FENNELL & CHANDLER

An Editor for a Day.

PEORIA, Ill., Feb. 27.—Mrs. Carrie Nation was in charge of the Journal here yesterday. Her contributions to the

MRS. CARRIE NATION.

paper consisted of eight columns of editorials, and an account of her crusade against "joints."
Mrs. Nation says in her leading editorial: "I have never hurt a hair on the heads of my bad brothers, the saloon-keepers, and hope, for pity's sake, none of them will ever get in the way of my hatchet for it gets dreadful reckless when it flies about smashing that which murders men."

THE EDITOR'S MAIL.

The Clergy and the Liquor Traffic.

SIR,—The question of the subduing of the liquor traffic and the arrest of the consequent ills it entails is a subject so potent and of such tremendous magnitude as to require the earnest co-operation of all good citizens. This great evil is weakening the robust manhood of our country, bears with crushing effect upon the feeble of body and mind, the victims of its blasting influence. The orphans and fatherless whom we are commanded to protect are multiplied as a result of our unfortunate compromise with this maddening agent. There is not a movement for the maintenance of law and order, for the betterment of social conditions, for the development of a purer atmosphere in the political life of our country, or the raising of heathen nations to a higher civilization that is not hindered, if not completely absorbed by this imposing curse. The liquor traffic successfully antagonizes the sacred mission of the church; in many instances the arm of this gigantic octopus is seen in the substitution of an alcoholic preparation for the unfermented fruit of the vine in the exercise of its most holy ordinance.

It is beyond ordinary conception to understand how an element so immediately associated with the temporal and eternal ruin of so many homes could by any process of reasoning be adopted as a fitting symbol of that "precious blood that was shed that we might have life and have it more abundantly." While it must be conceded that the average clergyman is a busy man and that much of the temperance sentiment of the present day is due to their influence, yet it is equally true that when a question of such moral import is so successfully baffled by succeeding Governments it is evidence ample as it is discreditable that the moral force of the country is not sufficiently strong to successfully combat the influence of the saloon. If there is a time coming when prohibition shall hold sway in all lands and the saloon will be doomed to the deep and dark oblivion to which it belongs, that time will come about as the result of greater individual action on the part of the Clergy in their opposition to one of the greatest, if not the most formidable enemy of the church.

Yours Sincerely
ONE OF THE PEOPLE.

BUBONIC AT CAPE TOWN.

CAPE TOWN, March 7.—A soldier employed at the castle has been attacked by the bubonic plague. Two Europeans have also been attacked by the disease, and a European child has died of it. Twenty-four additional persons have been isolated owing to contact with those stricken.

QUEEN MINAS' HUSBAND.

Queen Wilhelmina's husband dislikes, above all things, it is even said, to be called a German prince. Although German in appearance he lays particular stress on the fact that the grand ducal house of Mecklenburg is the only reigning family of western Europe of Slavonic origin. It claims to be the oldest sovereign house outside of Asia and traces its descent through twenty-five generations.

BITUMINOUS MINERS.

ALTOONA, Pa., March 8.—At a convention of bituminous coal miners to-day the following resolution was adopted:—"It is resolved by this convention that all the collieries where the scale be not paid by April 1, work should be suspended on that date." Michael M. McTaggart, one of the members of the Miners' Union, said to-day: The field will be tied up on April 1 unless we get the eight-hour day, a two-thirds differential between machine and pick mining, the abolition of company stores and a dead work scale.

Tired and Depressed

Hundreds of young girls and women have to depend upon their own efforts to gain a livelihood, and there is no class more widely admired for their independence and pluck. But whether it be behind the counter, in the office, the factory, or in the home, work means close confinement—often in badly ventilated rooms. There is a strain on the nerves; the blood becomes impoverished; the cheeks pale or sallow; frequent headaches; a constant tiredness; a rapid palpitation of the heart on slight exertion; perhaps wrinkles and a prematurely aged appearance. If the first symptoms are neglected it may lead to a complete breakdown and perhaps that most dreaded of all diseases—Consumption. A tonic is needed and for this purpose

Dr. Williams' Pink Pills for Pale People

are without an equal. Their wonderful record of cures place them at the head of all medicines throughout the world. The use of these pills has made thousands of weak, ailing, despondent women and girls bright, happy and strong.

PROOF OF CURE.

Miss Emma Chaput, Lake Talon, Ont., writes:—"I cannot thank you enough for the good I have derived through the use of Dr. Williams' Pink Pills. I honestly believe that but for them I would now be in my grave. My health was completely broken down. My face was as white as chalk, and if I made the least effort to do any housework I would almost faint from the exertion, and my heart would beat violently so that I feared I would drop where I stood. I was a great sufferer from headaches, and dizziness as well, and my appetite was so poor that I scarcely ate at all. I tried several medicines, but they did not help me, and then I decided to send for some of Dr. Williams' Pink Pills. I got six boxes, and before I used them all I was as well as I had ever been, with a good healthy color, a good appetite and an entire freedom from the ailments that had made me so miserable. You may be sure I will always have a warm regard for your invaluable medicine."

But you must get the genuine, and only the genuine have the full name "Dr. Williams Pink Pills for Pale People" on the wrapper around every box. Sold by all dealers or sent by mail post paid at 50 cents a box or six boxes for \$2.50, by addressing the Dr. Williams Medicine Co., Brockville, Ont.

PUNISHMENT FOR MURDER.

ALBANY, March 6.—The Assembly codes committee will to-morrow report favorably Mr. Byran's bill fixing the punishment for murder in the first degree at life imprisonment and in murder in the second degree imprisonment for not less than thirty years.

A CYCLIST CORPS.

LONDON, March 7.—The War Office has issued orders for the formation of eight volunteer cyclist companies to be composed of a hundred and twenty men each for service in South Africa. The good work of colonial cyclists led to this action.

GIFTS FOR HOLLAND'S QUEEN.

Amsterdam, March 8.—Queen Wilhelmina and Prince Henry have received deputations bearing wedding gifts. The nation's gift consisting of a diadem, a necklace, two bracelets of diamonds and sapphires. Other presents consisted of silver and china services. The railways furnished a complete royal train.

MANITOBA'S PROHIBITION.

WINNIPEG, March 7.—Application was made to-day on behalf of the temperance people for permission to carry the recent judgement of the Manitoba courts on the legality of the liquor law, passed the last session, to the privy council. The application will come up before the full court next Saturday.

LIPTON CONFIDENT.

Sir Thomas Lipton feels that in the Shamrock II. Watson has put into her design much in telligence, founded upon up-to-date experimenting results. After returning from Denny's yard, Sir Thomas expressed absolute confidence on the outcome, and strongly believes that he will surely lift the cup this season. Designer Watson, speaking at a dinner in Glasgow, said: If it was only a question as between Herreshoff and himself, he did not see that the Shamrock II. would have much chance, but he had associated with him such talent that, with a "bit of luck," which was nearly due them now, they hoped to pull through.

SMALLPOX IN ALGOMA.

TORONTO, March 7.—Owing to the prevalence of smallpox in Algoma Ont., the government has postponed the timber sales.

WHEN BUYING GROCERIES GET
