McKenna, Montreal; T. G. Carter, Halifax; G. H. Hawkins, Montreal; Capt. J. J. Galt, Toronto, registered at the Clifton House, Summerside, between 9 last evening (after the arrival of the Empress) and 9 the previous evening.

YOUR HANDS.

Oh, my hands are much too thin to be pretty! said a girl the other day when some one rather admired her slim fingers.

But that is quite a mistaken notion of hers. It doesn't necessarily follow that a hand must be plump and dimpled to be beautiful.

The well cared for hand cannot fail to be a pleasing one, however it is shaped.

To possess a well shaped hand is almost as great an asset as to possess a pretty face.

No matter if your hand is plump or thin, tanned by the sun or soft and white, if it is to lay any claim to beauty the skin must be firm, smooth and well cared for.

But I haven't time to bother about such things! exclaims the busy woman.

But it really doesn't take long—only a few minutes daily. Here are some points to remember.

Never half wash your hands. To do this is merely to send what dirt is left in the pores farther in than it was before.

Always remember after washing to push back gently the cuticle at the base of the nails. And if hangnails seem inclined to develop rub a little cold cream or almond oil into the nails every night. If you like your nails to look polished there is no need to buy a pad. The palm of one's hand makes an excellent one.

Sprinkle a small quantity of powder on it and rub the nails of the other hand vigorously backward and forward over it. You will be delighted with the result.

To keep the hands soft and white try the following, which should be rubbed well into the hands after washing and is very cheap and easy to mix: Mix together equal parts of glycerine, olive oil and either lemon juice or eau de cologne. The oil and glycerine soften the skin and the lemon juice or eau de cologne acts as an astringent.

If at any time your hands are very dirty rub in a little oil or fat before washing. This loosens the dirt, and with warm water and a good soap it is easily removed.

—Senator Yeo, Port Hill, was in Summerside yesterday.

—Bradford M. Gough, Charlottetown spent yesterday in Summerside. He was busy calling on his many friends who were pleased to see him.

—Mrs. D. B. McDonald, North Bedouque, left by the Empress Monday morning for a visit to Remington in the northern part of New Brunswick.

ROYAL GEORGE ABANDONED TO UNDERWRITERS.

TORONTO, Nov. 11.—The Canadian Northern Railway liner Royal George has been abandoned to the Underwriters. The vessel is still in the same position on the rocks, one mile east of Point St. Lawrence, and the owners, preparing for the worst, have notified the insurance companies that the vessel is now on their hands. The message was cabled to London yesterday by Vice-President D. B. Hanna, who has charge of the steamship department. Mr. Hanna stated that it was not owing to belief that the Royal George was badly damaged that this step was taken, but that the Company were assuming the worst, and that in such a case they had but taken proper steps to protect both underwriters and themselves.

Mr. Hanna said that the Royal George was insured for \$1,275,000, but this amount would not cover the cost of replacing the liner. He placed the cost of it between \$1,700,000 and \$2,000,000, and besides this loss, he said the Company would lose a great deal more from the loss of traffic and other things which could not be figured in dollars.

GLOVER CONDITION SERIOUS.

CAMPBELLTON, N. B., Nov. 12.—John Glover, the young man who was shot in the woods near Anderson on the I. N. R., by Peter Rioux, is doing as well as can be expected. His condition is undoubtedly serious, but if no complications set in, he will make a good show toward recovery. The wound in the head are very serious, pieces of bone and a small part of the brain substance being removed Sunday. The doctor is pleased with the condition of the patient to-day.

Glover is a native of P. E. I., but has worked here for a few years. A wife and five small children live at Athol. His mother and sister live at Gaspe. He is a jobbing lumberman for the Richards Mfg. Co., is a hard worker and a quiet, inoffensive man. His wounds are very serious, but he may recover.

Elvin Annett, of Gaspe, the murdered man, aged about 21 years, was foreman for J. B. Glover, a lumber jobber for the Richards Mfg. Co., near Anderson. His father and mother reside in Gaspe. He was a quiet, steady man, respected and liked by all.

Mrs. Annette, the mother of the young man killed by Rioux, is in a very serious state, and it is feared the shock of the news of her son's death will be too much for her. She has been suffering from heart disease for some time.

Peter Rioux, the murderer, was about 30 years of age, well built, about six feet tall, was clean shaven, hair dark. He had a lame foot which he cut with an axe about ten days ago.

Rioux was noted as a thorough bad man and a scrapper. Some years ago he got into a barn at Cabano, P. Q., for which crime he served time in the Penitentiary. About Fraserville and vicinity he was well known, having been frequently arrested for fighting and has served jail sentences.

Had Rheumatism WAS CONFINED TO HIS BED FOR FOUR MONTHS.

Mr. W. H. Riley, Ruddell, Sask., writes:—"It is with the greatest of pleasure that I can recommend Doan's Kidney Pills to all suffering with rheumatism. I was so bad with this terrible disease, I was unable to get up from my bed for four months, and nothing seemed to relieve me until a friend recommended Doan's Kidney Pills. I had my doubts about them, but was so desperate I would try anything suggested to me. After taking half a box I was able to get up, and after taking two boxes could get around quite well. After taking six boxes I was completely cured, and able to work for the first time in five months, and have not had a touch of rheumatism since. Anyone who saw me then would not know me now, as I am strong and active since taking your valuable medicine."

Rheumatism is caused by the presence in the blood of uric acid, and the kidneys not working properly is the sole cause of this, and unless you remove the acid by flushing the kidneys, there is no possible chance of getting rid of rheumatism.

Doan's Kidney Pills Help the kidneys to flush off the acid and poisonous impurities which have collected, and thus clean out the kidneys, and dispel the rheumatism from the system.

Doan's Kidney Pills are 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

In ordering direct, specify "Doan's."

Our Price to All **PROWSE BROS** And Strictly Cash **LIMITED**

guarded the body until the arrival of the coroner.

E. H. Anderson gave evidence as to the locality of the shooting stating that it was about three miles east of the boundary line between the counties of Victoria and Restigouche.

Chief Hughes gave evidence as to searching the camp of Rioux, and A. E. G. McKenzie told of finding the empty shell near the spot indicated by the witness Patterson.

No other evidence being forthcoming it was decided to adjourn the inquest sine die, till a postmortem examination had been made. The jury were unanimously of opinion that they could arrive at a decision as to the cause of death without this, but it was necessary that it should be

made to comply with the legal requirements of the case.

DEBT TO ANIMALS. Humanity has every reason to be grateful to animals. It was the beaver that showed us the possibilities of building under water; the bee brought us the conception of regularity in building; the birds are the oldest masters of basketwork; they too, have furnished every inventor who has attempted to design a flying machine with his basic principle; the spiders have taught us the art of weaving and suspending a net.

Man learned how to construct ships from the fish; how to dig holes from the badger; and the frogs gave him his first swimming lesson.—Humane Advocate.

THE MELANCHOLICEST SOUND (New York Sun.) "Talking of the cost of living," said an up-town pollman yesterday, "reminds me of an experience of a sensational lady friend of mine this

summer. She was being rowed across an Adirondack lake by an old and seasoned guide in the dusk of a July evening. She listened in rapt silence for a time to the owls and whippoorwills and then began in subdued tones to talk to her companion of the melancholy that hung over the woods at twilight, of the appropriateness of the night-birds' notes, of how they voiced the eternal solitudes of Nature. "Are you not," she concluded, "often struck by all this poignant sadness? How can you endure these melancholy sounds so constantly? Which of them seems the most melancholy you have ever heard?" "Well, I guess the melancholiest sound I ever heard," came the matter-of-fact voice from the other end of the boat, "was my wife scraping the bottom of the flour-barrel with an old sasser."

Shiloh The family remedy for Coughs and Colds. Which costs so little and does so much!

DR. A. W. CHASE'S 25c CATARRH POWDER. Improved Flower. Heals the ulcer, clears the air passages, stops droppings in the throat and conjunctivitis. It cures Catarrh and Hay Fever. See a box; it's free. Accept no substitutes. All dealers or Edmondson, 200 St. G. Street, Toronto.
