Getting Your Money Back

Is the main thought of many foolish investors. O! they say to themselves, we will get our money back in two years and we will chance the rest. But what about the fellow you got your money back from, is he going to get his money back and is he going to keep on getting his money back?

That is the Question

We say, yes, undoubtedly yes, if you invest in the fox ranch that has the pelts which will pay big dividends on PELT BASIS—but not otherwise. Now that is why you should put your money into the best foxes of earth.

The Hygrade Black Fox Co.

owns fifteen pairs of DALTON'S PUREST BREED—and that only. Why not invest in \$2,000 pelts before \$200 ones. It is just as easy and a thousand times safer.

The capitalization of \$18,000.00 per pair is not higher and in than hundreds of fox Companies are asking for the ordinary kind of foxes less

Stop and Think

Is there any sense in putting your money in any other ranch while this one has the DALTON FOXES, which bring, for breeding, \$2,000 more per pair than any other, and for PELTS you know none can compare with them. Their records prove it. If you use good judgment, this stock will all be sold very quickly. Shares \$100. par value. Apply to the undersigned.

Remember

The Dalton Company are going to ranch this Company's foxes. You'll get all the benefit and have a permanent investment for all time to come.
