattached.
Loman Newsom, Victorias.
John Pierce, Abegweits.
James Pierce, Abegweits.
George Prowse, Victorias.
Nelson Winchester, unattached.
James Connolly, unattached.
Stirling Phillips, Summerside.
Percy Peardon, Victorias.
G. G. Hughes, Abegweits.
Fred Harper, Victorias.
W. A. Gaudet, Abegweits.

The race is doubtless going to be witnessed by a great many people. In the past it has been proved that bicycle racing has been the most attractive form of sport that could be placed before the public, and this fact had a good deal to do with The Guardian's institution of its trophy. Manifestly it will take a good man to go the sixteen miles and win out of the bunch of athletes whose names appear above.

Every detail has as far as possible been carefully attended to in order to ensure the race coming off without a hitch, and everything will be done that is possible to enable the public to see the racers as they start and finish.

It must be borne in mind, however that the track must be kept clear. Spectators are asked not to trespass upon the space in the street which will be reserved for the contestants, the officials, and the autos of the umpire.

There is no doubt but that the exhibition will be one worth remembering and it is again asked that those who are present will do all they can to preserve order and not occupy the room that will be needed for the racers as they come to the finishing point of the race.

It has been arranged to telephone in the positions of the men from various points along the course, during the progress of the race, and this information will be promptly bulletined for the information of the public.

The following are the officials of the Race which is to start in front of The Guardian office this evening at six o'clock The racers will finish at at the starting point.

Starter:—O J McMillan.

OTTAWA, August 27—(Special)—Hon William Pugsley has been summoned to Ottawa by Sir Wilfrid Laurier and will be sworn in on Friday as Minister of Railways.

The date of election in St John is not yet definitely announced but will probably be September 18.

The Ontario portfolio is not yet decided but it probably be Graham, now leader of the Ontario Opposition.

LONGFORD, Ireland, Aug. 27—(Special)—Jas Farrell, Irish Nationalist member of Parliament for North Longford and 40 other persons were arrested early this morning and are now being tried by a special court convened for the purpose on a charge of taking part in an unlawful assembly to cause rioting.

Mr Farrell had been holding meetings throughout his constituency at which exciting scenes occured between the Nationalists and members of the Sinn Fein Society.

Large forces of police are being despatched here, trouble being anticipated.

## NO APPOINTMENTS YET TO CABINET

OTTAWA, August 26.—No cabinet meeting was held Saturday, and now it is expected that the vacant cabinet positions will be filled by appointment tomorrow. Sir. Wilfrid spent the whole of yesterday in conference with a party of friends visiting him. He had a crowded ante-room from morning till night.

The party of British journalists (not the C. P. R., party) which has been touring the country on invitation of the interior department, arrived here this morning and left at noon. They had breakfast with the local newspaper men and others at the Russel and were shown about the city in automobiles. They had a great time in the west.

## BLUENOSES AT CALGARY PICNIC

CALGARY, August 26.—The much heralded and long talked of Bluenose picnic is now a thing of the past, and the only thing that remains is the memory of the good time had and the determination to have a better time next year. Those who are responsible for the affair have the right to congratulate themselves, and being true Bluenoses, they will probably take anvantage of the opportunity.

Fully four thousand turned out to view the sports at Victoria park, the great majority of these had azure-tinted proboscises and enjoyed most extraordinarily the events of the afternoon.

During the day two ball games were played on the diamond. The first was between the boys of Nova Scotia and New Brunswick, and after a strenuous contest the N. B. boys won out by a score of fifteen to eleven.

The second game was played between the seniors of New Brunswick and P.E.I. and again the New Brunswick men were victorious winning this game by thirteen to six.

The following were the teams:

N. B.—Stedman, Hand, Cassidy Thompson, Connell, Sherman, Tait, Spier and Connelly.

P. E. I.—Anderson, Scott, Freeman, Hunt, Rice, McLean, Moore, Corbett and Phillips.

ADVERTISERS and subscribers in Montaguee and vicinity are asked to hand all matters for The Guardian to Capt. W. A. Johnstone, the company's agent at that place.

## GREAT BRITAIN'S FLOATING DOCK

### Constructed in Secret, the Cyclops Can Repair an Entire Fleet—The Wonderful Things a Modern Navy Needs.

LONDON, Aug. 21.—Thousands of north country people who have gone to see the new seagoing dockyard, H. H. S. Cyclops, at South dock, Sunderland, have had to rest content with a distant view of this wonderful vessel. Applications to inspect the ship more closely are met with refusal.

Even the workmen of Sir James Laing & Sons, who have built her, are conducted to their departments, and are not allowed to communicate with any other part of the ship.

The ship is equivalent of a dockyard employing 800 men, that being the number of artificers she will carry, in addition to the crew to work the ship. She is nearly 500 feet long, and steams at sixteen knots an hour.

If the Cyclops is accompanying a fleet at sea, and one of the warships loses a propellor, instead of it being towed home to a dockyard, the commander will signal for a new propellor to be made, and the order would be executed on bord of the floating workshop. The same applies to anchors.

In addition to the foundry, fitted up with huge cupolas, there are forges where crank shafts can be wrought, and there are fully equipped copper and brass works, and rolling and punching mills. Any portion of machinery can be renewed or repaired, and vessels of the fleet, in case of their refrigerating apparatus breaking down, can be supplied with unlimited quantities of ice, made on board the Cyclops. In case of accidents to condensing plant, the Cyclops could supply a whole fleet with fresh water.

## SWEDISH PRINCE AT NEWPORT

### Wilhelm Entertained by Prominent People at Fashionable Resort.

NEWPORT, R. I., Aug. 26—Prince Wilhelm, of Sweden, who has been the guest of the Summer Colony of Newport at various social functions during the past week, attended a farewell luncheon given by Mrs. Stuyvesant Fish this afternoon, and this evening went to Warwick Neck, where he was entertained by United States Senator Nelson Waldrich and Mrs. Waldrich at their summer home. This morning the Prince attended a service at the Swedish Methodist Episcopal church and afterwards held a reception. In a brief address in the Swedish language the Prince said he was glad to see that although loyal American citizens, the Swedish people of this country still have a warm spot in their hearts for the Fatherland. After an automobile ride in the suburbs, the Prince and his party went to the Fish residence, where there were many prominent guests.

## MATRIMONIAL AGENCY SCHEMES

### Chicago Grafters Are Shut Out of th Mails and Must Try New Lines—Some of Their Methods of Fleecing the Public

WASHINGTON, Aug. 26.—Uncle Sam does not approve of Chicago's matrimonial agencies, and is opposed to lovemaking by mail when it is conducted through an intermediary. Consistent with its policy it has issued a fraud order against Harry Hart, Miss Hart and Hart's Correspondence club at 54 Wabash avenue. Chicago, names alleged to be fictitious.

It is reported that the individual designed to be reached is H Morris. The records of the postoffice department show that advertisements by a "charming lady, fine appearance, lovable disposition, worth $30,000, and of a "wealthy gentleman, income $10,000 yearly", who had "no objection to a poor working lady", were inserted in newspapers and magazines by the so-called club seeking victims. Upon receipt by the club of a letter in response to either advertisement a handsome photograph is promptly mailed. If the victim is a man a letter accompanies the photograph of some Gibson girl, stating that "this lady has expressed desire to become better acquainted with you as soon as possible."

The victim is directed to remit at once $5 to cover all expenses, and is promised that should the young woman who is soon to visit his locality, not win his heart the club has many other female members among whom without additional expense he may find his fate. Letters to women in search of husbands were of the same tenor, the object of the concern being to get $5 out of each victim.
