**APPEARS IN ENTERTAINMENT OF TEACHERS**

Mr. Paul Kollins, well known dramatist and entertainer, re-appeared on the local stage last evening after an absence of a period from the Province. The occasion was the recital before the teachers of the Prince Edward Island Teachers' Federation in Rochford Square Hall. To say that the programme was of a high order would be unnecessary as the reputation of Mr. Kollins as an entertainer is well known. Among his numbers however several stood out pre-eminently, Lead Kindly Light, Father and Son, Othello, Thomas Didymus, and Smilin' Thru.

Mrs. A. H. Roper and Mr. Ben Acorn each rendered solos which were heartily enjoyed. They were accompanied by Mrs. K. S. Rogers. Mr. Horace McEwen rendered a piano solo.

The occasion was graced by the presence of His Honour Lieutenant-Governor Dalton and Mrs. Dalton. Following was the programme:

**PROGRAM**

**Part One**  
 "Lead Kindly Light," The Con-valescent; Pat McGinty's Goat; Dif-ference Between Scot and Cooconut Killed Mine Too; The Children. (Dickens); Best Proposition; Pater and Son.

**Part Two**  
 Othello; One Who Steals—Magi-cian; Hogs Little Boy; Cannibal; Big Kiss; Little Boy Blue; Psalm of Life; Don't Be What Ye Aint; Rose is Priceless; Any Episcopallians?; Christian Fish; Rusty.

**Part Three**  
 Thos. Didymus; Little Wee Old Lady; This is where the Capt. Fell; Trust Your Own Father; Lay an Egg Six Inches Long; House With Nobody in It; Church With Nobody in It; Died Before Train Reached Him; (Short Poems); Smilin' Thru.

When the Speaker had resumed the chair, and before the bill was reported agreed to with amendments, Mr. Sharp moved, seconded by Dr. MacDonald, the Conservative amendment in the terms of the amendment moved when the House was in committee.

This was objected to by both Premier Lea and Hon. Mr. LePage, the latter contending that Mr. Sharp was "out of order" because the amendment was the same as the original amendment. "You can't make a motion unless you are changing something," he maintained.

Hon. Mr. Stewart pointed out that the present amendment was being made on the floor of the House; the previous one had been made in committee. Did not the hon. member from Rustico know that?

Premier Lea: "We know what my hon. friend is doing it for; it is to get it on the records of the House."

Hon. Mr. Stewart: "Precisely. And we are perfectly in order. It is my hon. friends who are out of order."

The amendment was put by the Speaker and defeated on the same vote as in committee, except that Mr. Allan Stewart, the chairman in committee, also voted against it.

The House went into committee on second reading of an Act respecting the office of Sheriff, Mr. Allan in the chair. The purpose of the amendment, Premier Lea explained was to provide that no change in the appointment of sheriffs would be made on the 1st day of June, which was the date on which the Supreme Court met at Summerside. It was to obviate the possibility of there being no sheriff in office on that date that the amendment was proposed.

The bill, after some discussion, was agreed to.

Third reading was given to "an Act to Amend an Act respecting Witnesses and Evidence" and an Act to amend the Life Insurance Act.

At 6 p. m. the House adjourned until 10 o'clock this morning.

 Coupons for both nights will be on exchange at the Wicket, Friday morning at 9.30 A. M.

**EDUCATIONAL**

(Continued from Page 1)

New Brunswick and Quebec were received at this session. Following the meeting the teachers were guests of the Calgary Public School Board and Board of Trade at luncheon.

Mr. Cecil Hynes reported on the sessions which were held at Edmonton where the delegates were welcomed by the Edmonton School Board. "The Legal Side of Teachers' Obligations," was the subject of an interesting address by Mr. G. H. Van Allan, K. C. solicitor for the Alberta Teachers' Alliance, who stressed the fact that the teacher does not differ in position from any other public servant. A number of social functions followed the session. The afternoon was spent at the Edmonton Exhibition.

At the evening session a discussion on military training followed the report of Mr. Colwill on the Geneva Conference. A report on the subject of examinations prepared by the A. T. A. was discussed. At the next session Mr. Hardy of Ontario suggested that a teachers congress meet in Toronto in 1932. Text books and curricula, and exchange of teachers were subjects discussed. At the final session to be held in Edmonton the report of the Federation of Women Teachers Association of Ontario was received. The session was followed by a banquet given by the Government of Alberta.

One feature of the proceedings that appealed to him very forcibly. Mr. Hynes stated was the recognition and honor given the teachers by leading officials of the Government, and by business men. Members of the C. T. F. were unanimous in sympathy to the Prince Edward Island members with regard to the meagerness of salaries.

The report on the final session which was held at Jasper in which resolutions were passed and business finished was made by Mr. L. F. McDonald, the president. A resolution was passed offering assistance if required to the P. E. I. T. F. in their campaign for higher salaries. Mr. McDonald graphically described the trip of the teachers through British Columbia to Vancouver and Victoria, and their return by the C. P. R.

Prefacing his outline of a Canadian History lesson Mr. E. J. H. Morrissey criticized Weaver's Canadian History, as he said, the material is greatly scattered. If the use of Weaver's text book is an example of uniformity the Province would be bet-

ter without it. Mr. Morrissey recommended a text by Stewart Wallace used in Ontario.

History is of two kinds, factual and rational, the latter dealing with cause and effect. In a model lesson one should first deal with old conditions, defects giving rise to the problem, the problem (to cure the defects), the event or attempt at solution, success of the solution, defects of the solution.

Mr. Morrissey then outlined a model lesson on governmental development referring to the struggle for responsible government the defects giving rise to the problem. The result was Lord Durham's report. This solution had defects which were remedied by Confederation.

A vote of thanks to Mr. Morrissey was moved by Mr. H. Lloyd Henderson and seconded by Mr. Charles Bentley.

Prof. L. W. Shaw gave an interesting lecture on the teaching of literature. Literature is of two types; literature of knowledge, and literature of power, the latter developing an appreciation for itself, and a desire for more literature. There is something wrong when the pupil leaves school with the facts of literature, and still no enjoyment for it. Study of literature should develop comprehension. It is impossible to develop ability for composition without a knowledge of composition.

A lesson, Prof. Shaw stated, should be set in a season appropriate to the theme if possible. Too often the teacher fails to bring the world into the school, and consequently the pupil does not take the school into life.

A short talk was given by Mr. J. P. Bradley of the Department of Education on the difficulties existing between the department and the teachers.

**Afternoon Session**

A practical demonstration of rare educational value was the teaching of a reading and spelling lesson to a Grade I Class of Prince Street School by Miss Isabel Bourke. The teachers were thus enabled to view the carrying out of the approved teaching methods for a primary class.

A vote of thanks to Miss Bourke was moved by Mr. Cecil Hynes, Montague and seconded, by Prof. L. W. Shaw, who remarked on the prominent part that drill had in the teaching.

**Junior Red Cross**

The Junior Red Cross Society of

(Continued from Page 1)

the Model School next put on a demonstration directed by Miss Catherine McLean, outlining the program and ideals of the junior society. The manner in which the children went through the demonstration was subject to many admiring remarks from the teacher.

Mr. R. H. Rogers made a plea for the co-operation of the teachers in the work of the Red Cross Society. He commented on the beautiful demonstration of the juniors.

There are in the schools of the Province 253 branches of the Junior Red Cross, with a membership of one-third of the pupils in the schools. Children in unfortunate circumstances, crippled children are being brought under the Red Cross Society. In this work it is necessary that funds be provided. The prevention of disease by inoculation against small pox or diphtheria the mitigation of suffering is the work carried on by the organization in this Province. The Red Cross puts on each year a membership campaign. The only two agencies which can do effective work are the school teachers and the Women's Institutes. It is urged that the teacher organize the work in their respective districts. Although a considerable part of the work is to be taken over by the Department of Public Health, but there is still work which is done directly by the Red Cross. Citizens are asked to co-operate by paying the membership fee of one dollar.

**School and Society**

Dr. T. G. Davis, Principal of Truro Normal School, was the speaker of the afternoon. He stated that he was glad to be in Prince of Wales College to which institution he paid a tribute. With regard to the Junior Red Cross demonstration he remarked on the splendid enunciation of the pupils who addressed. "A challenge to the Schools of Canada," was the topic which the speaker discussed. The home and the church have a great influence in the school. It is possible to control the influences and environment that surrounds the child. In society men and women of power are needed even in insignificant paths. All teachers going into the school room must never forget that there are two goals, ultimately one; the acquiring by the pupil of a balanced knowledge. Nature has a great deal to say about a child. Children are not born equal in endowment, but they are equal in the moral law, that each is to have an equal chance. Every experience through which a child passes is woven in the nervous make-up. The school is to counteract the unfavorable influences of early life. The curriculum represents a bundle of activities. School days should be kept within the line of life; education is life. The tendency is to ground the child in fundamentals, and make an application to life. The school is one of the finest sections of life in society. A certificate of high marks is an excellent thing to obtain, but if Canada is to build safely for the future the school must control and build the moral principles of the individual. The challenge is a challenge of loyalty, fair play, tolerance, courage, patriotism, ability to approach a task, ability to approach a job in the light of another's job. It is necessary to keep the ideal above the threshold of consciousness.

All individuals are equal before the moral law, each should have an equal chance. The appreciation of beauty is a point which should be stressed in school work.

A vote of thanks to Dr. Davis was moved by Principal Johnston, and seconded by Principal Lowther.

expedient to fix the rate of taxation to be imposed on companies, domiciled or having security registers in Prince Edward Island and that a bill be introduced embracing the above provisions." A bill in accordance with the resolution was received and read a first time.

The House in committee resumed second reading of an Act to Amend the Road Act of 1928, Mr. Allan Stewart in the chair;

Mr. Shelton Sharp moved, seconded by Dr. MacDonald, the following amendment to paragraph 4 of the bill, which refers to the commuting of road and horse taxes by statute labor:

"That paragraph 4 be amended by striking out all the words after the word 'Highways' in the tenth line thereof and by adding the following: By leaving a written or verbal communication for commuting the taxes by work, with the road overseer of his school district, before the tenth day of May for the year 1931 and thereafter before the first day of May in the year in which such road and horse taxes are payable, and the person so signifying his intention to commute such taxes by labor, shall be entitled to one week's notice from the Superintendent of Highways of the time and place when and where such labor is to be performed. Failure of such notice by the Superintendent of Highways shall be a good defense to any action or proceeding against such person for the recovery of said taxes."

The amendment, Mr. Sharp said, should be acceptable to the Minister of Public Works, if he was sincere in his statements yesterday. Under the proposed section one must give notice to the superintendent of highways, who may be located twelve or fifteen miles from some parts of a school district. There are many people who are not in the habit of writing many letters, but if there was some one in the district from whom they have been in the habit of taking instruction in regard to breaking the roads and paying their land taxes, they would naturally go to him for the privilege of working out their taxes. Then there should be some notice given to the person wishing to do statute labor, as to when he will be expected to go to work. There is no provision of this kind in the Act. We have many fishermen in the province who might wish to avail themselves of the privilege. Many of these men do not return from their work at the shore until July 15. If no notice is given by the highway superintendent, what chance have these men to know when they will be called upon to work? The amendment now proposed would cover that difficulty.

A lengthy discussion followed taken part in by Hon. Mr. LePage, Mr. Sharp, Premier Lea, Dr. MacMillan, Hon. Mr. McIntyre, Hon. Mr. Stewart, Mr. Butler and others. The amendment was finally put by the chairman, and defeated on the following party division:

**Ayes:**—Hon. Mr. Stewart, Dr. MacMillan, Mr. Arsenault, Mr. MacLean, Dr. MacDonald, Mr. Sharp, Mr. Butler.

**Against the Amendment:**—Premier Lea, Hon. Mr. McIntyre, LePage, Dr. MacNeill, Sinclair, Clark, Wright, Messrs. Dennis, Cox, McPhee, Darby, Larabee, Campbell, Allan, Mustard, Bruce.

The clause, as amended to provide that work shall be performed before the 15th day of July, (instead of June) was carried on the same division.
