SUMMERSIDE

SOCIAL LIFE LAST CENTURY TORONTO, March 24—When St. Lawrence Hall in this city was the scene of social life Jenny Lind sang there, and on one occasion she was panderously criticized in petronising fashion by a local critic in the "Anglo-American Magazine." Edwin Guillet, Canadian author and historian, speaking here on Social Life in the last century, said that when York was founded in 1793 it was intended primarily for a military centre. Its social life for the first 25 years was extremely simple, but from the very beginning it was noted for its hospitality. Taverns were the centre of community life, and from the records of Miller Tavern we learn that many of the important citizens were not always prompt in paying their bills. Duelling was still common. At one ball, at which the lady mayors received, "the ladies," according to the social columns of the day, "were regaled with tea, coffee and ice, while their more robust companions enjoyed the sterner luxuries of Roman punch.

Settlement Reached In Threatened Strike In U.S.

WASHINGTON, March 26.—(By Associated Press).—Settlement of the threatened United States automobile strike was announced tonight at the White House. "The following statement was made by the President: "The President appreciates the cooperation and the good public spirit that has been exhibited all through these days of discussion by both the representatives of the employers and the representatives of the employees. He feels both have been actuated by high considerations of the public good."

SPARKS KAYOED BY WARRINGTON

SPRINGHILL, N. S., March 25.—(Canadian Press).—Tiger Warrington, of Liverpool, knocked out Big Bill Sparks of Amherst, in the fourth round of a scheduled ten-round boxing match here Saturday night. Sparks was down for the count of eight in the second and twice for the count of five in the third. Warrington landed a right to the jaw after 30 seconds of the fourth, and Sparks was out. Sparks weighed 170 pounds, Warrington 174.

BEST DRESSED WOMAN IN THE WORLD HURRIES TO N. Y. TO AID HER ACCUSED SON

PARIS, March 24.—Mrs. Jean Naah Dubonnet and her husband, Jules Dubonnet, millionaire aperitif manufacturer, left for Cherbourg today to embark in the liner Berengaria for New York to aid Andrew D. Kirwan, Mrs. Naah's son by a girlhood marriage. Kirwan is held for murder on a charge that he stabbed Gilliam Sessome of Seattle, on a liner en route to New York from Europe. Mrs. Dubonnet was angry over reports from New York that Kirwan was a "forgotten son"—forgotten in her meteoric career in Europe as "the world's best dressed woman."

WOMAN AS CIRCUIT RIDER MAKES GOOD ON PRAIRIE

SASKATOON, March 24.—Should women be ordained to the ministry? Whatever becomes of the abstract question, Rev. John L. Nicol, Ph.D., superintendent of United Church missions in northern Saskatchewan, presents Miss Lydia E. Gruchy, B. A., missionary at Kelvington, Sask., as a concrete example of a woman's success in the pastorate. "On the Kelvington charge," writes Dr. Nicol, "she has six regular preaching places and conducts four 'Sunday' schools during the week. She has fifty miles to drive on a Sunday over rough roads that would be impassable for a man. But Miss Gruchy scarcely ever misses an appointment. Yet when a marriage is to be performed or Communion held, she has to send forty or fifty miles for a man to come in and solemnize these rites."

William Green, President of the American Federation of Labor. After obtaining an acceptance of this peace proposal by the manufacturers the President called labor leaders, headed by Green to the White House and brought them into an agreement. Hugh S. Johnson, Recovery Administrator, sat in with Mr. Roosevelt at the conference. Leaving the White House before the labor men, Johnson said a virtual agreement had been reached and that only one more detail remained to be decided. That detail concerned the manufacturers. Johnson went at once to talk with them and announcement of the final settlement came soon afterwards.

Rehabilitation Work Carried On In Trinidad

PORT OF SPAIN, Trinidad, Mar. 25.—From Guadeloupe, the little French possession in the West Indies, has come a contribution towards the work of rehabilitation in southern Trinidad, stricken last summer by a disastrous hurricane. Much of the \$1,700 sent from the neighboring possession will go to assist persons of French extraction—descendants of old French families who fled to Trinidad decades ago when revolution shook their homeland. Their prosperous farms were destroyed, and their crops wiped out, in the terrific wind that whirled over the island, causing more than \$1,000,000 damage.

New York Stocks Show Some Gains

(By John L. Cooley) (Associated Press Financial Writer) A.P. By Guardian's Special Wire) NEW YORK, March 25.—Stocks found the news more encouraging Saturday and prices improved slightly. A hopeful view of the United States automobile labor situation prevailed during market hours, with the result that traders put in some buying orders, partly for short account, on the possibility that settlement of the motor industry's dispute would have been announced by opening time tomorrow. Bonds were about steady. U. S. Government being higher in dull trading. Stocks were rather active in the first half hour or so but volume slackened later and the advance was leisurely. Automotive issues took the lead, but their gains were hardly larger than those of other industrials and several rails. On the whole, the upturn was broad. Sales amounted to 68,510 shares for the two hours. Net gains of a point or more were established by General Motors, Nash, Chrysler, Hudson, Montgomery Ward, U. S. Steel, Bethlehem, Westinghouse, Auburn, American Telephone, Gasco, Baltimore & Ohio and American Rolling Mill. Metals firmed fractionally and so did a number of utilities. Automobile equipments improved less extensively than the issue of car-producing companies. Curtis Wright shares and Servel were active and mildly improved. In addition to the cheerful tenor of the Washington dispatches sent the labor negotiations the market noted remarks attributed to Senator Fletcher that margin requirements in the regulation bill might be cut down when the committee goes over the revised measure, although no mention was made of other modifications. The initial quarter of 1934 has another week to run, and then earnings statement covering results of the year's first three months will be appearing. Some of the estimates that were made in January have been revised downward, but obviously the comparison with a year ago will be favorable. The hesitation which has characterized stocks this week is well illustrated in the net change of the composite for the week; this amounted to a gain of just one-tenth point. By an interesting coincidence both the stock and bond averages closed yesterday at 86.

Windsor Youth Injured By Runaway Sled

WINDSOR, N. S., March 25.—(By The Canadian Press)—Taking the place of a horse between the shafts of a heavy wood-sled loaded with lumber nearly cut Murray MacDonald his life. The 18-year-old Three Miles Plains youth was steering when the sled broke away from the grasp of his two helpers on a steep hill and passed over his prostrate body, dragging him ten feet and leaving him lying unconscious in the snow. He was badly cut about the face and body, and an X-ray will be necessary to discover the seriousness of a swelling on his back.
