MR. MEIGHEN RECOVERS.—Mr. Meighen addressed a gathering of 3,000 people at Amherst Saturday night and it is pleasing to report that he had fully recovered his voice, the temporary loss of which was caused by his speaking at two different meetings in the open air on Friday.

PERSONALS

Mr. Gordon Dingwell, of Brackley Beach was in Charlottetown last week on a business trip.

Mrs. Patrick Callaghan and little daughter Mary Auburn spent the week end visiting friends in Charlottetown.

Among the passengers leaving by the car ferry, Saturday morning were, Misses Hattie Burns, Charlottetown, Annie Burns, Waterville, Mamie and Florence McNeil, Vernon River, Sadie Kelly, Lake Verde.

Mr. Leander F. Wardwell, Mrs. Alice Witherly, Miss Nina G. Stone of Portland, Maine, and Mrs. Lucy Derrick of Boston Mass, motored from Portland this week on a visit to Mr. and Mrs. Percy Dawson and friends at Crapaud, P. E. I.

EXHIBITION WEEK

The week of Exhibition has at last arrived, everything is in readiness, and no pains have been spared for the accommodation of entries both in and outside the buildings.

Already large numbers of animals have arrived at the fair grounds, and tonight will see a fast string of race horses arriving to join the ones that have already arrived.

The track was never in better condition, and the management are still making improvements, and by Tuesday, the opening day things will be ready to go right ahead for the balance of the week.

The judging, horse racing, acrobats, band and midway are far superior to anything yet seen at a local Exhibition.

The grounds under its new coat of whitewash has taken on an entirely new appearance and the big fenced-off enclosure for parking autos is another fine improvement over other years.

The Secretary received word Saturday night that twenty-one cars of freight was leaving for Charlottetown Exhibition and are due to arrive in the city today, between four and five o'clock.

THE UNHOLY THREE.—The Guardian's New Serial starts today.

THE LADIES AID of the P. E. I. Hospital serves lunch upstairs in Exhibition building, Wednesday and Thursday this week.

MARSHFIELD.—Complaint is made that automobiles are driving through the settlement and in the vicinity of the school without slowing down and making room for the school children. Autoists must bear in mind that children have as much right to the roads in the country where there are no foot paths as automobiles and teams. They ought to be on the look out and carefully avoid running down or scaring children, and when they are nearing a school slow down and make way for the youngsters.

ON BUYING TRIP.—Mr. C. E. Austin of C. M. Austen and Co., Mansfield, Mass., arrived in Charlottetown a few days ago on his annual goose-buying trip. He makes his headquarters at Albany where he will assemble the geese for shipment. Mr. Austen understands there is an average crop of geese on the island this year and expects to ship an average quantity. Last year he shipped 6,000 geese and hopes to get as many this season.

GOING TO NEW YORK.—Halifax will lose one of the best young athletes developed here for some years when Temple Lane, Wanderers' star in football and hockey, will leave for New York the end of September, says the Herald. Lane has a good proposition in New York and will shortly resign from the staff of the Eastern Trust Company. Being one of the fastest forwards in Nova Scotia, although only in senior company three years Lane has been picked for all star local hockey teams for three years. He is also a brilliant football player, making a place on the Wanderers' championship senior team his first year out. Young Lane is one of the most popular of local athletes, and his clean playing and splendid character, have earned him an enviable reputation in the athletic world. In Temple Lane's departure from Halifax the city loses one of the best young citizens.

A Mistake that some beauty seekers are making They are misled on "olive and palm" soaps

Do you realize, Madam, that "olive and palm" soaps are ages and ages old? But never has one, before Palmolive, brought comparable results to the skin. Palmolive Soap is a masterpiece, based on 60 years of soap study. It is a scientific creation, made to bring new beauty to the skin. Made to keep schoolgirl complexions. Its unique results have led millions to adopt it. Now it is made in five countries, to supply the world-wide demand. It is made in France, because French women find in this their ideal of a soap. Soft, velvety complexions are many times as common as they were before Palmolive came. Then don't accept ordinary "olive and palm" soaps, with artificial color, and often super-fatted. Palmolive costs 10 cents—no more than the price of most ordinary soaps. But that is due to enormous production. Palmolive has become the leading toilet soap of the world. The only two soaps we know that fairly compare with it cost 25 cents per cake. This warning is in your interest. There is a way to keep youthful complexions, and multitudes have found it. But that way is not a mere "olive and palm" soap. It is found in Palmolive alone. Note the unnatural "too green" color of Palmolive imitators. What does that suggest? Men don't paint nature to improve it. Olive and palm oils—nothing else—give Palmolive its delicate, natural color. Olive and palm oils—no other fats whatsoever—are used in Palmolive. No "super-fating," no "super-anything"—the only secret to Palmolive is its blending. And that is judged one of the world's priceless beauty secrets. Let no one convince you—for your own sake—that any ordinary type of "olive and palm" soap can bring you Palmolive results. Wash, launder, cleanse with any soap you wish. But when beauty is at stake—take care. Use Palmolive, nature's formula to "Keep That Schoolgirl Complexion."

Note carefully the name and wrapper. Palmolive is never sold unwrapped.

IN PARIS French women are discarding French soaps for Palmolive

Palmolive is today one of the two greatest selling toilet soaps in France. Parisian beauties are happy to pay almost twice as much for a cake of Palmolive as Canadian women pay. And, in many cases, three times as much as for their own French soaps. Remember this when tempted by costly French soaps, or by "French" claims for soaps.

New York Buys Star Defence Man

(Canadian Press) NEW YORK, Sept. 18.—The purchase of Joe Simpson, star defence player of the Edmonton professional hockey team by the New York Club of the National Hockey League was confirmed here today.

The Public Forum

(Continued from Page 4) asked him why he did not tell him it was no good, Jeff said: "The fellow I got it from did not tell me so I thought it was a secret." They say: "Open confession is the good for the soul," but I doubt if it will be good advertising, personally my poor ones go to the foxes, not to my friends. After ignoring all the challenges I put to him he says: "I challenged the Captain to steer his ship. The report on the Baychimo was: "Had starboard side stove in never dodge any man's challenge,

REFUSES TO TRAVEL WITH SAKLATVALA

LONDON, Sept. 18.—Another member of the House of Commons, Captain Peter D. MacDonald, Conservative from the Isle of Wight, following the example of Colonel H. C. Woodcock, has with drawn as a delegate to the Inter-Parliamentary Union Conference at Ottawa and Washington as a protest against the inclusion of the delegation of S. Saklatvala, Communist.

SEATTLE, Wash., Sept. 18.—The steamer Baychimo of the Hudson's Bay Company, trading out of Vancouver, B.C., which last month was punctured by ice in the Arctic Ocean, was reported by radio today frozen fast and crying for help.

The Baychimo was stated in the reported received to be off Herschel Island. It is a 1,322 ton auxiliary schooner. Mariners here accustomed to the arctic stated that there was no possible chance that any boat could get to the rescue of the Baychimo, but that her men, even if she were a good distance from shore, had a good chance to reach land over the ice. The report on the Baychimo was: "Had starboard side stove in never dodge any man's challenge,

"Breeder" quoted the Pan-American test, but Mr. Jones claimed it was "too ancient," so I will give him something more up to date. "Sixty per cent. of all gold and silver medals offered at the National Dairy Show have been won by Guernsey milk or milk mixed with Guernsey milk." He said: "John Erickson, of Waukegan, Wis., sold 88 head of Holsteins last year and averaged over \$1,100.00." My reply: "The Langwater people auctioned off their herd of 96 Guernseys (the year before) and the average price was over \$2,738.00." In case this may be considered too ancient, I will give another answer: "Dr. Mixer auctioned off his whole herd of 190 Guernseys this summer and they averaged \$1,387.26 and over half of these were classed as heifers and heifer calves." My only comment on his reference to "Fairplay's articles," is that he has again contradicted himself, and his former contention that the Guernseys were a firmly established in 1882. One more quotation from Mr. Jones and then I am through: "In the Guardian of this date I see a list of tests of Charlottetown milk vendors, I distinguish none below 3.5 per cent."

I am, Sir, etc.
