

Naturally Lovable

"That Schoolgirl Complexion"

—is kept and safeguarded by thousands through following this simple rule in daily skin care

As more women become skilled in the ways of beauty, more and more turn to natural ways in skin care.

That means a clear skin; pores kept free of accumulations to perform their functions naturally.

Thus modern beauty culture starts with soap and water; its only secret being the KIND of SOAP one uses—and how.

Palmolive is a beauty soap. A soap made of bland and soothing cosmetic oils, solely for one purpose; to safeguard the complexion. A soap made to be used freely, lavishly on the skin.

Used in the following way, it is credited with more beautiful skins, probably,

than any other beauty method. Its results you see on every side today.

The rule to follow if guarding a good complexion is your goal

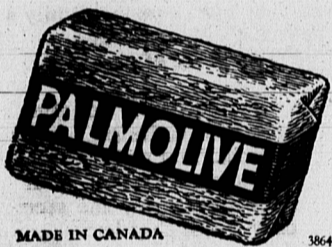

Wash your face gently with soothing Palmolive Soap, massaging the lather softly into the skin. Rinse thoroughly, first with warm water, then with cold. If your skin is inclined to be dry, apply a touch of good cold cream—that is all.

Do this regularly, and particularly in the evening. Use powder and rouge if you wish. But never leave them on over night. They clog the pores, often enlarge them. Blackheads and disfigurements often follow. They must be washed away.

Soap from trees!

The only oils in Palmolive Soap are the soothing beauty oils from the olive tree, the African palm, and the coconut palm — and no other fats whatsoever. That is why Palmolive Soap is the natural color that it is—for palm and olive oils, nothing else, give Palmolive its natural green color.

B. C. Potato Crop Ready To Harvest

(Special to The Guardian) TORONTO, June 5.—The British Columbia potato crop shows every indication of setting an example in early shipments that it would be fine if Ontario crops could follow, according to A. H. Fulton of the

Dominion fruit branch. As matters are at present, what with the scant rainfall and generally unfavorable weather, it does not appear as though the latter crops were standing much chance of maturity for a long time yet, whereas on the Pacific coast digging is expected to start at the end of this week, and the first shipments should be on the way by June 10, and ought to have reached

their height by June 24. Presuming the average yield of 100 bushels per acre to be maintained in British Columbia, the early production should reach 195,000 bushels or about 430 cars. The majority of the first shipments will move to prairie points.

Mt. Stewart Notes

Mr. and Mrs. Alvin McKenzie, motored to Georgetown Sunday. F

Mr. and Mrs. S. C. Clark, City, were among the motorists to Mount Stewart Sunday.

School has reopened once again after the holidays, and is progressing excellently under the capable leadership of Miss Mary C. McDon-

ald, principal, and Miss Agnes M. Clements, assistant.

Great growing weather for the farmers and gardeners who have sown and planted.

Dr. and Mrs. A. B. Martin motored to Mrs. Martin's former home, in O'Leary, Saturday.

Mr. John Watts, Tracadie, made a trip through Mt. Stewart with some fresh codfish last week, and as this was the first, believe me he was not long disposing of his load.

Among the C. N. R. employees who spent Sunday at their homes here, were Messrs. Ray Smallwood, Fred J. Smith, Otis D. McAssey, also Henry Douglas and John McLaughlin, Head of Hillsboro.

Mr. Daniel McAssey purchased twelve acres of land last week from Dr. James Walsh and is to be congratulated for his purchase, as it is in a high state of cultivation, and

very conveniently situated, having a public road on three sides.

On Wednesday night, May 30th, the Y. P. S. of Marshfield, presented their play, "The Man from Denver" to a large and appreciative audience in the I. O. F. hall here.

The play from beginning to end proved interesting, and each actor and actress played their part with the ease and grace of professionals.

Between the acts were solos and monologues, which were well received. Selections were also played on the violin, with organ accompaniment. Following the entertainment, a sale of pies and candy was held. Mr. W. L. McLeod acting auctioneer in his usual good style, and following this a dainty lunch was served downstairs, in the former Reading Room, where Mr. John T. Ferguson on behalf of the Marshfield and Dunstaffnage Y. P. S. in a few well chosen words thanked the Mount Stewart people for their kindness, to which Mr. George Clark fittingly replied. Half the proceeds were kindly donated to the Cemetery Aid here.

meals on time!

SHARP on the dot, meals are ready to serve when Perfection does the cooking. No wood to chop, no ashes to lug.

Cooking starts with the touch of a match to the wick. Every drop of oil is changed to intense heat in the long chimneys. The automatic wick stop does not allow the flame to rise above a set point. No smoke, no soot, no odor. Far better than nursing a coal fire. No waiting for current.

See the beautiful new Perfection on display at your dealer's. Learn of its 27 new features. Inspect the wonderful 'live heat' oven. Prices on Perfection run from \$8.75 to \$212.50. Write to General Steel Ware, Limited, Toronto, Ont.

SHE LIKES IT! "My Perfection assists me greatly in having meals on time. No sulky coal stove to cook until time and patience have all flown away; but husband, son, brother coming in all tired and hungry find the meal all ready and the home-maker with a smile on her happy face that the peerless Perfection—'always stands in with the cook'—is sure to bring."
