"THAT'S MY LINE" COMEDY

Georgetown

The death occurred at Westboro Mass., on Sunday, July 31st of Mrs. Phyllis Fouchere, age 90 years at the home of her son, after a short illness which she bore with patience and resignation to God's Holy Will.

All that medical aid and kind nursing could do was done but God called her to His Heavenly home where sorrow and pain are known. She was a lady of refinement and intelligence of a kind and loving disposition and her death has cast a sad gloom over her many friends.

She formerly belonged to Lower Montague but moved to Westboro some years ago. Her husband predeceased her 22 years ago. The remains were conveyed by McFarlane's motor hearse accompanied by her daughter, Mrs. O'Connor, R.N., Boston, Mass., and son Philip, also Mr. McFarlane, his son and daughter and the select man of Westboro.

She leaves to mourn one son Philip in Westboro, three daughters, Mrs. Hickey, New Jersey; Mrs. O'Connor, R.N., Boston; and Mrs. James Boudreau, Georgetown. She was a devoted member of the Holy Mother Church. The many spiritual bouquets, floral tributes, mass cards and messages of sympathy show the high esteem in which she was held. Her funeral which left the residence of her daughter, Mrs. James Boudreau at 9 a. m. for St. James R. C. Church and Cemetery was largely attended. Rev. O. Kiggins officiated at the church and cemetery. The pall bearers were Capt. Fitzgerald, Messrs. John Delory, Alf. McCollough, Andrew Lavers, J. H. Skinner, A. E. Jenkins. May her soul rest in peace. Amen.

Mr. and Mrs. Cavanaugh, Somerville, Mass., recently visited Georgetown.

Miss Clara Walsh, Boston, recently visited Georgetown.

Mr. and Mrs. John Aitken, Lower Montague, recently visited Georgetown.

Mr. Sigsworth, Cardigan recently visited Georgetown.

The many friends of Mrs. Henry Manuel regret to hear of her continued illness at her home in Dartmouth.

Mr. and Mrs. Hammond Hemphill, Charlottetown, recently visited Georgetown.

Miss Jennie Rafuse, Charlotte, recently visited Georgetown.

Mr. Joseph McCormac, Vernon, spent the week end in Georgetown.

The many friends in Georgetown of Mr. Bernard Keenan regret to hear that he has gone to the City Hospital for an operation.

Mrs. Murphy, accompanied by her sons John and Bobbie and little daughter Peggy of Halifax is visiting in Georgetown the guest of Mrs. Murphy's uncle Mr. Thomas Henry.

Mrs. Mark Kiggins, Cambridge Mass., spent the week-end in Georgetown the guest of her sister-in-law Miss Gerlie Kiggins.

Miss Dora Lavandier of the T. Eaton Co. Moncton, who has been spending a vacation at her home in Georgetown left Monday for Moncton.

Mrs. Creamer and family, Charlottetown, are visiting in Georgetown.

town the guests of her sister Mrs. Guy Hemphill.

Mrs. Eugene Delory, New Port, recently visited Georgetown.

Mrs. Fred Delorie and sons, Cullen, Fred and John, left Monday for Sherwood, being called home owing to the illness of her father Mr. Cullen.

Miss Wreta Wight has returned home after visiting friends in Panmure Island.

Rev. M. E. Aitken, Mrs. Aitken and little son Edward and little daughter Mildred, Sydney, N. S., recently visited Georgetown the guest of Mrs. Aitken's parents, Mr. and Mrs. E. B. MacLaren.

Mr. Seymour Gordon, student Columbia College, New York, has been appointed inspector for Hants Co., N. S. Mr. Gordon is one of Georgetown's most popular young men and his many friends wish him success.

Capt. and Mrs. Dick, Dalvey, recently visited here.—A.

TRAVEL BY AIR IS DOUBLING

LONDON, Aug. 6.—(By The Ca- increases in passenger traffic by Imperial Airways between London and Paris—figures for June showing, for example, that 4,311 travellers flew between the two capitals compared with 2,306 for a similar period last year—have led to a decision to transfer the arrival and departure point in Paris from the Avenue de l'Opera to the Hotel Roly-Lafayette, in the Square Montholon, Rue Lafayette.

Great difficulty has been experienced, owing to growing pressure, in dealing with large numbers of passengers and increasing quantities of luggage, in the space at present available, while traffic congestion in the Avenue de l'Opera has rendered it no easy matter, at busy periods, to deal with the cars and taxicabs of passengers.

Definite advantages will accrue from the change to the Hotel Roly-Lafayette. For one thing, it is six minutes nearer to the air-port of Le Bourget than are the existing premises in the Avenue de l'Opera; and, for another, it is outside the area of heavy traffic congestion. Furthermore, it is near the Gare du Nord, and provides every convenience for passengers, including baths, hair-dressing saloons and a theatre ticket office; while as yet another advantage it is extremely easy to locate, the Rue Lafayette running direct from the centre of Paris to the Gare du Nord.

"My poor husband was a wonderful artist," sighed the landlady as she hacked at the pie crust, "and always said he found inspiration in my cooking."

"A sculptor, I presume," said the gloomy boarder, surveying his bent fork.

for CORNS & WARTS Remove dry skin. Dab on Minard's 3 times daily. Let it dry on. After a while Corns and Warts lift right off!

SAVAGE HARBOR AND VICINITY

Miss Rose Pigot has returned to Malden, Mass., after spending a very pleasant vacation at the home of her mother, Mrs. Frank Pigot, Savage Harbor.

Heartiest congratulations are being extended to Mr. and Mrs. Roland Jay, Fanningbrook on the birth of a bonnie baby girl.

Mr. Ervin Jay, of Quebec is at present spending his vacation visiting his parents, Mr. and Mrs. George Jay, Mount Stewart.

Mrs. William D. MacEwen, Bristol, spent a few days visiting in Savage Harbor recently, the guest of her sister, Mrs. Fulton Douglas.

Mr. and Mrs. Merle Cameron, and little daughter, U. S. A. are at present spending some time at the home of Mr. Cameron's parents, Mr. and Mrs. Calvin Cameron, Head of Hillsborough.

Mr. and Mrs. Artemas Jardine, Mrs. Stanley Hering and two children Mary and Ralph of Charlottetown have been spending their vacation at Savage Harbor.

Miss Flossie Gamble, Mount Stewart, was a visitor to Cherry Hill on Sunday.

The many friends of Mr. Major Smallwood St. Andrew's are very sorry to learn that he is confined to his home owing to illness and hope to see him around again soon.

Mr. John Scott and Mr. Harold Scott, Clyde River were visitors to Savage Harbor recently.

Mrs. Bruce MacLaren, Charlottetown spent the week end visiting her parents Mr. and Mrs. Lemuel Jay Mount Stewart.

Mr. and Mrs. Harry Cudmore and little son, Charlottetown were visitors to Savage Harbor on Sunday.

Mr. and Mrs. Walter Pigot and daughter Helen Savage Harbor were visitors to Rollo Bay, on Sunday.

Mrs. Montague MacKay, Mount Stewart, was a visitor to the city recently.

WHITE PINS SAFETY ZONE

For the control of White Pine Blister Rust, one of the most serious menaces to our fast vanishing stands of white pine. Dr. H. T. Cusow, Dominion Botanist, urges the rigid application of a safety zone of 900 feet on all sides of such stands, in which no black or red currant or gooseberry bushes should be allowed to grow. These bushes are the intermediary host plants of rust spores. With their complete eradication over a sufficiently wide area rust spores when formed on the host plants can not be wind-borne back to stands of white pine.

DROPS WAISTLINE TO THE HIPBONE

PARIS, Aug. 5.—Calculations of waistline for the winter styles, which hitherto have stressed high ones, are upset by one Paris dress-maker (Patou), who dropped the waistline to the hipbone. This is the longest waist seen here in the last five years. Skirts for day wear also were dropped to eight inches from the floor.

The silhouette showed the influence of the middle ages with puffed upper sleeves. The colors displayed were henna brown and tea rose.

WESTERN AUSTRALIA

HIGHER GOLD YIELD

The April gold yield was 46,966 fine ounces, valued at 207,869 pounds, which was 10,044 ounces more than during the corresponding month of last year, and the highest yield for April since 1921. Compared with the figures for the January-April period of 1931, production for the first four months of this year (184,758 ounces) shows an increase of 45,297 ounces, and the yield for the year promises to exceed that for 1931, which was 510,572 ounces, the best return since 1924. The State Government assists prospectors to go out and search the numerous gold-bearing areas, which extend over many thousand square miles, and it owns or subsidizes batteries at which the diggers' ore is treated on liberal terms. During the years of prosperity, when cities and towns offered plenty of work, many prospectors abandoned the search for gold, but hard times drove them out again. Ore crushed at State batteries rose from 16,274 tons in 1928 to 29,285 tons in 1930, and to 63,000 tons in 1931. The estimate for the current year is about 80,000 tons.

BETTER TIMES INDICATED

During the depression public confidence did not fall so low in Western Australia as in other States. City and country property values did not rise so high during the boom period, and consequently did not have as far to fall. The bottom was apparently reached some months ago, and there are now signs of revival. This is indicated by the bank clearances, which totalled 31,849,966 pounds from January 1 to May 16, an increase of 2,364,162 pounds, compared with the amount for the corresponding portion of the previous year. Two causes of this improvement are the higher price of wheat and increased prosperity in the gold mining industry. The building trade is also healthier in the metropolitan area, where, from January 1 to April 30, plans were approved for the erection of buildings of an estimated value of 184,231 pounds an increase of 84,777 pounds compared with the amount for the corresponding period of 1931. The State Treasury returns for April disclose a surplus of 14,717 pounds compared with a deficit of 51,844 pounds for April 1931. The State railways cost 25,909 pounds less, and made a profit of 11,223 pounds against a loss of 6,817 pounds for April last year.

THE NORTH-WEST

The problem of the sparsely-populated North West has long engaged the attention of the State Government, which a Minister stated, is alarmed by the reduction of the white population and is anxious to do everything possible to increase it. How few people there are may be gauged from the fact that six of the seven members of the Nullagine Road Board travel an average of 142 miles to attend a meeting. The farthest distance traversed is 320 miles, and the shortest 52. In recent years there has been talk about the Commonwealth taking over the territory, and it has also been urged that, in consequence of the nearness of vast colored populations north of Australia, Britain should help in the work of development. The main pastoral portion of the State is in the North West division, but each station covers a great area, and white residents are very few. Recent legislation provides for an annual adjustment of leasehold rentals which will be reduced when the average price of greasy wool is below 1/4 a lb., and increased when it exceeds that amount. This will cost the Government £32,000 a year. Cattle growers will receive reductions ranging from 20 to 24 per cent. Land tax on the unimproved value of all improved agricultural and pastoral land has been abolished, and a 15 per cent reduction has been made in freight on general cargo carried north by State ships, and on wool carried south. Efforts are being made to stimulate the productivity of the North-West under the direction of the Tropical Adviser of the Department of Agriculture. In grasses, the outstanding introduction of the decade was one locally known as Birdwood grass, which was sent by General Birdwood from Lahore to his daughter in Western Australia. The growing of peanuts is in hand, and this year it is probable that the crop will be 100 tons; the yields are 25 cwt., per acre north of Derby. Banana growing is established at Carnarvon with about 10,000 plants, and experiments are being made with pineapples. Very heavy crops of dates were obtained this season throughout the lower North-West. By these and other means the Government hopes to make conditions better and to encourage settlement.

Hats worth to \$6.75 clearing for \$1.00

FREE TALKIE TUESDAY NIGHT AT SHOW ROOM

At 8 p. m. we will present the talking picture "BEHIND THE SCENES," a commercial film said to be outstanding in dramatic and artistic quality. A famous Hollywood director made the picture and it has been ranked as one of the finest in dialogue as well as photography.

Radio has made intimate descriptions of scientific marvels popular. "BEHIND THE SCENES" is said to provide not only brief and interesting descriptions of new scientific development but also some very unusual glimpses into one of the most famous laboratories in the world.

In addition, there are scenes of thrilling travel by motor through the Rocky Mountains. While the film was being made a truck knocked a car off the narrow mountain road and the camera caught the picture of the car somersaulting down the mountain side. Other extraordinary sights are in store for those who go to our show Tuesday night.

The picture starts at 8 p. m. and is free to the public. Every car owner and those who are thinking of becoming owners should see this wonderful explanation of the new principles developed in automobile construction during the past year.

You will find many stories which you have heard from your friends to be flatly contradicted by this talking film. It is certainly a great education to see it and to study the explanations contained in it.

Let us meet you Tuesday night at 8 P. M. at our show room.

W. B. Prowse & Sons

Mounties After Raincoat Thugs

HALIFAX, Aug. 6.—Royal Canadian Mounted Police tonight were scouring the south shore of Nova Scotia in search of two masked bandits believed to have committed crimes at Bridgewater and Clark's Harbor within the last 24 hours. The two were reported last at Clark's Harbor, where Robert Crowell, 30-year-old lame war veteran, was beaten and robbed.

Last night a couple of the same description visited Bridgewater and used a revolver to coax two men and a girl out of a parked car. Evidently the two men appeared quite formidable, for the bandits fired four shots in their direction, as if to ward off an attack, and took to their heels. A shot found its way into the foot of one of the men, but the injury was not serious.

According to reports, the bandits so far have secured only \$10. That belonged to Crowell. Crowell thought someone was playing a joke when they jumped out of a clump of bushes and ordered him to throw up his hands. When he asked them what they wanted his reply was a series of blows on the face that knocked him to the ground, unconscious.

Recovering his senses, about an hour later, he missed his wallet, which had contained a \$10 bill. The bandits were described as tall, wearing raincoats and masks. Outside of the police have not much in the way of clues.

BRANTFORD ROOFS

We have just received a complete line of the very latest development in modern Roofing — The new Brantford.

"Sealdip" Asphalt Shingles

To appreciate the splendid appearance of these Brantford Shingles, and the four attractive color combinations, you must

Farm Notes

EASY TO TELL POISON IVY

An ever present danger to the vacationist in any part of Canada is poison ivy. It is very similar in general appearance to the Virginia creeper but is easily identified by the fact that its leaves are in clusters of three, very similar in appearance to the leaves of the strawberry plant, while the leaves of the Virginia creeper are in clusters of five. On poison ivy vines may also be seen clusters of small white flowers and later in the season a round white fruit about the size of a pea. The poison element in the ivy comes from a resin which rises in the sap. In treating poison ivy avoid dusting with dry powders such as boracic acid or baking powder, usually applied to blisters; avoid rubbing and localize the infection by painting iodine around the edges of the sores. An effective treatment is to daub the affected parts with a three per cent solution of potassium permanganate. This leaves a brown stain which disappears after a time but may be removed slowly by the use of soap and water.—Department of Agriculture, Ottawa.

HEN-HOUSE MATHEMATICS

Under normal conditions it takes 57.2 eggs to pay for the cost of feed for a pullet during the pullet year, figures supplied by the Dominion Experimental Station at Lennoxville, Que., show. As this figure is arrived at from an average of

two years' results it is of more than ordinary interest. The number of eggs required to pay the cost of feed per bird varies, of course, with prevailing market prices from year to year. During the period of the report it has ranged from as low as 50 eggs in 1922, to a peak of 69 in 1923, while it took 51 to pay the feed cost in 1931. It is also interesting to note that the same cost study shows that an average of 15 eggs is sufficient to pay the cost of feed per bird during the winter months only.

SEE LARGE PEAR CROP

Prospects are especially good for a large pear crop in the Province of Ontario, according to the latest federal government estimates. Trees wintered well and weather conditions have been excellent. In Nova Scotia cool weather reduced the set of fruit and the crop will be below last year. The British Columbia crop should be about equal to last year; and take it generally, Canada's pear crop for 1932 should be considerably greater than in 1931.

HAVE A GOOD COMPLEXION

Sir Wm. Arbuthnot Lane, noted specialist in dietetics, is authority for the statement that "fresh fruit eaten daily does more to beautify the complexion than any cosmetic." It is in this way that science explains the attraction of Canadian girls, who are noted for their remarkably clear and fresh complexions. Few countries in the world boast a wider variety of luscious fruits, and few people serve fruit more liberally with their meals than do Canadians.—Dominion Fruit Branch.

It will Improve the Flavor of Your Cooking!

DON'T take our word for it. Order a can of St. Charles Milk from your grocer today and use it for cooking whenever the recipe calls for milk. You will find that St. Charles will give a creaminess, a fresh sweet flavor to your cooking that your family will like.

Send for this FREE cook book. Fill in this coupon and we will send you a copy of our new cook book "The Good Provider." It contains over 80 pages, illustrated in color and will tell you how to make nearly 200 delicious dishes better with St. Charles.
