College Days Ahead

Their Education was provided by Their Fathers' will

CHILDREN are apt to grumble about school sometimes, finding classes irksome. They need a firm, parental hand—but the time comes when they are very glad of their education.

"How can I make sure that they will continue their schooling after I am gone?" he asked his wife when they told him he had better put his affairs in order for the last time.

She, poor woman, stricken with the verdict the doctors had pronounced, could offer no suggestions. But he found a way. He made a will, leaving the proceeds of one of his Mutual Life policies to be set aside for the purpose, and naming a trustee to help the mother administer this fund.

You, too, are anxious to insure the education of your children, whatever may happen. Let our agent explain the benefits of the Mutual Life's Educational Endowment Policy, specially designed for safeguarding this important purpose. Write this office for "The Mutual Book".

Apply Sulphur On Your Eczema Skin

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment without delay. Sufferers from skin trouble should obtain a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

The "cross word puzzle" stocking is the latest craze to strike the Par's hostery world. When the first really cold days of winter came, silk stockings of gossamer texture were gradually discarded and many women adopted very fine hand-made Angora wool stockings. This is the material of which the "cross word puzzle" stockings are made. A shop-keeper got the idea from the puzzle design he noticed two women interestingly working over while waiting to be served. A few days later he displayed in his windows a stocking of checker board design with the squares in black and white, about the same size, and distributed haphazard in the manner which has become so familiar to all lovers of cross-word puzzles in the daily papers. The novelty has found good customers among foreign women, but French women say it is hideous. The cross-word epidemic itself has not struck France as yet.

Mrs. L. R. Unsworth was hostess at a most enjoyable mixed Bridge on Thursday evening at her home on Fitzroy street.

An Augusta, Maine, paper, in paying tribute at Christmas to an old actor, Mr. Percy Webber, who has hosts of friends here, says:—The claim has often been made
