AGRICULTURE ESTIMATES DISCUSSED IN HOUSE

Authorize Advance In Furniture Prices

OTTAWA, May 30 —(CP) —The Prices Board today authorized price increases in the manufacturers' prices on "wooden and upholstered household furniture of all types" and said it was "expected" the order would result in increases of seven to 13 per cent in the retail price.

The new increases were in addition to those permitted in the past which had been absorbed by manufacturers and retailers without increased consumer cost and were being authorized because the furniture industry recently had experienced increased producton costs in both labor and materials.

To lessen the effect of the consumer, a concurrent order was issued reducing retailers' mark-ups.

The increases do not apply to goods now in the hands of distributors and retail outlets.

Shortage Of Barrels Reported In B.C.

(By The Canadian Press)

VICTORIA, May 30 — Shipment of 3 000 tons of raspberries and strawberries in sulphurdioxide solution from the Fraser Valley to Britain is threatened by the shortage of more than 15,000 barrels, trade and Industry Minister Leslie H. Eyres said today. The barrels in which the fruit would be shipped are not available at present because of the tie-up by the International Woodworkers of America (C. I. O. - C. C. L.) of barrel making plants of Sweeney Cooperage Ltd. in Vancouver and Victoria.

Would Make Tourist Sites Available For Development At P.E.I. National Park

OTTAWA, Ont., May 30—(Special)— Sequel to Premier Walter Jones' statement in Ottawa recently that Prince Edward Island would have great difficulty in coping with the influx of tourists in 1946, Dominion Government departments are attempting to ease the situation.

James Smart, controller of National Parks told The Guardian this afternoon that his department was ready to make suitable sites for tourist accommodation developments within the P. E. I. park.

"We are not directly in the tourist business but do make our sites available to concessionaires," he said. "There are some lovely sites in our Park in Prince Edward Island and these are available for development by private enterprise subject of course to our specifications and regulations."

Not Yet Leased

Asked if these specifications would necessitate the outlay of large sums, Mr. Smart replied in the negative. "We're not not too tough in our regulations," he explained, "provided the bungalow camps are well-built and conform to a reasonable architectural style. As a matter of fact we've had a number of enquiries from Prince Edward Islanders on this point but have not as yet leased any of

Legion Protests Appointment To Travel Bureau

A resolution authorizing the appointment of a committee to wait on the Provincial Government concerning a recent appointment to the P. E. I. Travel Bureau was passed unanimously at the monthly meeting last night of the Charlottetown Branch of the Canadian Legion.

Major T. B. Rogers, provincial president, recently returned from the Dominion Convention of the Legion stated that no notification of this appointment had been received by the Legion. He recalled that at the last session of the Legislature a resolution was unanimously passed, approving the principle laid down by the Federal Government in giving a preference to ex-service men and women with overseas service when any positions are to be filled, also that public notice be given when public service positions are open, that applicants be requested to set out in writing their service record as well as their civilian qualifications, and that veterans' organizations be consulted regarding all vacancies to be filled in the public service.

Mr. Leo Bradley said that if the Legion continues to be ignored in such appointments stronger action should be taken and that a meeting of all returned men in the Province should be called. He urged that a committee from the Legion be sent to interview the Government. Little, he felt could be gained through carrying on correspondence.

1,000th Member Welcomed

An interesting feature of the meeting was the welcoming into the membership of the Branch Mr. Arthur M. Myers who was the one thousandeth member to make application. Mr. Myers expressed his pleasure at being a member and of the unexpected honor that had fallen on him as the thousandeth member.

Mr. P. E. Palmer reported on the efforts of a committee appointed to interview Government and Civic authorities concerning

Ottawa Citizen Is Tied Up By Strike

OTTAWA, May 30 — (CP) — Linotype operators of the Ottawa Citizen went on strike tonight and the management of the newspaper said there will be no edition of the Ottawa Morning Citizen tomorrow.

At the same time, a statement issued by local representatives of the International Typographical Union announced work stoppages will also apply in the composing rooms of the Southam Company Limited newspapers, the Hamilton Spectator and the Edmonton Journal.

Archbishop Sinnott Of Winnipeg Retires

WINNIPEG, May 30— (CP)— Archbishop Alfred A. Sinnott who has governed the Roman Catholic Archdiocese of Winnipeg since 1915, has retired owing to ill health, an announcement from Archbishop's House said today.

Archbishop Gerald C. Murphy, coadjutor Archbishop, with the right of succession, assumes full administration. Archbishop Sinnott's retirement became effective May 23.

Born in Prince Edward Island, Feb. 22, 1877, Archbishop Sinnott graduated from Laval University and entered the Grand Seminary in 1896. He was sent to Rome in 1899 where he was ordained two years later.

On his return to Canada he taught at St. Dunstan's College, Charlottetown and shortly afterward was made private secretary to the Apostolic Delegate to Canada and became a private chamberlain to the Pope.

When the archdiocese of Winnipeg was formed in 1915, Father Sinnott was chosen as its first head and was consecrated in Ottawa in December 1915.

Archbishop Sinnott has no close relatives in the Province. The Rev. A. L. Sinnott, Rollo Bay, is a cousin. The Archbishop was born in Crapaud, though the home of his parents, the late Mr. and Mrs. John Sinnott, was near Morell. He was a college mate of the Rev. Terence Campbell, pastor of Mount Stewart Parish.

Russians Convinced Of English Bloc

(Eddy Gilmore, Associated Press correspondent now home for a vacation, has spent the last five years in Russia. He is married to a Russian girl, knows the language and has had an opportunity for continuous observation vouchsafed to few if any other foreigners in Russia in recent years. It was through Gilmore that Stalin recently addressed to the world a promise of co-operation for peace.)

(By Eddy Gilmore)

NEW YORK, May 30—(AP)—Despite State Secretary Byrnes' protestations that no Anglo-American bloc exists against the Soviet Union, the prevailing opinion in the U.S.S.R. now and in the past is that such a bloc does exist and words alone, no matter how earnest, will do nothing to eliminate the belief.

British and American representatives in Moscow are acutely aware of the Russian point of view on this subject and it is often one of their most delicately handled bits of protocol.

Only recently, when the new United States Ambassador, Lt.-Gen. Walter Bedell Smith, was to arrive in the Russian capital, it came up—and pointedly.

Several high ranking members of the British colony announced they planned to journey to the airport and give Gen. Smith the customary diplomatic welcome.

"Oo, no, we won't" said persons in authority, "we can't give the Russians the impression that we're welcoming a new batsman to the cricket field."

The well-meaning, friendly Britons stayed at home.

The fact that Americans and Britons speak the same language is, in this one particular, unfortunate.

I've seen an Anglo-American group in a corner at a diplomatic reception reciting a new limerick to one another while 10 feet away stood several scowling Tovarichi acutely convinced they were being laughed at. And, I might add, I've heard Russians discussing a brand of cigarets while British and Americans stood-by asking one another "what are they up to?"

During three-power meetings in Moscow—and this goes back to 1941—the advisors of such persons as Cordell Hull, Anthony Eden, Winston Churchill, General Eisenhower, Secretary Byrnes, Edward Stettinius, Ernest Bevin and others—studiously turned down a lot of Anglo-American inter-camp visiting to avoid Russian suspicion of a gang-up.

After Winston Churchill's Missouri speech last March, I don't believe the censor would like it if you suggested that the Russians were not firmly convinced that a gang-up was in progress. Mr. Churchill questioned Russia's post-war aims and urged continued close Anglo-American collaboration in peacetime.

Russians are going to read Gen. Bowers' words "anyone who looks at the globe can observe that the shortest air route to the United States from Asia or Europe is over the North Pole with new alarm. Russians will say: "Yes, and as it's the shortest route from Europe or Asia to the United States it's also the shortest route from the United States to Europe and Asia, and who's got the atomic bomb after all?"

Watch Out!

Apparently India has no snatch-and-run thieves or Mahatma Gandhi is a trusting soul, judging by the picture above, taken recently at New Delhi, India. It shows that he wears his watch on his hip dangling on a string.

News Briefs

NEW YORK, May 30—(AP)—The United Nations Security Council subcommittee investigating Franco Spain closed its books to further evidence tonight and tackled a huge pile of documents which might force it to report after tomorrow's deadline set by the council.

FREDERICTON, May 30—(CP)—Maj. I. B. Rouse, principal of the Provincial Normal School, appealed to 1946 high school graduates today to support the emergency teacher training plan for 1946-47. Objective of the plan is to train 400 teachers within the next year by means of two accelerated courses.

EDMONTON, May 30 — (CP)— Coal orders for Ontario, Manitoba and Saskatchewan are being received here in increased volumes, resulting in an urgent appeal for miners, it was learned today.

HALIFAX, May 30—(CP)—Four seamen flown here from Montreal to man the stuck freighter Cheyenne said tonight they refused to go aboard when they found it was a Lake vessel and instead were joining the striking Canadian Seamen's Union.

WASHINGTON, May 30—(AP)—Government officials predicted tonight that the strike gains of John L. Lewis' miners will hike the price of soft coal 30 to 35 cents a ton for consumers.

Pope Scheduled To Broadcast Saturday

ROME, May 30—(AP)—A Vatican City source said today that an address by Pope Pius Saturday probably would be 25 to 30 minutes long and his text probably would be about 4,000 to 5,000 words. It will be broadcast by the Vatican radio at 9:45 a.m. (4:45 a.m., E.D.T., 5:45 A.M A.D.T.)

There was no indication of his topic, but the source said it will be an important speech. The Pontiff will speak in Italian.

The address wil be to the Sacred College of Cardinals in reply to their greetings on the occasion of the Pope's name day, the birthday of St. Eugen.

Increased Milk Price Effective Here Saturday

Beginning tomorrow, consumers of raw milk in the Province will pay 10 cents a quart for raw milk and 11 cents for pasteurized. Neither the farmer nor the milk distributor will benefit in the increased cost to the consumer since hitherto the Dominion Government paid as a subsidy to the consumer the two cents a quart which he will now have to pay. The Dominion Government will profit to the extent of approximately $24,000,000 a year.

The Provincial Milk Board which will have control after today of milk prices in the Province (the Wartime Prices and Trade Board reinquishes its control of milk and cream prices in the Province after today) s composed of Messrs Fraser Morrow, Charlottetown, as president; Dr. W.R. Carson, Charlottetown, secretary; and Claude Smith, Royalty.

The Board, formed on Dec. 16, 1942, has full authority on and after June 1 to raise or lower the prices of milk and cream in the Province. It was learned yesterday the Board does not contemplate any further rise in milk and cream prices at present but would not promise there will be a raise when the present subsidy to Charlottetown milk distributors of 55 cents per 100 lbs. and 35 cents per 100 lbs. to rural distributors, is taken off on Sept. 30 of this year.

Luxury Travel Is Returning To Europe

(By Ross Munro)

PARIS, May 30—(CP)—The finest train in Europe, the "Golden Arrow" now is running daily between London and Paris, bringing luxury travel back to the continent.

This super express is the pride of Britain's southern railway, which operates the English end, and of the French state railways, which run the continental link.

Last winter going from London to Paris by train took a passenger anywhere up to 22 uncomfortable hours.

Now the "Golden Arrow" covers the distance via Dover and Calais in eight hours from London to Paris and nine hours on the return trip. You travel in more comfort than you would on a Canadian pullman.

Before the war this express rated with the best in Europe but the British and French have made an even better effort and now have eclipsed their pre-war service.

Seek To Boost Production Fuel Oil And Burners

OTTAWA, May 30—(CP)—Efforts will be made to increase the production of fuel oil and oil burners in Canada, Reconstruction Minister Howe said today.

Gasoline production in Canada in 1946 was 28,900,000 barrels and under the existing system of cracking petroleum the refineries get approximately one barrel of fuel oil for every 10 barrels of gasoline, or close to 3,000,000 barrels last year.

Formerly the fuel oil, thus produced, looked after the Canadian demand without the necessity of bringing any from abroad. This year with the outlook for coal unfavorable, many people will want to turn to fuel oil and to meet this additional demand it is proposed to increase steel priorities to enable oil companies to construct additional storage and trucking facilities.

The Reconstruction Department also will urge oil companies to handle more crude oil and crack it in a way to produce greater supplies of fuel oil.

A meeting will be held shortly, probably in Toronto, Mr. Howe said, of producers of oil burners with the hope that the production of burners can be stepped up to meet the demand of householders.

Mr. Howe said it might be necessary to increase the ceiling price of fuel oil to get maximum production but the oil companies would have to convince Government officials a higher ceiling was necessary before one would be granted.

Leaves Today For Texas

Dr. J. T. Croteau, who has been prominently connected with the credit union movement in this Province since its inception, is leaving this morning for San Antonio, Texas. He will take over a position as head of the Department of Business Administration and Economics at the Lady of the Lake College there.

A native of Worcester, Mass., he came here in 1933 as teacher of sociology and economics at St. Dunstan's University and Prince of Wales College, a position he held until last fall. Since then he has been managing director on a full time basis of the Prince Edward Island Credit Union League and the Co-Operative Union of Prince Edward Island. He will be succeeded by Mr. J. G. Dennis, formerly of O'Leary and inspector of credit unions for several years. The latter job is being discontinued as the Credit Union League and the Co-operative Union through an arrangement with the Provincial Government are doing their own auditing and promotional work.

Last night Dr. Croteau was honored at a joint meeting of the executives of the St. Dunstan's Credit Union and the local Council of the Knights of Columbus, held in Holy Name Hall. Chairmen were Dr. Clarence Murphy, president of the credit union, and Mr. R. A. MacDonald, Grand Knight. Addresses were read and presentations made to Dr. Croteau. Several speakers expressed the appreciation of the organizations for the services rendered by Dr. Croteau.

WINNIPEG, May 30—Mrs. Ryland New of Oakville Ont., today was re-elected president of the National Chapter, Imperial Order Daughters of the Empire, at the 46th annual meeting here.

Councillors elected included:

Prince Edward Island—Mrs. J.A. MacMillan, Charlottetown.

Nova Scotia — Miss G. Faulkner and Mrs. J.N. Foster, both of Halifax.

New Brunswick — Mrs. K I Campbell and Mrs. G. White, both of Saint John; Mrs. R.S. Taylor, Rothesay.

National conveners elected included:

Child and family welfare committee: Mrs. E C. Menzies, Saint John, N.B.

Ex-service personnel committee: Mrs. K L. Dawson, Halifax.

Truce Likely In Seamen's Strike

(By The Canadian Press)

OTTAWA, May 30 — Likelihood of a truce in strike clashes along the Great Lakes was announced today by Labor Minister Mitchell in a statement in the Commons.

Mr. Mitchell said the Canadian Seamen's Union (T.L.C.) had agreed to allow its members still on ships to continue operating them providing shipping companies would cease efforts to man strike-bound ships with non-union crews.

Final decision on whether the truce was to become effective appeared to rest with the operators. Senator G. P. Campbell, counsel to the Dominion Marine Association, said late today he had not yet been able to get in touch with all the companies to obtain their approval.

With the possibility of a truce came word from the Minister that operators on the larger Lake shipping companies will be invited to Ottawa probably Monday, to take part in further efforts to settle the strike, now in its fourth day.

The Minister said "definite proposals" would be put before the operators. It was understood the proposals were a modification of a five-point settlement plan advanced yesterday by the Union.

Mr. Mitchell described the truce agreement to the Commons in these words:—

"1. That the Minister of Labor shall hold a meeting with the larger operators and lay before them the definite proposals which have been discussed for the settlement of the dispute. This meeting is tentatively scheduled for Monday next.

"2. That to provide for a suspension of activity it was further agreed that as Minister of Labor I should issue a statement as follows:—

"The Union agrees to allow members who are still on ships to operate them until the meeting of operators called by the Minister is over providing the operators will suspend attempts to man ships which are now tied up because of shortage of crews until the meeting tentatively called for Monday or any continuation thereof is concluded."

Conference Failure Causes Change In Plans

By GEORGE KITCHEN

OTTAWA, May 30—(CP)—Agriculture Minister Gardiner today told the Commons he would have introduced two bills this session to extend the provisions of the Prairie Farm Rehabilitation Act across Canada had the Dominion-Provincial conference reached agreement on a division of taxation rights.

He said the two bills already had been drafted one covering the four Western Provinces and the other the five Eastern Provinces, but they had to be withdrawn after the conference broke up in disagreement.

Mr. Gardiner made his statement during a discussion on the problem of reclaiming marshlands in the Maritime Provinces and said the Federal Government would have undertaken that task, spending $4,000,000 to $5,000,000 over a two or three year period had the Dominion - Provincial conference succeeded.

Problems of irrigation and drought existed all across Canada, said Mr. Gardiner.

Discusses Cheese

He said Canada expected to fall short in her committment to supply Britain with 125 000,000 pounds of cheese this year.

There were some estimates that the Dominion might be able to ship 115,000,000 pounds, Mr. Gardiner added, but there also was some doubt about that.

The Minister attributed the declining cheese production to the lower output of fluid milk and said there might be some improvement if there was good grass on Canadian pasture lands this summer.

Beginning June 1, as had been announced all cheese manufactured in Ontario and Quebec
