HEARTS AFIRE

By Mae Christie

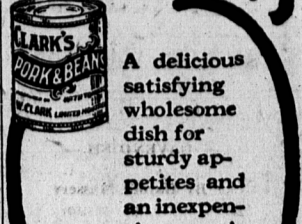

(Continued)

"Meaning that two's company, but three's a crowd?" She cast a look at the tall, stalwart fellow whom hitherto she had considered the invalid's young man. Was there a rivalry between him and Personally, she'd prefer the first one, but there was no accounting for girls' tastes.

That Car Of Yours

By WILLIAM ULLMAN Heart-to-Heart Talks With Automobile Owners and Drivers on How to Get the Most Out of Their Cars at the Least Expense.

TIGHTENING PAYS DOUBLE

Keeping the body bolts tight has an advantage other than that it serves to eliminate troublesome noises and wear. If the bolts are taken up regularly, it means that they are not allowed to become so rusty that the nuts cannot be turned on them. It does not pay to allow this task to remain undone over a long period, for when the motorist gets around to it he probably will find that many of the bolts will have to be replaced or allowed to remain loose.

TIP ON CARE OF BEARINGS

If the motorist feels that the bearings in the rear wheels need tightening, there is a point in connection with this repair that he should remember. That is that these bearings will run no matter how tight they are made. This, obviously, may lead to disastrous results. The bearings should be allowed a slight play. Tighten the lock nut as far as it will go, then turn it backward a third or half turn.

CLEAN OUT OLD GREASE

Front wheel bearings get their lubricant from the hub caps. While the supply of grease in these units may be considered adequate, its condition is a point that merits attention. If the lubricant is silvery in color, the fact is an indication that it is filled with dust and filings. In such a case, it should be changed without delay, for these substances play havoc with the lubricating qualities of the grease.

TRY OWN "PROVING GROUND"

When taking a demonstration in a car that one is considering purchasing, do not leave the matter of the "proving ground" entirely up to the salesman. The best way to compare another car with the machine one has been driving is to take it

PIMPLES AND ERUPTIONS

On Face. Looked Awful. Cuticura Healed.

"My face broke out with pimples and sore eruptions. They did not trouble me much until about six months ago when suddenly they became large and red, and I could not sleep at night for the terrible itching and burning. I could not go out; my face was awful. "My mother read an advertisement for Cuticura Soap and Ointment and I sent for a free sample. I purchased more, and when I had used three cakes of Soap and three boxes of Ointment I was healed." (Signed) East Lee, 60 Gunninge St., London, Ont., Sept. 1, 1926. Cuticura Soap, Ointment and Talcum are ideal for daily toilet uses. Sample Each Free by Mail. Address Canadian Depot: "Shubert, Ltd., Montreal." Price, Soap 25c, Ointment 50c, Talcum 25c. Cuticura Shaving Stick 25c.

WATCH FOR LEAKY CELLS

If the battery is getting the more frequent attention it deserves for the Summer, the alert motorist can catch a leaky cell far very quickly. Notice whether one cell consistently takes more water than the others. If one does, it is a fair indication that the jar leaks. Caught in time, the battery man may be able to repair it. The situation is one in which the motorist, cannot afford to procrastinate. He should take the battery to the shop for immediate attention.

AN INEXPENSIVE BEAUTIFIER

In the case of some popular priced cars, the panels that line the interior of the doors on the open models frequently come loose, fray and break. The effect is not conducive to good appearance. These may be replaced very inexpensively and replacement contributes immeasurably to the car's interior effect. It is not necessary to have a mechanic install the new parts. The neophyte can do the job at home without any difficulty. A light hammer is the only tool necessary.

BRAKE EFFICIENCY VARIES

When driving in traffic, do not apply the brakes suddenly unless it is absolutely necessary. The car behind may have less efficient stopping equipment and the result will be a collision. Keeping always in mind that the other man's brakes may be better or less efficient than one's own is a distinct factor in safe driving at all times.
