

Foster's Guaiacol Emulsion

This is a fine old standard remedy—a great flesh producer prescribed for either children or adults who lack flesh and strength.

It will arrest the ravages of wasting diseases and is a great help in restoring thin or emaciated convalescents to complete health.

For chronic coughs, asthma, bronchitis and all affections of the throat, chest or lungs, it is unequalled.

Customers tell us that our Guaiacol Emulsion is better than any other Emulsion they have ever used. 40 75c a bottle.

HORSEMAN-FORM ASSOCIATION

(Continued from page one)

of Nancy Mae, 2.36, bringing the highest figure, \$316.00. Mr. P. B. Brown, Proprietor of the Bevere Hotel, was the lucky purchaser.

This being the first attempt to hold a horse sale it is certainly encouraging for the future and next year a sale on a far greater scale will be looked for.

Messrs. B. Carter & Co. were the auctioneers and handled the sale in their usual creditable manner.

The committee in charge of the above sale deserves every praise for the grand success, as they worked like Trojans and left nothing undone to get every man the highest bid.

The President, Mr. Thomas Cass, North River, and the Secretary and other officials were present and gave every assistance to those interested.

OF SPECIAL INTEREST

OSTEND, March 19 (Special)—Flotillas of British and French torpedo boat destroyers and submarines are carrying out a series of night manoeuvres in co-operation in the English Channel.

The commanders of the flotillas are following common modes of action and there is a frequent exchange of wireless messages between the vessels.

LONDON, March 19 (Special)—As a result of the strike of cooks and waiters at the Criterion Restaurant, 1,100 persons who wanted luncheon on tea had to go elsewhere.

The London cooks' unions asked that the cooks be included under the provisions of the Amended Shops Act, which came into force on March 19.

If Breathing is Difficult, If Nostrils are Plugged, You Have Catarrh

At Last a Remedy That Already Has Permanently Cured Thousands.

Perhaps you haven't heard of the new remedy—it's so pleasant to use—fills the nose, throat and lungs with a healing balsamic vapor like the air of the pine woods. It's really a wonderful remedy—utilizes that marvelous antiseptic only found in the Blue Gum tree of Australia.

The name of this grand specific is Catarrhose, and you can't find its equal on earth for coughs, colds, catarrh or throat trouble. You see it's no longer necessary to drug the stomach—that spoils digestion—just simply inhale the balsamic essences of Catarrhose, which are so rich in healing that they drive out every trace of Catarrh in no time.

"I look upon Catarrhose as the most valuable medical discovery of recent years," writes E. V. Potter, of Prince Albert. "As a long sufferer from nasal and throat catarrh I was obliged to take a considerable medicine, and although it helped me, my digestion was always disturbed and the catarrh didn't go away. With Catarrhose it was different. It cleaned my nose and throat of all mucus and discharges, enabled me to breathe freely, relieved a stuffy feeling in my nose and frontal headaches. Today I am entirely free from catarrh, and I use my Catarrhose inhaler a little every day in order to prevent the disease from returning."

With Catarrhose, experimenting is unnecessary. A permanent curative action begins, insuring relief from Catarrh results. The large size costs \$1.00, last two months and is guaranteed. Small size 50c, sample size 25c. All storekeepers and druggists, or The Catarrhose Co., Buffalo, N. Y., and Mt. Kingstons, Canada.

SPORTING NEWS

HOCKEY

At 8.10 last night the Y.M.C.A. hockey team and the second Vics lined up in the Arena Rink, Charlottetown, to contest the championship of the Intermediate team. The Vics, 4-3, were weakened by the absence of some of their regular players, men having to take their places, who had not been on the ice before this winter. They were also without a proper goal keeper.

The game was fairly fast in the first half the Y.M.C.A. winning by 1 to 0.

In the second half the play became slower and the scoring was all on one side of the Vics. They won out by 7-4.

James McMillan was referee and Sam Doyle, judge of play.

BOWLING

The fourteenth game of the Duck Pin League in connection with the Y. M. C. A. was rolled last night. The Royals, who are the League leaders, defeated the Royals by 46 pins. N. Newson of the Royals made the highest score of the evening.

SPORT

NEARLY PLAYED.

A very interesting game of hockey was nearly played at the Arena last night between the McLean Tartans and the Eldor Hotel team. The Tartans at the eleventh hour refused to play fearing a bad whitewashing. The game Morell House Team was then interviewed and immediately consented to play the following evening. The lineup was:

Tartans: Goal M. Kenna; Point A. Kelly; C. Point R. Robblee; L. Wing I. Vanidestain; R. Wing R. Davison; Centre J. Gaudet.

After a very closely contested game the Tartans won by 3 goals to 2. Judge of Play, H. Whitlock.

HORSE RACES.

The following are the summaries of the races held at Summerside Tuesday:

2.40 PACE.

La Irving (Simple)	1 2 2 1 1
Douglas (Steele)	2 1 1 2 2
Gouldie (Matthews)	3 3 4 3 3
Cartery (Black)	4 4 3 4 4
Time—1.15, 1.13, 1.12, 1.14, 1.13	

3 MINUTE TROT.

Kaier D. (McLure)	2 1 1 1
Swet Marie (Millman)	1 3 3 3
Mystary (Black)	5 2 2 4
Doctor Jack (Steele)	3 4 4 2
Brazilian Junior (Holland)	4 5 dr.
Time—1.16, 1.14, 1.12, 1.13.	

NAMED RACE.

Watchmaker (Steele)	1 3 3 2
Happy Jack (Matthews)	3 2 1 3
Time—1.19, 1.18, 1.18, 1.19.	

SALE OF HORSES YESTERDAY

The meeting of the horsemen held last night in the Prince Block, Charlottetown, was well attended. Representatives were present from the outlying parts of the province and a splendid discussion followed. Speeches were made by the chairman, Dr. I. F. Johnson, Tignish, Messrs H. K. Acorn, Souris; P. S. Brown, H. Kelly and others. It was decided to form a strong association, the membership fee being placed at one dollar, and to appoint an executive to meet and attend to all the details in regard to the government of light harness horse racing, etc. A meeting of the executive was called for the 31st of March. The following are the officials of the Prince Edward Island Horsemen's Association.

Mr. F. R. Hearty, Hon. President; **Cap. D. A. McMillan**, Pres.; **Sens. Dr. B. C. Frowse**, Vice-Pres.; **Mr. T. C. Edgett**, Sec'y; **Mr. Hammond Kelly**, Treas.; **Directors for King's Co.**—Messrs H. H. Acorn, Souris; **Dr. I. F. Johnson**, Tignish; **Messrs Jas. A. McNeill**, Summerside; **P. P. Cahill**, Tignish; **Directors for Queen's Co.**—**Messrs H. H. Horne**, P. S. Brown, and **R. H. Sterns**, Charlottetown.

Mr. Tom Fallon of Cavendish had a splendid Aquil three year old colt in the horse show. This colt is a great trotter and was given a little step around the streets by Mr. J. P. Irving who was greatly struck on his gait and speed.

HORSE NOTE

A novel way of timing was made use of in Amherst at the ice races the other day. A wire was run from the starting point to the finish and batteries attached. The starters pushed the button at "Go" and the timers were at the finish. Otto Oakes won the Free-For-All in straight heats. Time 1.09, 1.01, 1.04. The 2.30 class was won in 1.05, 1.05, 1.04 and the 8 minute class was won in 1.12, 1.10, 1.09. Where's that fellow that wrote the letter about the halves in 1.07 on our ice path. Won't this convince him that "even" that time is very commonplace.

OF SPECIAL INTEREST

LONDON, March 19 (Special)—A resolution expressing "confidence in the sense of justice of the government and people of the United States to obtain recognition of the British claim for equality of treatment of the ships of all nations using the Panama Canal, was adopted unanimously by the British Chamber of Shipping during its annual session in London.

The resolution also said that in default of this recognition being obtained by diplomatic means it welcomed former President Taft's declaration in favor of arbitration as an assurance that in the last resort a friendly settlement will be reached.

Sir Edward Ham, president of the Chamber in 1910-11, in moving the resolution, said that it was highly satisfactory to know that events were moving rapidly in the direction of an amicable settlement on the lines suggested by Sir Edward Grey, the British Foreign Minister. At the same time he thought it was desirable for the Chamber to affirm its belief in the justice of the British case and its conviction that the United States government and people prefer to recognize and maintain treaty obligations rather than to pursue a narrow and selfish end. He considered a most satisfactory solution would be the adoption of Senator Elihu Root's amending bill.

Sir Edward Ham described a trip he made to the canal a year ago, and paid a high tribute to American achievement. He regretted that Great Britain had surrendered her right to construct the canal conjointly with the United States.

At the annual banquet of the chamber this evening Mr. Sidney Buxton, referring to the Board of Trade, said he was anxious to see the United States of the British life saving rules and British life saving appliances placed on a universal basis.

HOW THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

W. H. CHESEBROUGH, Toledo, O.

Dr. J. H. O'Connell, of Prince George's Bay, P. E. I., writes: "I have known Mr. P. J. O'Connell for the last twenty years and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm."

W. H. CHESEBROUGH & MARVIN, Wholesale Dispensaries, Toledo, O.

Hall's Catarrh Cure is taken internally, reaching directly upon the blood and mucous surfaces of the system. Testimonials are given free. Price 50c per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

Provincial Legislature

Continued from page 1

sors had said. Now when their predecessors were in office they must assume that they were in sympathy with the late Dominion administration, and the only excuse they could have for failure other than want of business acumen was that the Liberal party when in power at Ottawa deliberately neglected their duty to this province.

35,000 MORE FARMERS WANTED.

DR. S. R. JENKINS said he was at present 15,000 farmers, and if the Government were to take measures, as they intended to do, to develop the agricultural education of their people—he would go as far as having an agricultural College here—it would be a great incentive to keep our young men at home, and there was no reason why they shouldn't, as we had room for 50,000 farmers on the island. What with demonstrator farms, and visits of agricultural instructors, the farmers would soon find that they were better off with farm of a reduced acreage and farmed more intensively. We had an agriculture heritage second to none in North America, and with all the advantages now being, and about to be, offered he did not think our young men could do better than stay at home. This was the more so when the car ferry was in operation, the markets would be at our door, and we would be able to put the produce in keen competition with that of Ontario.

OYSTERS AND ROADS

It is suggested in connection with the oyster industry that the government should send some of our young men to the great American oyster centre to learn the business thoroughly, so as to be able to instruct our people in the latest and most improved methods of handling the industry. Passing from the discussion of the necessity for improved roads which was a necessity for the proper development of the province, educationally morally and materially, Dr. Jenkins proceeded to deal with

EDUCATION

Education here, he said, had for long been stagnant. The curriculum was too long and verbose. The students had to cram too much into them in the short period at their disposal. The course at Prince of Wales College for teachers was too short for the young people to do themselves justice. In all other professions, medical, legal and ministerial, it took four or five years for a man to qualify, whereas our teachers were allowed to pass out after a one or two years' course. They could not be properly qualified in that time; and the instructors could do was to cram the students' noddles with facts which they could not possibly know, and which the young people were turned out with a superficial knowledge which "did not help them to make headway." The term at Prince of Wales College for teachers should be at least three years to give the students an opportunity of thoroughly qualifying for their vocation. Neither was the curriculum of the elementary schools satisfactory. Speaking from his experience as a member of the Charlottetown School Board, he would suggest that there be a different curriculum for town and rural schools to suit the conditions of the locality. He thought if the government would adopt a scheme on these lines for the different Boards to apply under the direction of the Superintendent of Education, their schools would soon show different and better results.

MEDICAL INSPECTION

We have no medical inspection of schools here which was a great drawback to the community from a health point of view. Speaking from a professional standpoint he thought if we were to have good healthy citizens we ought to begin with the proper medical attention to the children in the schools. No one could realize the importance of this unless they had given the matter some attention. Many of their children, more than most people could have any idea of, suffered in some way, mentally or physically, and because of the ignorance of the teachers of this fact, proved a hindrance not only to themselves but to the whole school. We had young children going to school with defective eyesight, and nobody knew what was wrong with them. The teachers were not to blame as

they were not educated in hygiene and sanitation. Similarly, many children suffered from adenoids which predisposed them to tuberculosis. These troubles could only be diagnosed by properly trained inspectors, not necessarily medical men, but nurses, and he would recommend that the government should follow the example of governments in other places and institute a medical inspection of school children. The results in the improved state of health of the community would more than compensate us for the expense incurred. After congratulating the government for the institution of a tubercular sanatorium, the speaker proceeded to recommend

MEAT INSPECTION

A great deal was being done for the cure of tuberculosis, but his idea was that they should start at the origin, not take effective steps for the prevention of tuberculosis, and this could best be done by instituting a system of meat and dairy produce inspection. The federal government took measures to prevent our exporting diseased meat to other provinces, but nothing was done by the local government to prevent diseased meat going into consumption in our own province. The farmers were getting familiar with the symptoms of the disease in animals, and would never dream of sending dead meat so affected to Ontario or Quebec where it would be rejected by the Government Inspectors. The local government should be compelled to take similar adequate protective measures here, and this could best be done by appointing inspecting offices to pass all meat before allowing it to go into consumption. There was still more danger from dairy produce such as milk, butter and cheese, as these were eaten uncooked and with no chance of the tubercle bacilli being destroyed. These were some suggestions for the consideration of the government, and he hoped it would act upon them and he be considering the best interests of the community from a hygienic and sanitary point of view. (Applause.)

The motion was then put and the reply to the address was carried by acclamation.

On the motion of Mr. McLellan the House adjourned for the Easter recess till Tuesday at 3 p. m.

LOCAL NEWS

Messrs J. P. Irving and Will Irving of Cape Traverse who were in Charlottetown attending the Horse Show and Sale returned home yesterday.

THE BISHOP'S PALACE.

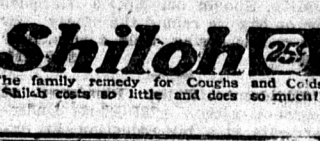

Furniture, utensils, etc. were removed from the Bishop's palace, Charlottetown, yesterday preparatory to repairing the damage done by the recent fire. Men were working on the bell of the Cathedral, also, removing it from its place.

INTERESTED VISITOR.

Mr. James H. Myles of St. John, N. B., representative of the "Latonia Oyster Co., Brantford, Ont., and Brantford Novelty Co., Toronto, is staying at the Revere Hotel. Mr. Myles is one of the oldest horsemen in the province and was greatly interested in the Horse Show and sale of horses and was an attentive listener at the meeting of horsemen last evening. He was especially taken with the beautiful standard bred stallion Bottom and claims he is one of the finest specimens of horse flesh in Canada.

DEATH IN ST. JOHN.

Dr. John Brittain died at St. Anne de Bellevue, Quebec, at 2.30 o'clock Monday afternoon. When word came to this city last night, says a St. John exchange of the 18th, those of his friends who knew of it were shocked and grieved, although it had been known for some time that he was seriously ill. It was in this province that Dr. Brittain spent the best part of his life and here he had hundreds of warm personal friends including many of the older school teachers, whom he taught when he was an instructor at the Provincial Normal School, and several former students who studied under him when he was a professor at the University of New Brunswick. He leaves several children, among whom is Professor Horace L. Brittain, at one time principal of Horton Academy, Wolfville, N. S., and later superintendent of schools at Hyde Park, Mass. Dr. Brittain was an educationist of high standing, and he was an author of several articles and books on nature lessons. He was the eldest son of Thomas B. and Elizabeth Carson Brittain, and was born near Sussex on Nov. 22, 1849. For ten years Dr. Brittain was principal of the Superior school at Petitediac including for fourteen years he was instructor in natural science at the Provincial Normal School. From 1906 to 1908 he was professor of chemistry at the University of New Brunswick, and was then appointed professor of nature study at Macdonald College. Some time ago he retired on a pension from the Carnegie fund.—Dr. Brittain was known in Charlottetown, having attended the Summer School of Science here a few years ago.

The Canadian Silver Black Fox Exchange

Charlottetown, P. E. I.

We buy and sell options on Silver Black Foxes. We have enquiries from the United States and all over the Maritime Province and Quebec. CASCARETS CLEANSE LIVER AND BOWELS

No headache, bad taste, sour stomach or coated tongue by morning

It is more necessary that you keep your Bowels Clean, pure and fresh than it is to keep the sewers and drainage of a large city free from obstruction. Are you keeping clean inside with Cascarets—or merely forcing a passage way every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the bile from the liver and carry out of the system the constipated waste matter and poison in the intestines and bowels.

No odds how badly and upset you feel, a Cascaret tonight will straighten you out by morning. They work while you sleep. A 10-cent box from your druggist will keep your head clear, stomach sweet and your liver and bowels regular for months. Don't forget the children—Their little intestines need a good gentle cleansing, too.
