ALDERMAN PATRICK CONWAY

After her unfortunate accident while on her way to the Senate chamber for the Governor General's annual session, she was injured. Her Royal Highness the Princess Louise saw little of Ottawa. She spent two years in England, and the winter of 1882-83 in Bermuda, to avoid the rigors of the Canadian climate. She returned to Ottawa in the spring of the latter year, three years after she was injured. Dr. St. Jean was mayor at the time, and upon his suggestion the city council decided to present the Princess with a "welcome home" address.

As a newspaperman I was invited to accompany the city council and thus saw Rideau Hall for the first time. It was on this occasion that I met Alderman Patrick Conway, a bluff, kind-hearted Irishman who kept a lumbermen's hotel near by ward market. The Governor General, the Marquis of Lorne, was very anxious to know the business calling of each of his visitors and when he came to Alderman Conway he asked him his name and what he did.

"Patrick Conway, may it please Your Excellency," he proudly replied, and then proceeded, "I keep a hotel on the market, and I sell the finest glass of beer in Ottawa. I wish some hot day when you are going back to Rideau Hall from the Buildings, Your Honor, you would drop in and have a glass with me."

The Marquis laughed heartily and thanked the alderman for his cordial invitation. Whether he ever accepted it I never heard.

The story of the manner in which Conway got into the city council is almost incredible. Mr. James White was one of my colleagues in the council in later years and he it was who vouched for the correctness of what I am about to narrate. He said it was on a cold winter's night, or rather morning, in December, 1880, that half a dozen denizens of "Letter O," one of the survey designations of Ottawa ward, were homeward bound after a lively evening around the Upper Town hotels. Taking a short cut through By ward market square one of the party said, "Boys, I am chilled to the marrow and must have another drink before I go home." At the moment they were passing Conway's hotel. "Well, lets

Marsh Wins Decision From N. S. Boxer

(C.P. By Guardian's Special Wire)
SAINT JOHN, N. B., Sept. 17.—Joe Marsh, Canadian amateur lightweight champion, gave Saint John fans a fine exhibition here tonight as he took a decision from Art Jarrett, N. S., Maritime title holder, in the feature bout of a boxing programme. Marsh outsmarted and outboxed the Maritime champion throughout the entire five, two-minute rounds.

The Canadian titlist from Montreal, who represented Canada at the British Empire Games, proved that a smart boxer can win from a slugger. He let Jarrett carry the fight to him from the start, countering cleverly with lefts and rights as the Nova Scotian closed in with both hands flailing. Jarrett never gave up trying.

Another bout brought together the Maritime and Nova Scotia fly-weight champions—Gerald Farrer of Saint John and Sammy Block of Amherst. Farrer's greater experience and longer reach brought him victory in the fourth round on a technical knockout. Farrer smashed his left and right to Block's jaw to floor the Nova Scotian near the end of the fourth round. Block climbed to his feet gamely but was in no condition to continue and the bout was stopped at his request.

But what the two feature bouts pleased the crowd, a Frederickton youngster, making his first appearance in the ring, stole the show and was given the greatest ovation any amateur has ever received from a Saint John crowd. Fourteen years old, tall and slight, Dallas Laskey gave Joe Bryson, Saint John veteran, a boxing lesson in their five round go and won a decision.

YOUNG PEOPLE'S SOCIETY AND SUNDAY SCHOOL PICNIC AT WOOD ISLANDS

On the afternoon of Tuesday, August 7th the people of the Presbyterian congregation, Wood Islands—the older folk as well as younger—gathered in large numbers at Brown's Shore Wood Islands Bath for the purpose of holding their annual Young People's Society and Sunday School Picnic.

The day was all that could be desired and all who came were ready for a good afternoon's sport. Quite early in the afternoon the games of various kinds under the direction of Messrs. Murdoch McPhee and Perley Young were called on. One of the most popular of the contests was that of racing. The following is a list of the various races and other contests and games held, together with the names of the prize winners among those who took part in them:

Race for boys under 7 years of age—1, David McLean; 2, Lewis Nicholson.

Race for boys from 7 to 12 years of age—1, Lester McDonald; 2, Allan Hazen.

Race for girls from 7 to 12 years of age—1, Grace McMillan; 2, Marjorie Hill.

Race for boys from 12 to 16 years of age—1, Lester McMillan; 2, Donald McMillan.

Free for all race for boys—1, Monty McMillan; 2, Stewart McMillan.

Free for all race for girls—1, Eria Beaton; 2, Nan McMillan.

Half Mile Race—1, Monty McMillan; 2, Abell Rossmussen.

Sack Race—1, Monty McMillan; 2, Harold Young.

Suit Case Race—1, Monty McMillan; 2, Bella Stewart.

After the races were over considerable time was spent on the beautiful beach adjoining the picnic grounds. Those who took delight in bathing enjoyed themselves to the full.

Following this came a dainty supper prepared by the ladies of the congregation, and to which needless to say all did ample justice.

Some time later a tug of war was staged between the single men and the married men. The single men won out in two straight pulls. Not long before the breaking up of the picnic a short devotional service was held. This was conducted by Miss Verley McMillan and Mr. Harold Young, president and vice president of the Young People's Society, assisted by Miss Elizabeth McDougall, Deaconess of Chalmers' Jack Mission, North Sydney. After quite a number of the old favorite hymns had been sung and prayer offered an inspiring address to the younger people was given by Rev. R. Hensley Stavert. The singing of another hymn and the Missal Benediction brought this beautiful little service to a close.

The gathering as a whole was then closed by all joining hands and singing "Auld Lang Syne," followed by the National Anthem.

Almost immediately after the breaking of the picnic proper a soft ball game was played in a field near by. This was played between the Wood Islands team and the Flat River team. The Wood Islands team won by quite a good margin. The day throughout had been a real red-letter day in the lives of the younger people and all, both old and young folk, went home feeling much the better for the afternoon's outing.

Mrs. McTavish: "My little boy has just swallowed a two-shilling piece."

Neighbor: "Dear me, is he in any danger?"

Mrs. McTavish: "Thank goodness, his father's

The World's Best Cheese

When J. F. Singleton Dairy Commissioner, Dominion Department of Agriculture, was in the British Isles recently he was told by the largest importers of Canadian cheese that they could offer no suggestions on how further improvements could be made to enhance the quality.

In further support of this Lucas Claxsey, one of the largest buyers of Canadian dairy produce in the British Isles and a member of the British party of buyers of food products which has just completed a two weeks' tour of a part of Eastern Canada, stated publicly both in Montreal and Ottawa that in his opinion Canadian factory cheese is the best in the world. "There are some who think that because some cheese has a higher percentage of butter-fat it should be superior cheese," said Mr. Claxsey. "Canadian cheese may yet be a less percentage of butter-fat yet it will be better cheese than that made in some countries with as high as 80 per cent of butter-fat. It is principally texture and flavour that go to make good cheese and Canadian cheese has these. I have told Royal Commissions and Parliamentary Committees in the British Isles that I consider Canadian cheese is incomparably the best and I am one of the largest buyers in the British Isles of cheese from all parts of the Empire and other countries."

There has been a decided improvement in the quality of cheese made in Canada since grading was introduced in 1923. In that year about 78 per cent of the total production graded No. 1. In 1933, 94.7 per cent of the highest grade. The cheese made in Ontario last year averaged 95.73 per cent grade 1. Notwithstanding the improvement in the quality of Canadian cheese in recent years the production was less for the calendar year 1933 than in any years since about 1890, totalling only 111,044,628 pounds. The largest quantity made in any one year was in 1904, when the total was about 250,000,000 pounds. On the other hand, the milk production reached its highest annual total in 1933, when it was 16,024,831,000 pounds.

"What do you think of a man who will constantly deceive his wife?" "I think he's a wonder."

Premonition Of Accident Proves True

(C.P. By Guardian's Special Wire)
ST. STEPHEN, N. B., Sept. 18.—Norman Lister's dream had come true tonight. He wished it hadn't.

The dream, as he told his mother a few days ago, was that a car fell upon him and broke his legs. Lister, a man of superstitious enough to avoid going under a car until yesterday, when his duties included unloading a shipment of automobiles.

A chain on the hoisting gear broke, a car plunged into the ground and the dream came true with a vengeance. As well as a broken back, he suffered fractures of one leg and four ribs.

His condition remained critical tonight at Chipman Memorial Hospital. Lister, who was married only ten days before the accident, has not lost consciousness and is able to talk to his wife and his mother.

Homemade Ice Cream

There is evidently a general belief among women that it takes a great deal of time and hard work to make ice cream, but according to the Dairy and Cold Storage Branch of the Dominion Department of Agriculture such is not the case. It is a simple matter to mix the ingredients for ice cream. If the ice and salt are used in proper proportions, it is a matter of only 15 to 20 minutes before the freezing process is completed. The freezing process, however, is important to give the ice cream the proper body and texture, as those conditions have a great effect on the palatability.

The following is a recipe for nut ice cream.—Take 1 pint of cream, 2 teaspoonfuls of vanilla, one-third cup sugar, and one-half cup
