Eating Oil

This is a growing and sane idea. It is olive oil that is becoming one of the important foods of the world.

Use all the olive oil you can, be careful about the quality only. That is insured by coming here for it.

"Sovereign" Cashmere Hose and Half Hose will out wear all other makes.

CARELESS GUNNERS.

Shall we never have done with gunning accidents? Day after day we read of these painful fatalities.

Most of all these tales of horror have their origin in most criminal carelessness. Why are guns and revolvers left loaded where children have access to them?

A MIGHTY HUNTER.

In the dawn of history there was a mighty hunter known as Nimrod, and from that time onward many of the great ones of the earth have delighted in the chase.

It is not therefore at all surprising so energetic a spirit as President Roosevelt should be attracted by what is known as royal sports.

He is a President and not a King or an Emperor, but many a prince born to the purple, has had less of the imperial spirit than Mr. Roosevelt.

Not satisfied with this he has been looking abroad for other ferocious beasts upon which to train his trusty rifle. Africa with its jungles, its lions, tigers, elephants and hippopotami naturally attracted his attention.

Just the other day the President returned from his summer retreat at Oyster Bay, N. Y., to the White House at Washington. Those who have taken note of the doings of the great man during his period of rest and recreation, tell the waiting world that for months past he has spent much time "in reading books regarding Africa and the habits of the animals there, and has been perfecting his plans and completing his hunting outfit."

It will be, after all, a very real and capable hunter that goes forth next year to the African wilds in search of big game, and all the world will be surprised if he does not do great exploits and bring home a plentiful "bag," he is no "tissue paper" sport.

Don't Think

There are just two kinds of underwear one kind makes a woman feel that she is buying in the right kind of store and is getting a reliable article (that's the confidence-making kind); the other is the trashy kind, and the less said about it the better.

This argument is merely a prelude to saying that our underwear Boys', Girls', Ladies' and Men's, are just the right kind in quality; and here is where the main point is, the prices are as low as the wrong kind.
