Fur Sales

May 1930

C. M. Lampson & Co.'s Circular Letter says:

We have pleasure in handing you herewith Report of our Public Sale of Silver and Cross Fox Skins, just concluded.

SILVER FOX: The offering was a fairly large one for the time of the year and the demand throughout for all descriptions, excellent.

We had on this occasion slightly altered our methods of offering our skins, with the double object of enabling the buyers to purchase lots exactly suited to their requirements, and also to obtain for our Shippers the highest possible price for each individual skin.

With this end in view, in a number of cases we assorted together skins being of exactly similar type, color and value. These assortments, belonging to different owners, such were again sub-divided and put up in equal lots of suitable numbers, according to the value of the skins.

The experiment was an undoubted success from every point of view and it is our intention to carry the system still further in our future sales.

The collection was, on the whole, above the average but contained few real specimens.

FINE SKINS—The few of these offered sold well without change, the highest price obtained being 88 pounds for a somewhat peculiar full silver skin without a tail.

THE BLACK, SLIGHT SILVER AND TREE-QUARTER SILVER were not in particularly strong request at the February Sale. We were therefore well pleased to find them once more in good demand.

THE HALF-SILVER AND THREE-QUARTER SILVER again sold well, but as these were in fair demand in February, the advance at the present sale is less pronounced.

THE SILVER were undoubtedly the most popular kind at the February Sale, and now again sold well, but only at slightly higher prices.

ALL INFERIOR SORTS, which have been somewhat neglected for the last year, have now come back into favor, the present range of prices being very much higher than that ruling in February.

The market closed very firm, and this, coupled with the fact that the quality of skins still available must be small, leads us to think that prices are likely to be maintained throughout the summer and autumn.

Prospects for the Sale in November are consequently distinctly favorable.

The following are the detailed results of the Sale, prices being compared with our previous sale.

Number Of Skins Sold	Average Price	Highest Price
Unchanged	—	£88
Black	Advanced 25%	£61
Slight Silver	Advanced 25%	£61
1/2 Silver	Advanced 25%	£43
3/4 Silver	Advanced 15%	£13
1/2 Silver	Advanced 15%	£20
Silvery	Advanced 10%	£21
Inferior Sorts	Advanced 50%	£9.0

CROSS FOX. This fur was once more in excellent request, and prices are now fully 15 percent higher than those ruling in February. The well-marked Dark skins were again the most popular kind. The average price for Canadian skins is now about 16 pounds and the highest price realised in the sale was 44 pounds.

In speaking of a person's faults, be careful. Pray don't forget your own. Remember, those with homes of glass, should seldom throw a stone. If we have nothing else to do, but talk of those that sin, 'Tis better we commence at home and from that point begin.

We have no right to judge a man until he's fairly tried; Should we not like his company, We know the world is wide. Some men have faults, and who have not?

The old as well as young, Perhaps we may for aught we know, Have fifty to their one. Then let us all when we commence, To slapper friend and foe, Think of the harm a word will do To those who little know, Remember curses sometimes, like Our chickens, "roost at home." Don't speak of others' faults until We have none of our own.

The turnip crop this year is causing much consideration on the part of the farmers. Turnips that were planted early last year, caught the first market in August, a splendid price was given, to those few who had them large enough to sell. This year, being such an early spring, this enables the farmers to get his turnips in early, and the majority of the farmers are finished their early planting. It will be very encouraging to the farmers, if the crop and price equals that of last year.

Mr. Irving Toombs, Central Bede-

que was a visitor to North Carleton on Wednesday evening.

Miss Myrtle Noonan, Centreville, Bedeque, was a recent visitor to Summerside.

Mr. Hugh Murray, Centreville, Bedeque, was a visitor to Summerside recently.

GROOM'S ATTIRE IS CAREFULLY CHOSEN

The formal day wedding—that is the ceremony which takes place prior to 6 o'clock in the evening—compels the cutaway coat for the bridegroom. The cutaway or morning coat, which is quite de rigueur, may be made of black or Oxford cheviot. The younger men show a preference for the Oxford or iron grey toned cheviot. This coat will have one button and should not be braided.

Tradition allows some difference in the matter of the waistcoat. It may be single or double-breasted and it may be either of the same color and material as the coat or of contrasting material. If a colored waistcoat is worn, it should be of white linen or pique or a grey or beige-colored cloth. Grey and fawn is usually the choice of older men; the young men of correct fashion preferring the white waistcoat. There is this much to be said for the light waistcoat, that it seems more in harmony with the gala-air attaching to the June wedding. Surely the young bridegroom is entitled at least to this touch of brightness on such a day of days.

The correct complementing trousers for the cutaway coat should be made of worsted in grey and black, or black and white stripes.

In the selection of the correct tie, proper usage permits of but slight latitude. The pearl grey tie is absolutely correct although some few bridegrooms chose black and white which after all is in quite good taste.

Paris now has watches for dogs. London is making an apple machine.

Astonishing Guns Shoot Food to Eat

Wheat and rice grains given their most nutritious form

HERE are wheat and rice grains shot from guns! To give them a new deliciousness... a more perfect digestibility.

First the choice, plump grains are sealed in guns. Then revolved in fiery ovens. Then fired. This causes 125 million explosions in every grain. It blasts open every tiny food cell. Thus every particle of the grain is made as completely digestible as though it had been cooked for hours. And so Puffed Wheat and Puffed Rice attain the virtual nourishment of hot cooked cereals.

And what new flavoriness... what delicious, crisp crunchiness... this wonderful invention brings to wheat and rice. The grains are puffed to 8 times normal size. They taste like sweet new nutmeats. They entice as grain foods never have before.

Serve Puffed Wheat and Puffed Rice every day in every way you can. Your family deserves this finer kind of nourishment. Your grocer has Puffed Wheat and Puffed Rice. The Quaker Oats Company. 5757
