ARTICLES LOST IN WRECK.

Did you ever stop to think what might become of your grip coat or other belongings if you were caught in a wreck? The shock felt after a railroad accident is usually so great that material things in connection with it are lost sight of. Naturally, the first thought is of the recovery and identification of those injured. The identification part is not always easy, and sometimes has been accomplished by some piece of personal property. After the humane work of caring for the injured has been done it devolves upon the railroad company to clear away the debris. Frequently the quickest and least expensive way to do this is to burn it, but before this is possible every effort is made to recover lost personal property. The value of this often runs up into many thousands of dollars. In the recent wreck between New Haven and Wallingford, Conn., there was recovered and returned to the owners between 40,000 and \$50,000 worth of personal property.—Leslie's.

Practical Fashion Hints

By Alice Gibson

Whereas the small boy often objects strenuously to being dressed like a girl, his small sister delights in the freedom and comfort allowed by the boy's costume.

8006 is a child's romper suit and is suitable for either a boy or a girl. Garments of this description made up in a dark wash material, madras, chambray or gingham, will save the busy mother many steps. They are quickly made, several may be finished in an afternoon.

This garment closes on the side, and the trousers are attached to a long belt in back. It may be made in size 8 with 1 1/4 yards of 36 inch material and 1/4 yard of contrasting trimming. The pattern is cut in 6 sizes; 1/2 to 6 years.

This Is a Perfect Pattern.
Be sure to state correct size, passing the tape around the fullest part of the chest well up under the arms. It may be obtained by filling out the coupon and enclosing 15 cents in stamps or coin to the Pattern Department of this paper.
