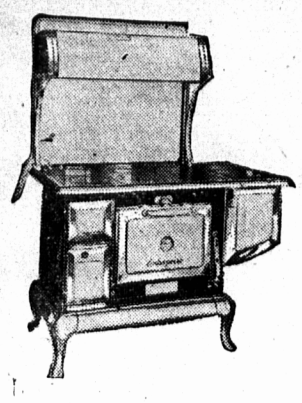
FREE STOVE SALE STILL ON

By popular request, Holmans are extending their Stove Sale for one week more. One Free Stove to Charlottetown purchasers and one to purchasers at Summerside store. Grasp this wonderful opportunity to get your new Enterprise Range absolutely FREE. At the lowest prices in Canada, you can't lose and you may win. Come in before 10 P. M. Saturday and let us explain.



$5.00 delivers any stove

You pay only $5.00 down the balance in 10 equal monthly payments. You get the cash price and NO INTEREST — NO EXTRAS.

$10.00 for your old range

If your old range is in saleable condition you will get an allowance of $10.00 and more if its worth more!

SATURDAY IS THE LAST DAY

HOLMAN'S BOTH STORES SUMMERSIDE-CHARLOTTETOWN

Last but not least, every purchaser of an Enterprise Range during this sale will be given a booklet which can be worth $10.00 cash. Come in and let us explain.

HOLMAN'S BOTH STORES SUMMERSIDE-CHARLOTTETOWN

SUMMERSIDE GUARDIAN
and Prince County Chronicle

—**BIG SHIPMENT** "Brayco" English fox wire just received at Brace's. L-5185.

—**ST. ELEANOR'S PLAY** at Lot 16 has been postponed from Wednesday, May 23, to Friday, May 25. L-5216

—**SEE THE THREE ACT PLAY** "Home Again Harry" in Summerfield Hall on Wednesday, May 23rd, at 8.15 p.m., by Central Lot 16 Dramatic Club. Dance after play. L-5210

—**SEE the Travellers Rest Players** present the three act comedy drama "The Tumult" in King George Hall, Kensington, Saturday, May 26, 8.30 P. M. and Freetown Wednesday, May 30th. Admission 25 cents. L-5252.

—**FUNERAL SERVICES**—Funeral services for the late W. Bruce Campbell, who died in Edmonton, Alta., on May 7th were held at the home of his parents, Mr. and Mrs. John Campbell, Irishtown, on Tuesday, May 15th. Burial took place at Geddie Memorial Cemetery, Springbrook. Rev. Victor Osborne conducted the service at both house and grave. The pall bearers were: Fred Henderson, Fred Tuplin, David Caseley, Garnet, Lorne and Edwin Campbell. Deceased had been ailing for the past two years and was about to undergo an operation in the Edmonton Hospital, when death occurred. The late Mr. Campbell had resided in Trochu, Alta., for a number of years, later moving to Breton, Alta. Besides his parents, there are left to mourn, six brothers: Preston, Thomas and David in Irishtown; John, Clayton and Carl, in Trochu, Alta.; also four sisters, Mrs. David Clark and Mrs. George McNeill, Kensington; Mrs. Merritt Davison, Malden, Mass., and Miss Adaline at home. The flowers included a pillow, from the family, and a wreath, from the business men of Trochu, Alta.

—**SAD NEWS RECEIVED**—Many old friends in Summerside and Bedeque will regret to learn of the death in Calgary on Sunday, May 13th, of Miss Jeannie G. Price, at 55 years of age, after a long illness. The deceased lady was the daughter of the late Robert and Mrs. Price, who formerly resided in Bedeque and later in Summerside. Miss Jeannie was a registered nurse and practiced her profession in the United States. For some years before her death she was nursing in California. She will be kindly remembered by many old friends for her beautiful character. She was well known on the Island and in many parts of Massachusetts. Much sympathy goes out to her sisters, who are left to mourn, and are as follows: Priscilla, Mrs. William Reynolds, of Calgary; Oreffa, Mrs. William Cameron, in the Eastern States; Bertha, Mrs. Charles Barbour, of Winnipeg; Gertrude, Mrs. Charles Sample, Calgary; Lois, Mrs. Willard Lowther, Calgary; Ruth, Mrs. Paterson, of Calgary. Interment took place in Calgary, where the late Mr. and Mrs. Price are buried.—S.

—**BRACE'S STORE** and warehouses will be closed Thursday, May 24th. L-5257

—**QUALITY**, power, service, weight and price considered, Brace's auto storage batteries take first money. L-4077.

—**SIMONIZ CLEANER** and polish in stock at Brace's. L-5256

—**ATTENTION HORSEMEN** — See that your harness is in shape for the coming season as a broken strap has lost many a heat. Call at Cobb & MacKay, for anything in racing equipment. L-5068

—**MEND-ALL LIQUID SOLDER** will mend all metals without tools, heat or acid. Large tube 25c each at Brace's. L-5256

—**CONGRATULATIONS**—Mr. and Mrs. Willard Doucette, of Summerside, are receiving the congratulations of their friends on the arrival of a little son at their home in Summerside on Saturday, May 19th.—S.

—**NAME OMITTED**—The name of Miss Ada Mallet was omitted from the report of the Traveller's Rest play at Seven Mile Bay. Miss Mallet delighted the audience with a fine exhibition of the Charleston.—S.

—**GOOD LITTERS** — The Gold Bar ranch, operated by Mr. Ralph Silliphant, has had exceptional luck this year with regard to the number of pups, having had 87 young in 23 litters. All are doing well.—S.

—**DENVER TO S'SIDE IN FOUR DAYS**—Mr. and Mrs. Gordon Callbeck perhaps established a record motor trip when they arrived in Summerside on Monday evening, having motored from Denver, Col., in four days. They left Denver early Friday morning and travelled night and day, covering 800 miles each twenty-four hours. They had no engine or tire trouble and surprised their relatives by arriving Monday evening, two days before they were expected. They are visiting Mr. Callbeck's parents, Mr. and Mrs. Walter Callbeck and other relatives.—S.

—**TRINITY UNITED YOUNG PEOPLE'S SOCIETY**, Summerside, has a treat for lovers of good music, in Eworth Hall, Friday evening, May 25th. Six of Mount Allison University's most outstanding singers and musicians are coming, and they will not only gratify the ear of discriminating music lovers but they will demonstrate the quality and artistry of pupils trained in Mount Allison's School of Music. If you like good music and singing, come! You will not be disappointed. The artists are, Dorothy Swetnam, Mus. Bac., pianist, Shelburne; Ira Spector, wonderful boy pianist, Sackville; Margaret Coffin, Soprano, Montague; Paul Rackham, violinist, Bass River; Pauline Copp, Soprano, Hubbards; Raymond Simpson, baritone, Lunenburg. A splendid program will be offered. Don't miss it. Admission, 35c. and 25c. L-5255

Another Volte Face By Mackenzie King On Marketing Bill

Liberal Leader Raises Amazing New Objection To Passage Of Legislation In Interest Of Farm And Fishery Producers.

(C.P. By Guardian's Special Wire)

OTTAWA, May 22—The Government Marketing Bill was described in the House of Commons yesterday by Rt. Hon. Mackenzie King as one cog in a plan to centralize control of Empire products in London, possibly under the Empire Marketing Board.

The charge came like a bolt from the blue toward the end of a long day of debate and bockade. And just as quickly was it met by Hon. Robert Weir, Minister of Agriculture, who gratulated the Liberal leader on his "very vivid imagination."

The Liberal leader took the floor when the House was discussing a clause which would empower the Dominion Cabinet to restrict exports and imports and license exporters. "It is the means," he said, referring to the clause, "whereby an arrangement that has been come to by certain men in different parts of the Empire we are hereafter to have the products of the Empire reguated from some central body in London, which will be either visible or invisible."

Mackenzie King fortified his argument by reading editorials from the London Times, describing the bill before it was introduced in Ottawa. And he wondered if the impending visit to Ottawa of Rt. Hon. Stanley Bruce, the Australian crusader for Empire-wide commercial planning, had anything to do with the legislation and its progress in the House.

The Liberal leader maintained almost a single-handed blockade against the bill all day, seven clauses of varying lengths and importance passing. He claimed the bill —and he applied this particularly to the clause dealing with imports and exports—was another attempt by the government to submerge Parliament and usurp its power.

When Mr. King suggested the United Kingdom House would not vote away its powers, Hon. Hugh Guthrie, Minister of Justice answered the argument. Under its marketing act the British Parliament empowered the Board of Trade to regulate imports and exports to the same extent as the Dominion Cabinet under the bill, he said.

The Minister of Justice clashed again with the Liberal leader on the constitutional value of certain parts of the measure. Mr. King submitted the bill was beyond the legislative power of the Dominion in several aspects and would not stand up in a court.

"I think we have acted strictly in conformity with the constitution," insisted the Minister of Justice. It had been difficult to draft the bill, to avoid striking the rock of provincial rights on one hand the Dominion on the other. "I think we have steered a course that does not infringe on the constitutional rights of either one."

Premier R. B. Bennett also claimed the bill would not step beyond the constitutional powers of the Dominion, insisting the courts had passed on every feature it contained.

—**DOC MacPHERSON SAYS**—Why feel embarrassed in a poor fitting garment when you can get a real one for $24.00, measured and fitted by an expert in that line, cut by the best of cutters, serge linings and heavy pocketing. Call for advice in his new store, Summerside. L-5260

—**DONATION RECEIVED**—The trustees of the Prince County Hospital have received from Miss Bertha Schurman of Summerside, the sum of two hundred and fifty dollars bequeathed to the institution by her father the late Major Schurman of Summerside. The trustees are very grateful for the donation which is very acceptable at the present time.—S.

PERSONALS

—Mr. Harold Gaudet left on Monday morning for St. John, N. B., on business.—S.

—Mrs. Joseph L. Perry, of Summerside, has entered the Prince County Hospital for treatment.—S.

—Mr. J. W. Callbeck of Summerside, left on Tuesday morning for Erie, Pennsylvania to look after his extensive fox ranch in that locality. —S.

—Mr. James Dodds, son of Mr. and Mrs. Ralph Dodds, of Summerside, has arrived home to spend the summer vacation. Mr. Dodds is a student at the University of New Brunswick at Fredericton.—S.

Of recent years a number of promising smooth-awned barleys have been produced by different plant-breeding institutions, including the Dominion Experimental Farms, but these varieties have not yet been tested for a sufficient length of time to say which is the most desirable. For the present, however, the variety called Velvet is favored in Eastern Canada, while Regal appears most promising in the West.

::There is no more effective vermifuge on the market than Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will prove a very serviceable medicine for children in regulating the infantile system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate stomach when directions are followed, and they can be given to children in the full assurance that they will utterly destroy all worms.

The cost of producing cigar leaf tobacco at the Dominion Experimental Stations at Farnham and L'Assomption, Quebec, from 1930 to 1932 has averaged $150.87 per acre. With an average yield of 1,499 pounds per acre, the cost of production has been 10.1 cents per pound. As the selling price of the tobacco during these three years averaged only 6 cents per pound, the value of the crop was $89.94 per acre. Throughout the province of Quebec, much smaller yields were obtained than on the experimental stations, the yield during the above period being 955 pounds per acre. To produce an acre of cigar leaf tobacco has required 311 hours of manual labor and 94 hours of horse labor.—Cost of Farm Crops bulletin, Dominion Department of Agriculture.

Legacy, a new, promising variety of oats produced by the Cereal Division, Dominion Department of Agriculture, from a cross between Banner and Eighty Day has done particularly well in Northern Saskatchewan, Central and Northern Alberta, and in the Eastern Townships of Quebec.

Two small boys were returning to the boathouse after a very successful fishing trip.

"We must come here again, Bill. Did you mark the spot where we caught them all?"

"Yes, I put a cross on the bottom of the boat."

"Fathead! We might not get the same boat next time!"

FORMALIN

ITS USE AS A CONTROL FOR SMUT DISEASES OF GRAIN

(Charlottetown Experimental Station Notes)

Grain crops are often seriously injured by smut diseases. Some of these such as bunt, or stinking smut of wheat and both loose and covered smut of oats may be readily controlled by the use of formalin. For the control of wheat bunt the formalin sprinkle treatment is recommended. The wheat to be treated is placed in a pile on a clean floor and sprinkled with a formalin solution made of one pint of formalin to forty gallons of water on one ounce of formalin to 2 1-2 gallons of water. Sprinkling may be done with an ordinary sprinkling can or by means of a broom. After sprinkling, the grain is shovelled over to distribute the moisture evenly throughout the pile. This process of sprinkling and shovelling is repeated until every grain is uniformly moistened. Forty gallons of solution will treat from forty to fifty bushels of grain, approximately one gallon to every bushel. The treated grain should be covered for four hours with clean sacks or canvas to allow the gas liberated from the solution to penetrate all of the grain.

If a large quantity of bunt balls are present the wheat should be immersed in bulk. Further particulars regarding this treatment may be obtained by writing to the Experimental Station, Charlottetown.

Smut occurs more frequently in oats than in other grain and is found in two forms, loose, or naked smut and covered smut. Formalin is the only substance recommended for the control of these smuts. It may be applied by the formalin sprinkle method as prescribed for wheat bunt, or by the method of the formalin of the formalin spray treatment. For the formalin spray treatment one pint of formalin is mixed with one pint of water. The oats to be treated are placed in a pile on a clean floor. As they are being shovelled over they are sprayed with the solution at the rate of one quart of solution to 50 bushels of grain, or about two ounces to three bushels of grain. A small hand sprayer is most convenient for applying the solution. Provide for a good circulation of air and hold the sprayer close to the grain so as to avoid irritation of the eyes, nose and throat.

Following the treatment, the grain should be covered for five hours with clean sacks. It may then be sown immediately.

Covered smut of barley may be controlled by the use of the formalin sprinkle treatment.

Precaution: Formalin should be kept in a tightly corked bottle. If the solution becomes cloudy it should be gently warmed until the cloudiness disappears.

Formalin destroys only the smut spores present on the seed at the time of treatment so care must be taken to avoid reinfecting treated seed.

In the sprinkle use only enough water to thoroughly moisten every grain, otherwise the seed must be dried previous to sowing.

Treated grain should be sown the day after treating, if at all possible, since considerable injury to germination will result if the seed is stored for a longer period.

Loose smut of wheat and barley cannot be controlled by the use of formalin. Anyone wishing for information on the control of these smuts may obtain the same by writing to the Experimental Station, Charlottetown, P. E. I.

Many Inquiries From Intending Visitors To Prince Edward Island

Cartier Celebration On August 24 At Charlottetown Is Causing Great Interest. Railway Officials Report Receipt Of Many Inquiries Respecting Province And Plans For Celebrating Anniversary.

Railway officials and others are receiving many inquiries from intending visitors to the Island during the Cartier celebration.

The initial ceremonies of the national celebration will be held here during the third week in August.

They will include the reception of the official delegation from France which will arrive on the French liner "Champlain."

The events will be under the immediate patronage of his Honour Lieutenant Governor DeBlois, who is a direct lineal descendant of the first Lieutenant Governor of Prince Edward Island to be named upon the Island coming under the British regime.

Jacques Cartier on his first voyage of 1534, after exploring the coast of Labrador and the shores of Newfoundland, entered the Gulf of St. Lawrence and discovered the Magdalen Islands and from there proceeded to discover Prince Edward Island, it being generally held that his "landfalls" were Campbell's Point and Cape Sylvester, on the north shore, some four or five miles west of East Point. He describes the country as a beautiful one and speaks of its low level land, "the fairest that it may be possible to see" and full of goodly trees and meadows. He did not know that it was an island and took it for a part of the mainland.

Visitors agree with Jacques Cartier's description of Prince Edward Island as "the fairest that it may be possible to see."

There was always some doubt as to Jacques Cartier's connection with the discovery of the Garden of the Gulf, the only information up to 1867, which incidentally was the year of the Confederation of Canada, being two translations of the account of his voyage, one in Italian and one in English translated from the Italian. In 1867, however, the original report of his voyage, made by Cartier himself, was discovered in the Imperial Library in Paris. The first mention of the Island by name is by Champlain in 1604 in his "Des Sauvages" in which he refers to it as Isle St. Jean. The Indians called it Abegweit which meant "cradled on the waves." At one time the Assembly of Prince Edward Island passed an act to change the name to New Ireland but this was disallowed.

It continued to be known as the Island of Saint John until 1798 when the name was changed to Prince Edward Island.

INTIMATE CINEMA IN LONDON

The first intimate motion picture theatre de luxe in the world has just been opened in London. It is the Curson Cinema, in fashionable Mayfair, and was built by the Marquis de Casa Maury to cater to filmgoers who wish to see productions under conditions of exceptional comfort. It has only 500 seats, all of which are on the main floor. Each is a club armchair, similar to those in the royal circle at the Plaza. On the opening night all seats were $3.75 each, and the number of applications was far in excess of capacity. The film was the Viennese production, "Unfinished Symphony." Regular prices will range from 60 cents to $2.10.
