

When in Bed

Put some Vapo-Cresolene in the vaporizer, light the lamp and place it near the head of the bed. Then at the time the baby sleeps it will breathe in the healing, soothing vapor. The hard, tight cough loosens; the fever gradually goes down, the breathing becomes natural, and pneumonia is avoided. Every part of the throat and bronchial tubes are touched by the medicine. For the hard colds and coughs of children nothing equals Vapo-Cresolene.

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene, complete, \$1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. Vapo-Cresolene Co., 286 Fulton St., New York, U.S.A.

THE MORNING GUARDIAN

TUESDAY, NOVEMBER 18, 1902.

RURAL MAIL DELIVERY.

We hope to see the day in the not very distant future when the farmer's letters and papers transmitted by mail will be delivered at his door by the carriers of the Post Office Department with the same regularity as the like service is now rendered at the doors of the people who live in the large cities. The fact that our Canadian Post Office Department has now become self-sustaining must hasten the day for rural delivery. The great strides forward recently made in the country mail service of the United States will as a matter of course afford a strong inducement to so energetic a Minister as Sir William Mulock to take the matter up. We cannot afford to have our next neighbor very far ahead of us in the introduction of so important an improvement.

The official report of the United States Postmaster General states that for the year ending December last, over 8000 carriers were engaged at that date, in carrying United States mail to the doors of farmers, and the number of people benefited by the service was five and three-quarter millions. And this development had practically all occurred in three years. But this is only the beginning. Inside of four years from the date of the report (three years from now) it is expected, at the present rate of progress, that a million square miles of territory with a population of 21,000,000 people, will be reached by the service.

The beneficial results of the system are found in its potent educational force; in the universal satisfaction that it gives; in keeping the rural community in closer touch with the outside world; in relieving the loneliness of farm life; in keeping farmers informed of market prices; in giving increased circulation to newspapers; in stimulating correspondence and trade; in promoting good roads and in increasing the value of farms. These and other undoubted advantages are proved as the result of actual trial during three years past, first in a small way comparatively, and since as above stated, over very much larger areas. It is hereafter to be a matter of national concern and oversight. The Postmaster General feels warranted in asking for the large sum of \$12,000,000 for the carrying on of rural delivery next year.

The Toronto World, which has shown an intelligent interest in the matter for a good while past, tells its readers how the system is worked. A carrier is employed for each route. This carrier is required to provide a horse and a rig suitable for all weathers. He is paid \$600 a year, and delivers the mail daily, Sundays excepted. He covers 20 to 25 miles per day, and serves, on the average, 125 families. The farmers served have locked boxes, practically in their own yards, in which the driver places the mail intended for the farmer. and takes from the same place whatever has been deposited there for mailing. The box is so placed that the carrier can reach it without getting out of his rig. In order to further facilitate business the mail man is supplied with stamps, envelopes and money orders, which he sells to those who ask for them.

Of course the rural delivery is at the outset carried on at a loss to the Department, but in every case it has developed increasing receipts. In sections where rural delivery has not been introduced the increase in revenue is 25 per cent yearly, while under rural delivery the increase was found to be 11 per cent or more than three times as great. A main point, however, is that the

actual cost to the Department is much more than repaid by the amount saved to the people. On this point the Postmaster General says that under the old system a representative from each of the 125 families on a postal route traveled from two to four miles in going to the post-office. The time so occupied is valued at 10 cents per day for each family, or \$12.50 for the whole. On the other hand, the Government can perform the same service through one officer, for \$2 per day. With nearly 6,000,000 families served, the aggregate saving is enormous, and the claim for the extension of the service becomes, as the Postmaster-General says, irresistible.

President Roosevelt in the story of his hunting trips makes the remark: "Unless properly trained to come to heel, a dog is worse than useless" It is much the same with party newspaper organs in an Island whose name we need not mention. Two of the tribe now give every indication of being sharply called "to heel" just at the moment when they were far afield and barking with furious exuberance. Silent and abashed they have crept back and squatted behind their master. Neither of them would say "guarantee" just now for a farm.

Mr. Chamberlaine's trip to South Africa is not only interesting as a new departure on the part of a Colonial Secretary in making a visit to a distant Colony, but has the additional new feature that he is conveyed thither in a war vessel built at the cost of the Province he is first to visit. He sails the first-class cruiser Good Hope, so named because Cape Colony pays in perpetuity the interest on her cost of \$5,000,000. The cruiser is one of the most formidable of her class afloat.

The duel in the dark was a favorite with the stomach. Two men were locked in a dark room and crawled stealthily from corner to corner, until some false step made one of them the target for bullet or blade.

Life is a duel in the dark with disease. One false step, one mistake, and the attack comes swift and sudden. The mistake which commonly opens the way for an attack by disease is neglect of the symptoms of stomach trouble. When eating is followed by undue fullness, belchings, sour or bitter risings, etc., disease is attacking the stomach.

The best way to frustrate such an attack is to use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition, and makes the body strong and healthy.

"I was suffering very much with my head and stomach," writes Mrs. W. C. Gill, of Weldon, Shelby Co., Ala., "head was so dizzy when I would raise up in bed would fall right back. Could eat but very little, in fact scarcely anything, there seemed to be a heavy weight in my stomach so I could not rest; I had to belch very often and would vomit up nearly everything I ate. I was in a bad condition. I took four bottles of Dr. Pierce's Golden Medical Discovery and five of his 'Favorite Prescription' and am now well and hearty. I feel like a new woman and give Dr. Pierce's medicines credit for it all. I had taken medicine from physicians without any benefit as I could see."

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of customs and mailing only. Send 31 one-cent stamps for the paper covered book, or 50 stamps for the cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

BIG SALE

OF

Factory Cloth and Clothing

The best way to learn some things about our

CLOTHING.

Is to try a few of our Suits and Overcoats on—We are positive we can show styles that you have never before seen in ready-to-put-on clothes, and prices are reasonable, not fancy. The many compliments we have received, the many assertions we make, do not in the least exaggerate what we can show you in ready-to-put-on clothes.

We save by buying direct from the mills and most of our clothing is made up for our special order.

NO MIDDLEMEN'S PROFIT.
Great Sale of Ready-Made Clothing

500 men's Overcoats from \$5.00, 6.00, 7.50, 8.50, 9.50, 10.00 up to 15.00.
387 HOME MADE SUITS and Ready-to-wear Pants made from ISLAND and MONCTON cloth.
285 Men's ULSTERS \$3.75 to \$10.00.
Sheep Skin Coats \$4.50.
Fur Coats for men \$15.00 at PATON & CO'S.

Tryon Tweeds are the best on the Island, and they are made from P. E. I. wool—no shoddy, but pure, genuine wool. We have purchased a big stock of All-wool Tweeds, every yard guaranteed. Reid's double and twisted tweed weighs heavier, is better made, wool is better scoured is better finished than any tweed imported into P. E. I. That is why we buy it and sell it. There is no better Blanketing, Drugget, Flannel or Yarn for the farmer made. In factory flannels we carry a stock of browns, greys and greens at 33 cents per yard. Wool is bringing a small price this year, and so we are asking a small price for our goods. This quality of flannel generally brings 42 cents elsewhere. Our All-wool Druggets and flannels for men's underwear we are selling at 35 cents. Some people ask 45 cents for imported stuff that will not wear as well. Remember to encourage home industry every time when the price is lower and the goods better. Factory Blanketing in white union, two yards wide, 66 cents; Grey Union Blanketing 66 cents; White All-wool Blanketing 80 cents, sold everywhere at 90 cents; Tryon White Blanketing, two yards wide, no better made anywhere, 85 cents; Big snap in Grey Factory Flannel at 33 cents; big shipment of Factory Yarn, heavy, suitable for footing leggings—big hank of Black, Grey or Red Yarn for 12 cents. Other people ask 15 cents for this yarn; Stanfield's famous Stockingette 25 and 30 cents per yard; Factory-made Stockings for ladies and girls or boys, will make a splendid overall, 25 cents a pair; Factory C oth all wool Tweeds—from 35 to 50 cents a yard; Factory Tweeds—Tryon make—40, 50, 60, and 75 cents per yard, in a dozen different patterns; big shipment of the famous Double and Twisted.

Paton & Co's.

EGGS! EGGS!

Farmers keep your hens laying when eggs are a good price.

We have just received direct from the manufacturers a few tons of Lowell Bone and Meat Meal, Lowell Cracked Bone and Lowell Raw Ground Bone.

This valuable food for poultry is made chiefly from animals that have passed a rigid government inspection for human food. It is a high concentrated bone and meat food, contains several times the nutriment of fresh meat of equal weight. It is constantly growing in popular favor and poultry raisers will find it indispensable as an egg reducer also for growing poultry for market.

Mail Contract

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, the 19th December for the conveyance of His Majesty's Mail, on a proposed contract for four years, three times per week, per week between Darnley and Kensington from the 1st January next. Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Darnley and Kensington and at the office of the Post Office Inspector.
Post Office Inspector's Office, Charlottetown, 15th Nov. 1902.
F de St C BRECKEN,
Asst. Post Office Inspector.

RIPANS

A friend recommended Ripans Tabules to me, and a more surprised and happy man it would be hard to find. I was bothered with dyspepsia almost every day before I took them, but from the very first one I took I could feel the change.

At Druggists
The Five Cent package is enough for an ordinary occasion. The family bottle, 60 cents, contains a supply for a year.
