### Foxes

The Company has been most fortunate in securing six pairs of Pure Silver Black Foxes from The Hackett Silver Black Fox Co. Limited. These are the Highest Grade Island Bred Foxes, a large percentage of the original Dalton stock—all, the recognized thoroughbred stock. To illustrate the fecundity of these foxes, it may be stated the majority of the six pairs are from parents that never had less than six at a litter.

### Ranch

This is an asset of which the Company can justly boast being the original Dalton Ranch—the Klondike of Prince Edward Island—the ranch which produced the greatest Breeders and most valuable furs ever put on the market—where litters never failed—where disease never entered. This ranch is now in the possession of the Hackett-Dalton Silver Black Fox Co. Limited.

### Management

The management will be under the direct control of the Directors, each of whom has made a success of ranching, and of buying and selling live stock and pelts. They guarantee to keep expenses within reasonable limits.

### Fox Industry

In consequence of the numerous investigations made by Commissioners and men of authority sent out by the Governments of the various Countries, whose attention had been attracted by this wonderful industry, it is safe to say that this business stands at the head of all commercial enterprises. The annual profits accruing from the average fox ranch far exceed the dividends obtained from any stock on the market. As to the future of this industry, the greatest financiers and commercial experts are convinced that its solidarity is assured. It is on such firm basis that no doubt exists as to its permanent success.

### Reserve Fund

The Promoters of this Company deem it prudent to establish a Reserve Fund to provide against unexpected losses or depreciation in value of pelts. Whilst paying a high dividend—sufficient to satisfy all—a small amount will be placed aside with a view of making the Corporation permanently stable, and likewise of enlarging the business by adding new and improved stock annually.

### Stock and Payment

The stock of the Hackett-Dalton Silver Black Fox Co. Limited is being sold at One Hundred (\$100.00) Dollars per share, 10 per cent on application, 30 per cent on the 1st day of June, the balance on or before August 1st, 1914.

### Personnel
