### NO ARGUMENT NEEDED.

Every sufferer from Catarrh Knows that Salves, Lotions, Washes, Sprays and Douche do not Cure.

Powders, lotions, salves, sprays and inhalers cannot really cure Catarrh, because this disease is a blood disease, and local applications, if they accomplish anything at all, simply give transient relief.

The catarrhal poison is in the blood and the mucous membrane of the nose, throat and trachea tries to relieve the system by secreting large quantities of mucus, the discharge, sometimes closing up the nostrils, dropping into the throat, causing deafness by closing up the Eustachian tubes, and after a time causing catarrh of stomach or serious throat and lung troubles.

A remedy to really cure catarrh must be an internal remedy which will cleanse the blood from catarrhal poison and remove the fever and congestion from the mucous membrane.

The best and most modern remedies for this purpose are anti-septics scientifically known as Red Gum, Blood Ray and Hydrastin, and while each of these have been successfully used separately, yet it has been difficult to get them all combined in one palatable, convenient and efficient form.

The manufacturers of the new catarrh cure, Stuart's Catarrh Tablets, have succeeded admirably in accomplishing this result. They are large, pleasant tasting lozenges, to be dissolved in the mouth, thus reaching every part of the mucous membrane of the throat and finally the stomach.

Unlike many catarrh remedies, Stuart's Catarrh Tablets contain no cocaine, opiate or any injurious drug whatever and are equally beneficial for little children and adults.

Mr. C. R. Rembrandt of Rochester, N. Y., says: "I know of few people who have suffered as much as I from catarrh of the head, throat and stomach. I use sprays, inhalers and powders for months at a time with only slight relief and had no hope of cure. I had not the means to make a change of climate, which seemed my only chance of cure.

"Last spring I read an account of some remarkable cures made by Stuart's Catarrh Tablets and I promptly bought a fifty cent box from my druggist and obtained such positive benefit from that one package that I continued to use them daily until now consider myself entirely free from the disgusting annoyance of catarrh; my head is clear, my digestion all I could ask and my hearing which had begun to fail as a result of the catarrh, has greatly improved until I feel I can hear as well as ever. They are a household necessity in my family."

Stuart's Catarrh Tablets are sold by druggists at 50 cents for complete treatment and for convenience, safety and prompt results they are undoubtedly the long looked for catarrh cure.

**Warned by a Heo.**  
Here is a curious little story told by a solicitor. He had among his clients a few years ago a notorious company promoter whose financial affairs came to grief. One day happening to pass by a stationer's shop his attention was attracted by a portrait of Mr. \_\_\_\_\_, the well known barrister. Mr. \_\_\_\_\_ was attired in wig and gown, and in his hand he held a paper on which the solicitor's sharp eyes caught the name of his client. His curiosity aroused, he purchased the photo and proceeded to decipher the words of Mr. \_\_\_\_\_'s brief, speedily discovering that they indicated that a warrant was "out" for the arrest of his client. In a few hours the man of finance was out of England, to which country he has not since returned.—London Globe.

**PERMANENT CURE FOR BRONCHITIS**  
"My second daughter was troubled with bronchitis from the age of three weeks. Often times I thought she would choke to death. Dr. Chase's Syrup of Limes and Turpentine brought relief, and further treatment made a thorough cure. This trouble used to come back from time to time, but the cure is now permanent."—Mrs. RICHMOND WYTHROW, Shubentacade, Hants Co., N. S.

### A MOSQUE FOR LONDON.

Imposing Structure of Red and Yellow Stone for Mohammedans.

A mosque for London's 2,000 Mohammedans will shortly be built in central London. For years past Mohammedan missionaries have been trying to spread a knowledge of Islamic teachings but their efforts have been handicapped for want of a central mosque, says The London Express.

Robert Williams, F.R.I.B.A., received a commission from a Turkish Pasha to prepare the plans, which have been despatched to Constantinople for the approval of a committee of pashas. Ultimately they will be submitted to the Sultan.

"The mosque," explained the architect to a reporter, "is intended for all Mohammedan in London—Indian, Egyptian, Afghan and Persian as well as Turkish, for King Edward VII., it must be remembered, rules over more Mohammedan subjects than any other sovereign."

It will be an imposing structure in red and yellow stone. The decorative work will be carried out in marble and jasper, and a broad flight of steps in marble, granite and jasper will lead to the great central entrance.

A graceful minaret, surrounded by galleries whence the muezzin will call "the faithful" in London to worship, is a notable feature of the design. The minaret is surmounted by a cupola, and the golden crescent will be 200 feet from the ground.

### A Hen Rears Kittens.

Some ten days ago, says The Northern Gazette of Middlesex, Yorkshire, England, a fine black cat, the property of Mr. Percy Dodds, of the Bank, Redcar, gave birth to four kittens in a stable near Redcar old Catholic Church. When the kittens were but a day or two old the cat left the nest for a few minutes, and immediately a white hen flew down from her accustomed perch in a manger above, and spreading out her wings, covered the young kittens, and has been rearing them and looking after them ever since. Strange to relate, on the cat's return she in no way endeavored to disturb the hen, but was quite contented to sit on some hay beside her, and watch. Now, the kittens are nearly a fortnight old, and each night the old cat suckles them, whilst the hen sits near, and at daylight in the morning the cat comes off the nest and the hen flies on. What adds to the sympathy of the picture is the hen has only one leg, which she hops about on, the other one having been broken some time ago. The kittens take very kindly to their feathered foster-mother, and on several occasions I have seen them crawling upon her back, and playing with her wings and comb. The mother cat generally sits near by, and often licks the hen's neck and back, whilst on one occasion I peeped in the stable, and I saw her sitting near the hen with her paw round the latter's neck. Several people in Redcar have seen this happy family, and are greatly surprised at the sagacity of the hen, who will not let anyone, except Mr. Dodds, touch the kittens.
