AMBASSADOR BRYCE RIDES WALSON GOODYBY

WASHINGTON, March 25.—James Bryce, British Ambassador, paid a final call to the White House to say farewell to President Wilson. It is with genuine regret Capital society sees the Ambassador depart. The social life of the Bryce regime was one of steady dignity and Mrs. Bryce won a notable reputation as chaperaine. The retiring Ambassador will be succeeded by Sir Cecil Arthur Spring Rice.

SWIMS IN ICY BAY ON HIS 112TH ANNIVERSARY

WILLIAMS BAY, Wis., March 25.—Disregarding the advice of physicians and a cold wind that threw shivers into a crowd of curious spectators, Thomas Sullivan, keeper of a summer resort, celebrated his one hundred and twelfth birthday anniversary by donning a bathing suit and taking a plunge into the waters of the bay.

"That's my one hundredth annual duck," shouted the old man as he emerged from the water and started on a trot to the house. Since he was twelve years old the old fisherman has made it a point to observe his birth date by a swim in the bay, regardless of weather conditions. In reasonable weather he takes his morning plunge immediately after rising. "If I didn't do that I would have been dead long ago," he said. "It's the only thing that keeps the blood moving in my veins."

A GRAVE ADMISSION

(Continued from page 1). He had made himself responsible for a large number of shares in the American company and offered to let him have some. Sir Rufus Isaacs said that eventually he took ten thousand at about \$10 each, after his brother had informed him "that the American company had no interest in the British company."

Sir Rufus Isaacs proceeded to give details as to how he had let David Lloyd George and the master of Elbank participate in the transaction. Each of them took 1,000 shares at \$10 each. Both, he said, asked him about payment for the shares, and I told them I did not require the money down, but both said they would be ready to pay at the moment the time arrived. When the price went up Sir Rufus said he sold 3,750 shares at an average of about \$16.62. He still possessed 6,430 shares, so he remarked that the net result of the transaction was a loss of \$8,500. He added that David Lloyd George and the master of Elbank owed him each a tenth of the loss in regard to their 1,000 shares and this represented about \$1,600.

EX-SENATOR BURKE WEDS WAITRESS HE MET WHILE IN SENATE

BOSTON, March 25.—Having its beginning in a Boston restaurant where the bride was a waitress, a delicate romance has culminated in the marriage of ex-Senator William R. Burke of Milford, to Miss Elizabeth Whidden, formerly of Boston. The groom is a merchant at Milford. Mr. Burke served three terms in the House of Representatives and one term in the Senate. It was while serving in the State Legislature that he met Miss Whidden, who was at that time a waitress in the restaurant which Mr. Burke frequented.

HOW TO RESIST

Chronic Coughs and Colds.

Strong vigorous men and women, hardly ever catch cold; it's only when the system is run down and vitality low that colds and coughs get a foothold. Now isn't it reasonable that the right way to cure a cough is to build up your run-down condition, again? Mrs. Olivia Parham of East Durham, N. C., says: "I took Vinol for a chronic cough which had lasted two years and the cough not only disappeared, but it built up my strength as well. The reason Vinol is so efficacious in such cases is because it contains in a delicious concentrated form all the medicinal curative elements of cod liver oil, with tonic, blood building iron added. Chronic coughs and colds yield to Vinol because it builds up the weakened, run-down system. You can get your money back any time if Vinol does not do all we say. E. A. Foster, Central Drugstore, Charlottetown, P. E. I.

NUMBER OF DEATHS LESS THAN FIRST ESTIMATED.

(Continued from page 1) with Johnson and threatened to kill both him and his family. Johnson has asked that a detachment of the National Guard be assigned to help him handle the men. He declared the men would have to be shot if they escaped from the cells.

No word has been heard from Mayor Phillips. The Chief of Police has been unable to get near Phillips' house and did not know whether the Mayor would be found alive or dead. In North Burns avenue, as far as Fourth Street the water was from three to six feet deep. Beyond Fourth Street the water has receded sufficiently to make it possible in many places to proceed on foot. River rescue work was taken up by a committee headed by Chief Alborough. All the grocery stores have been commandeered although in most cases the goods were covered with water, yet sufficient supplies were found to prevent great suffering among those in the interior of the dry strip. While there may be many deaths in individual homes which have been without food or drink there are only three places besides the workhouse where any considerable number of people were held without food. None had had enough but no cases approaching actual starvation were found. The knowledge that the death list is likely to prove so low in the downtown section to-night gave rise to the hope that even in North Dayton, about which nearly all hope had been abandoned, there might be comparatively few deaths. The progress first by canoe into the waterbound district was greeted by appeals for bread and water. In nearly every house left standing the people were asked whether there had been any deaths and with only few exceptions all replied there had not.

MRS. GOULD'S SISTER TO WED NOBLEMAN.

NEW YORK, March 25.—When pretty Edith Kelly, an obscure English musical comedy chorus girl, allied herself with one of the great American fortunes three years ago by marrying Frank J. Gould, her friends figured it to be about all the so-called "matrimonial luck" likely to befall that particular Kelly family. Now it appears the young Mrs. Gould's nineteen-year-old sister, Hetty, is about to join the English nobility by marrying the Hon. George St. John Broderick, eldest son of Lord Middleton, the ninth viscount Middleton. Broderick is twenty-four years old. He is heir to extensive estates in Ireland.

CANADA AND TREATY BETWEEN JAPAN AND GREAT BRITAIN.

OTTAWA, March 25.—Official notice of Canada's adherence to the commercial treaty between Great Britain and Japan was given out tonight by the prime minister by resolution. The treaty was signed April 3rd in London and ratifications exchanged at Tokio May 5th. It was not made applicable to any of the overseas Dominions except upon notice given within two years of the date of ratification. The treaty gives to the contracting parties most favored nation privileges in all matters of commerce, navigation and industry including rates of duty, fights of entry, travel and residence, and exemption from military service. Canada adheres to the treaty with two important exceptions. The present Canadian immigration restrictions are not to be affected, and the eighth article of the treaty is not to apply to Canada. This article specifies the rates of duty to be levied by Japan upon British paints, linens, woollens and iron, and provides for the free entry of Japanese silks, unwrought copper, campher, basket ware, rush mats, lacquered ware and rapazed.

P. MORGAN GRADUALLY IMPROVING.

ROME, March 25.—A rumor having gained currency here that J. Pierpont Morgan had completely broken down mentally as well as physically, a correspondent sought authentic information from his family, who are with him here, and who accompanied him back from Egypt. Herbert L. Satterlee, the husband of Mr. Morgan's eldest daughter, who came on from New York and went to Cairo to meet his father-in-law, spoke with great frankness, saying, "For once and for all, the rumor is absolutely without foundation. Mr. Morgan is suffering from the effects of severe nervous prostration, but the malady is following its normal course, and today his condition is far better in every way than it was when he was in Egypt. For three weeks at Cairo, Mr. Morgan scarcely slept at all. He was greatly depressed and would sit listlessly, taking interest in nothing. The acute stage of the malady has now passed and although his appetite is variable and his taste for food is somewhat capricious, he sleeps all night and takes a nap during the day, getting at least 12 hours of good sleep out of the 24. His interest in life is returning, and the only difficulty now is to keep him perfectly quiet."

KIDNAPPED BY MEN IN AN AEROPLANE.

ST. PETERSBURG, March 25.—Formal complaint was filed with the Foreign office by the Mayor of the little town of Ploek, near the Poland-Austria frontier, that he was kidnaped by two Austrian aviators a few nights ago. According to his story, hearing the whirr of an aeroplane, he went out, armed with only his insignia of office, to arrest the trespassers, whereupon the two aviators seized him, bound him hand and foot, lashed him to the body of the machine and resumed their flight. They finally landed sixty miles away in a lonely field where they released him. Before he could give the alarm they had vanished across the frontier.

FORCED FEEDING OF MISS PANKHURST

LONDON, March 25.—The prison experiences of Sylvia Pankhurst are described in a statement issued by her this evening. Miss Pankhurst, who is the daughter of Mrs. Emmeline Pankhurst, the leader of the suffragettes, was released from Holloway prison on March 21. She was serving a term of two months imprisonment for window smashing. Immediately on her incarceration, she went on a hunger strike. After three days she was told she would be subjected to forcible feeding unless she consented to take food voluntarily. She had made preparations, she said, to throw things at the doctors, but when six women attendants entered she could not bring herself to attack them. The women seized her and forced her down on the bed. "After this," says Miss Pankhurst, "the doctors came stealing in. They hadn't the courage to show themselves until I was secretly held. Miss Pankhurst tried her hardest to keep her teeth closed, but by the aid of a steel instrument the doctors succeeded in prying her jaws apart after causing her great suffering. A tube was then forced down her throat. "I was seized with severe nausea," she continues, "and after they had pulled the tube out they left me on the bed, exhausted and shaking with sobs. The same thing happened in the evening, but I was too tired to fight so long. "After two days of forcible feeding, the prisoner was ordered to solitary confinement for refusing food, and was deprived of books. The forcible feeding continued daily. After being imprisoned for twenty-six days she was allowed to exercise with Miss Z. Emmerson, of Jackson, Mich., who was also serving a two months' term for window smashing. Miss Emmerson, too, was on a hunger strike. "At first," says Miss Pankhurst, "I could hardly believe it was she, her figure was so much changed, only half the size it was when she entered the prison with me. According to her account, Miss Pankhurst by this time was a complete wreck—her eyes "like two cups of blood," her nerves shattered. She gave way frequently to fits of screaming and crying. Just when she had concluded that she could keep up the fight no longer, the doctors held a consultation and decided to recommend her release on medical grounds."

MAN WITH FAMILY OF 33 CHILDREN.

LONDON, March 27.—Mr. Frederick Bush Beckett, who has just celebrated his silver wedding with his second wife, has had in all thirty-three children—eleven by his first wife and twenty-two by his second. Many are married or in business on their own account, but ten are still living at home. From his first family he has fourteen grandchildren and from his second two. Their names he cannot remember; in fact, it requires a lot of thinking to remember the names of his own two families, and there is a regular roll call every night to make sure that all the family are in the house.

The Kidneys

Are To Blame WHEN A WOMAN'S BACK IS NOT STRONG.

Women are coming to understand that weak, lame and aching backs from which they suffer are due to wrong action of the kidneys. The kidneys are overtaxed—given more work than they can possibly do—then they cry out in protest through the pain in the back.

When the back aches and pains it is almost impossible to do her household work for every move and turn means pain. On the first sign of backache Doan's Kidney Pills should be taken so as to avoid all this suffering.

Mrs. Harvey W. Brownell, Northport, N.S., writes:—"I now take pleasure in writing you, stating the benefit I received by using Doan's Kidney Pills. About a year ago I was terribly afflicted with lame back, and was so bad at times I could not sweep my own floor. While looking through B.B.B. Almanac, I saw Doan's Kidney Pills were a great kidney remedy, so I thought I would try a box or two. I did so and found great relief. After using five boxes I was completely cured, and I am very thankful to have found so speedy a cure." Price, 50 cents a box, 3 boxes for \$1.25. At all dealers or mailed direct on receipt of price by The T. Millburn Co., Limited, Toronto, Ont. When ordering direct, specify "Doan's."
