### In Memoriam

MRS. HERBERT STEELE

There passed away peacefully at her residence, 278 Grafton Street, on August 16th, 1933, Muriel Doyle, beloved wife of Herbert Steele. Death at all times brings sadness because it severs the earthly ties that bind us to those whom we love, but when God, in the inscrutable designs of His Providence, separates through death a mother from her husband and the little family growing up beside her, the weight of sadness cast upon the loving ones is great indeed and the hearts of all are filled with deepest sympathy. The late Mrs. Steele was a woman of sterling character whose kindly heart and cheerful disposition won for her a host of friends. Her life's work was in her home. She was one of the noble women whose vocation is to bear a Christian home and exemplify therein the high ideal of Christian motherhood. She fulfilled her mission well, and though to human judgment it would seem that her work was not yet done, still God judged otherwise, and now, from her place in heaven, she will still watch over those whom she loved and for whom she sacrificed while in their minds she leaves the sweetest memory and in their hearts the tenderest love for a faithful wife and kind mother. For several months she bore the sufferings of a distressing illness with Christian patience and fortitude and on August 16th, with her husband and children and other members of her family at her bedside and while prayers were being offered by the clergy and Religious Sisters present, she yielded her soul to God to receive from Him the re-

ward of the faithful servant. She leaves to mourn her husband, Herbert Steele and eight children, Mary, George, Albert, Philip, Frances, Edwin, Teresa and an infant son Garnet and also her father John Doyle, a brother Charles and a sister Mrs. Earl McLean.

The funeral was held on August 18th at St. Dunstan's Basilica where the services were conducted by Rev. Wilfred McCordie. Rev. Louis A. Dougan assisted at the grave. May she rest in peace.

### Busy Compiling Crop Statistics

OTTAWA, Sept. 6.—(CP)—Observations of some 15,000 men scattered throughout Canada are being pooled today with the knowledge and experience of Dominion Government statisticians in the compilation of the first official estimate of Canadian crop production for the past year. The estimate will be issued Friday by the Dominion Bureau of Statistics and is eagerly awaited on the markets of the world, particularly because of its prediction as to the wheat yield of the three Prairie Provinces. Unofficial estimates have placed the wheat crop at more than 300,000,000 bushels. Domestic consumption would take about 100,000,000 bushels leaving 200,000,000 available for export.

### Visit of Legion's President

Colonel Foster, the Dominion President of the Legion who is to address a meeting in Prince of Wales College at 8 o'clock next Monday night, will arrive by plane that afternoon. The following is a brief record of the Dominion President's War service which is taken from "The Legionary," the official publication of the Canadian Legion.

Colonel W. W. Foster, D.S.O. (and two bars), V.D., of Vancouver, who, after many years' tireless and unselfish service to his old comrades-in-arms, was elected, by acclamation, Dominion President of the Canadian Legion of the British Empire Service League at the Dominion Convention at Fort William last February. Born in Bristol, England, Colonel Foster came to Canada as a young man and soon rose to high positions in the business and public life of British Columbia. On the outbreak of war in 1914 he proceeded overseas as a regimental officer, was promoted to Lieutenant-Colonel in June 1917, and given command of the 52nd Battalion, C.E.F., of which he remained the fearless and devoted leader until demobilization. He was wounded twice, mentioned in despatches five times, and in addition to being awarded the Distinguished Service Order and two bars, was decorated with both the French and Belgian Croix de Guerre.

### Sunday Service Trinity Church

Rev. Baxter J. Warr, Field Secretary of the Lord's Day Alliance of Canada for the Maritimes in his sermon on Sunday spoke as follows: "The problem of safeguarding the Lord's Day is one of the most serious problems confronting the Christian Church today. Generally speaking, it may be said that our people do not want to work or to do business on Sunday. However, there are elements that have more regard for material profit than for physical and spiritual welfare which offend against the Sunday law. Also the increasing tendency to use Sunday for recreation rather than for re-creation, especially during the summer months, involves an ever-increasing amount of Sunday labor; but generally speaking the business men, the professional man, the worker in industry and the farmer have no regrets when Saturday night arrives with a breathing space at hand.

The Lord's Day Alliance of Canada, which has this year entered upon its fiftieth year of service, has by securing Federal legislation in the passing of The Lord's Day Act in 1906 as the law of the land, by securing the recognition of this law in every Province of the Dominion by abridging criticism; quieting hostile feeling; settling prejudice; developing and informing public opinion; by securing recognition and enforcement of the law locally by conference and correspondence; by persuading people to respect the day in their personal and business life; by conducting an uninterrupted campaign of education, done yeoman service to the Church and people of this land, which should merit the thanks of all. The Alliance from the beginning realized that no law is enforceable unless it has behind it strong public opinion. It is engaged in a great beneficent enterprise, nationwide in its range, fundamental in its nature in relation to national prosperity and influence, and calculated to fix in large measure the character and destiny of the people of the land for all time to come.

The Lord's Day Act provides the people of Canada with one day of leisure every week. But you obtain leisure for a people, in order to lessen their problems you introduce deeper, because there are no spiritual problems. Someone has said that a test of civilization is how its people spend their leisure. The right observance of the Lord's Day is vital to its influence in the life of the community. All who reverence the Day and desire to preserve it should rally to support. Law enforcement authorities, Labor organizations and the Press are, generally speaking with us. It is important that we guard by law a sabbath of rest for the body, it is infinitely more important that we use the Day in the interests of the immortal soul. The Church must attend to this. The Alliance will continue the work for which it was brought into being namely to see that industrial slavery shall not exist in Canada. This, it will do as it has done all along, by relying upon reason rather than coercion in the enforcement of the Act.

FRESH BLUEBERRY MARKET CONDITIONS IN NEW YORK Due to a short crop in Massachusetts, fresh blueberries from Canada have to compete principally with those from Maine in the New York market this year, writes W. D. Wallace from the office of the Canadian Trade Commissioner at New York. Fresh blueberries from Nova Scotia have ranged in price from 10 to 14 cents per quart for the poorer grades, 15 to 20 cents for the medium grades, and 20 to 25 cents for the best quality. New Brunswick berries have sold for as low as 8 cents per quart for poorer grades, and as high as 15 to 20 cents for the best grade, present levels ranging from 13 to 17 cents. Maine berries have been as low as 5 cents and as high as 22 cents, the present average market price being about 18 cents for the best grade. The trade does not look forward to any increase in the price of northern blueberries, but, unless an oversupply develops, prices will remain about at present levels.
