I'm So Tired
 Fatigue is the result of poisons in the blood. So when the kidneys fail to purify the blood one of the first indications is unusual and persistent tired feelings and pains in the back.
 Neglected kidney troubles lead to years of suffering from rheumatism or develop into such fatal ailments as Bright's disease.
 The kidney action is promptly corrected by use of Dr. Chase's Kidney-Liver Pills—the best known regulator of kidneys, liver and bowels.
 Mrs. John Ireland, R.R. No. 2, King, Ont., writes:
 "I was a great sufferer from severe headaches and bilious spells. I tried a number of remedies without obtaining any benefit until I was advised to use Dr. Chase's Kidney-Liver Pills. These completely relieved me and made me feel like a new person. I am very grateful to Dr. Chase's medicines for what they have done for me, and you may use my letter for the benefit of others."
 Dr. Chase's Kidney-Liver Pills are sold in a dose, 25c a box, all dealers or Edmanson, Bates & Co., Ltd., Toronto.

 after. Then he wants to buy his Chicago pork, FREE OF DUTY, five or six cents a pound. DO YOU WANT THE PRICE OF YOUR PORK CUT DOWN TO THAT FIGURE? And this is another thing that he is after. Then again he wants to get his implements in free of duty. He doesn't sell his wheat in Ontario, for they make no difference to him if all the industries in the East are closed down. IF HE CAN DO ALL HIS BUYING AND SELLING IN THE WESTERN STATES. But he has a different line of products for sale, and now with the Jordan Tariff against you in the United States, these big industrial centres are the most valuable, and practically the only markets for our produce. Can you, for the sake of a trifling 7 per cent duty on implements, which you do not have to pay, afford to close down these industries?
 Then the Grain Growers' Association of Canada, 1906 there were 70,718 in Upper Canada; 250,000 in lower Canada; 65,000 in Nova Scotia; 35,000 in New Brunswick and 9,376 in P. E. Island making a total population for Canada of 430,094. Now, in a little over 100 years, her population is 9,000,000.
 The gross value of annual agricultural production of Canada for 1920 Dr. Ross quoted as follows: Field crops, \$1,455,444,000; farm animals, \$140,083,000; wool, \$5,321,000; dairy products, \$255,000,000; fruits and vegetables, \$40,000,000; poultry and eggs, \$50,000,000. As to the estimated value of agricultural products in 1920, namely, \$1,946,648,000, he added \$4,232,588,000 for land and buildings, \$391,669,000 for implements, and \$1,041,246,000 for farm live stock, the total estimated agricultural wealth of the Dominion of Canada for 1920 amounts to the enormous total of \$7,617,151,000. This does not include tobacco, flax, fibre and maple products, which are estimated for 1920 at \$23,000,000.
 This is Canada's achievement in about one hundred and fifty years of growth, and what it will be when she has attained the hoary age of European countries, when all her virgin soil will be under cultivation, surpasses imagination. Not only are there today many millions of acres of land untouched in the West, but there are vast regions around the Hudson Bay that hitherto were regarded as useless for agriculture owing to extreme cold, that are capable of producing good crops. The same is true of the fisheries of this region. Hudson Bay has all along been regarded as a place of perpetual winter and it will surprise many to learn that this great bay, half as large as the Mediterranean, never freezes over. It abounds with all kinds of fish and around the shores of James Bay and in

national anthem, no music in all the world was so dear and sacred to him as the Star Spangled Banner, which had thrilled him to hear on many foreign straits.
 The Land O' The Heather Dr. McMillan.

"Whatever standard is set, or whatever is the basis upon which the final judgment is given, I do not think we need fear for Scotland or for her people," said Dr. W. J. P. McMillan in the course of an eloquent response to this toast. He reviewed the effect of Scotland's able men upon Canadian educational institutions, referring to prominent McGill leaders and to the work achieved at Prince of Wales College by Prof. Alexander Anderson and John Caven to whose personality the success of Prince of Wales' students has very largely been due. Just a week ago he had been at a banquet where one of the great churches in this province was doing honor to another Scotchman, Father MacDonald—who had devoted sixty years of his life to the service of God. He referred also to the late Dr. Fullerton, whose presence was missed by every member of the Caledonian Club. "He was a man indeed," said Dr. McMillan warmly, "a man whom it was a pleasure and honor to be associated with. Fearless and independent, you always knew where he stood on every question. He was loyal to the core, and took an active interest in everything that tended to the welfare of the community."

The Caledonian Club.
 Mr. D. O'M. Reddin, in proposing the toast to the Club, declared that it was in his opinion one of the best of all national societies that we have in P. E. Island. Thirty-five years ago in the old Rankin House he had attended the first St. Andrew's dinner of the Club, and since that time had scarcely missed one. For ten or fifteen years he had the honor to be president of the Benevolent Irish Society, and he was well convinced of the splendid work both of these societies have done in this province. The great thing in the Caledonian Club charter was Charity, he said. The proceeds of their annual sports and entertainments are devoted to the poor of the city. He wished, on behalf of the Benevolent Irish Society to compliment the Club upon its splendid advance during the last ten years. In a warm tribute to the late Dr. Fullerton, Mr. Reddin referred to his active patriotism during the war and to his recruiting campaign which he carried on even against the advice of his physician.

Claudian T. M. McMillan, in responding, reviewed the work of the Caledonian Club during the past year. It is the custom annually to hold three celebrations—the Queen's Anniversary, the Annual Gathering and the Feast of St. Andrew. During the past year a series of lectures were organized in addition to these events. They were very well received and it is the intention of the Club to continue them during the coming winter. Another thing taken up by the Club, is a petition which will be presented to the Minister of Militia, praying him to have established a Kiltie regiment in Charlottetown, as the present militia units last year were not able to take all the recruits. During the year the membership of the Club has increased by twenty-eight new members—the largest increase in its history. But every year the Club is called upon to mourn the loss of some of the clansmen, and this year there were three vacant chairs. The speaker referred to the late Clansman Chas. McGregor, Col Stewart and Dr. Fullerton. He was also sorry to report the serious illness of another member of the club—Clansman Alex. McDonald. He concluded with an appeal to the younger members to come forward in aid of the benevolent work of the club.

Our Province—Premier Bell.
 "There is really no nationality to whom this province is more largely indebted for its measure of progress, its substantial wealth and for the intelligent and high moral character of its people than to the natives of the Land of the Heather," said Premier Bell in responding to the toast "Our Province" proposed by Clansman F. A. Mutch. The Premier emphasized the qualities of thrift, caution and patriotism in the Scottish character and in the manner referred to the peaceful manner in which people of different nationalities and creeds are living and growing up together in this province.

The United States—Consul Livingston.
 Thanking the Clansmen for their splendid response to this toast and for the hearty manner in which they had joined in singing the American National Anthem, Consul Livingston referred to the amicable relations between the two great countries of North America—"we Canadians and we Americans on either side of the fenceless border extending some four thousand miles." It was one of the trials of a consul that you must spend many years away from his native land. While he venerated the national anthem of England, the Marseillaise of France and the grand harmony of the Russian na-

held in his house the Caledonian by Mr. S. Campbell and the piano Club, he said, and he was always accompanied by Prof. Fletcher, pleased to see them back again. The singing of Auld Lang Syne Songs by Messrs. A. McInnis and the National Anthem, brought F. McDonald, Lt. A. Williamson to a close one of the happiest and President Malcolm, were warm most successful events in the history received, as were the violin solos story of the Club.
