OLYMPIC GIVES UP ATLANTIC TRIP

Bodies Observed on an Iceberg—C. M. Hays Baby is Recovered—The Senate Investigation—Peuchen's Promotion

(Canadian Press.) HALIFAX, April 26—The body of C. M. Hays, President of the Grand Trunk Railway, has been added to the list of the identified dead picked up near the scene of the Titanic disaster. This announcement made this a. m. by Jones and Co., Agents for the White Star Line, who received the news in the wireless message from the cable ship Minia.

Officers of the North German Lloyd's liner Princess Irene, which docked just before midnight, told today of a wireless message which was intercepted on Wednesday from a ship, the name of which has not been learned, reported that passing fifty miles from the scene of the Titanic disaster she had sighted an iceberg on which were the bodies of more than a dozen men.

All wore life belts and the bodies were huddled in groups at the base of the berg. It was the opinion of the officers of the ship that the men had climbed on the mass of ice and had frozen to death, as they were swept southward. No attempt was made to take off their bodies.

SOUTHAMPTON, April 26—The White Star liner Olympic, which had since Wednesday by a strike of firemen been held up at Ryde, Isle of Wight, since Wednesday by a strike of firemen, today abandoned the scheduled trip to New York and returned to this port.

This course was made necessary by the desertion of seamen this morning when the liner attempted to replace the striking firemen with non-union men. One hundred and twenty one passengers who are awaiting the Olympic at Queenstown has been transferred under their wing. They put experience, energy and pluck into it, and the Nova Scotia Carriage Company took on a new lease of life.

Their first year's operation resulted in a net profit of \$5,622.45. The next year they cleared up over \$23,000.00, the next year \$36,000.00, and their estimated profits for the present year are placed at \$132,000.00. That is going some!

They are manufacturing automobiles, and have orders on hand for 200. And now they are branching out with prospects of having one of the greatest manufacturing industries in Canada. Their business is to be formed into a joint stock concern, and will be removed to Amberst, that town offering some exceptional accommodations. Large and up-to-date buildings are to be erected, and the fame of McKay Brothers will reach from one end of Canada to the other.

The new concern is being capitalized at two million dollars, and it is expected this will soon be taken up. Canadian Investors, Ltd., Halifax, have the matter in hand. The Island Province has just reason to be proud of those two young workshoppers and warehouses will commence at an early date. The factory at Kentville will continue undisturbed in the meanwhile.
