## "TIGER" OF FRANCE PASSES—THE WINTER FAIR

### PLANS FOR NEW ISLAND FERRY ARE COMPLETED

#### Tenders For Construction Will Be Called For Immediately—Steamer Will Be Last Word In Transportation And Ice Breaking.

(Special to the Guardian)  
OTTAWA, Nov. 23—The long delayed Island Ferry plans have been completed and tenders for construction will be called for immediately, according to representations made to The Guardian representative here.

The new Ferry will be the last word in ferry transportation and ice breaking. It will be operated by the Canadian National Railways. Contract for the construction will be let, it is expected, by the beginning of the year, according to H. T. Hazen, assistant chief engineer of operation. The vessel is to be completed by the spring of 1931 and delivery date will be set accordingly.

Except during the peak freight traffic between these points is growing very rapidly. The new vessel will be 324 feet long, 61 feet wide over the fenders.

### U.S. Fire Fighters Knee Deep In Beer

MALDEN, Mass., Nov. 23.—Firemen who responded to an alarm of fire for a blaze in the cellar of a small dwelling house here today, found themselves knee deep in beer. A pipe connecting fifteen 500-gallon tanks of beer burst, flooding the cellar. Beer enough to fill 45,000 bottles escaped, it was estimated.

### "Bossy" Coming Into Her Own

(Special to the Guardian)  
REGINA, Nov. 24—Not so many months ago a banquet was given in honor of a \$10,000 Saskatchewan cow. Today just about every milch cow in the Province has been put on a pedestal. The province has suffered a poor crop in the wheat fields. It is a lean year for people in the south country. The cow has come to the rescue. Farmers have turned back to dairying in the dying months of 1929, and the creamery butter output has been increased 50 percent in one month. October production reached 1,191,985 pounds, 400,928 pounds greater than October of last year. In 10 months the Saskatchewan output has been increased nearly three and a half million pounds.

### High Levels

(Special to the Guardian)  
MELBOURNE, Australia, Nov. 23.—As a result of the new tariff announced in the Labor government's budget at Canberra yesterday, shares in several industrial companies have risen sharply in price. Some have touched new high levels. The new tariff involves increase of import duties on a number of commodities.

### Mar. Province Day At The Winter Fair Was Big Success

(Canadian Press)  
TORONTO, Nov. 23—The important part that the Maritime Provinces play in Canadian affairs was emphasized in colorful fashion at the Royal Agricultural Winter Fair yesterday. It was Maritime Day at this Exposition, and it goes down in history as one of the outstanding days in this famed Exposition.

Last night during the horse show in the Coliseum, there was a special display illustrating the agricultural wealth and tourist attractions of New Brunswick, Nova Scotia and Prince Edward Island. This display was in the form of a series of beautiful floats and a parade of live stock, a sight that brought roars of applause from the thousands of people that jammed the arena.

**SPLENDID FLOATS**  
There came a skirl of the bagpipes and then a boys' pipe band led the way for the parade. First was a float carrying posters, depicting the vacation facilities of the eastern provinces, painting glowing scenes of fishing, hunting, yachting and other holiday pastimes. This float

### DRASTIC STEP TAKEN BY THE SOVIET GOVT.

#### Brands as Traitors and Guilty of High Treason All Russian Citizens Abroad Who Refuse to Return to Russia.

MOSCOW, Nov. 24—Hereafter Soviet citizens working or residing abroad who may refuse to obey the summons of their government to return to Russia will be adjudged guilty of treason. When finally taken into custody they will be shot within 24 hours after identity is established. This drastic measure was taken today by the central executive committee of Soviet Union in the light of the recent refusal of M. Bessodovsky of the Soviet embassy at Paris, to return to Moscow to face trial on charges of embezzlement. The new decree is retroactive and declares that all such Soviet citizens will be classed as outlaws and deserters and the enemies of the workers and peasants. All their property will be confiscated and their cases tried by the Supreme Court of the Union and their names broadcast as outlaws. The edict was regarded here as carrying warning to a large number of professional Russians belonging to the present regime who at present are in Europe or in the United States. These include engineers, actors, government officials, trade representatives, diplomats, students and others.

### Former French Premier Is Dead

#### Georges Clemenceau, Fiery Statesman Fights His Last Battle.

(Canadian Press)  
PARIS, Nov. 24—Georges Clemenceau, the father of victory, his sufferings ended early today by death, which closed 88 years of a fighting life, tonight was being taken for eternal rest in the loneliness of a little wood near Mouchamps in his beloved Vendee. The man who had been a firm and fiery Premier for France in her trial of the world war, rode through the darkness in an automobile hearse 10 miles of road toward the southeast to a spot within 30 miles of the sea he loved so well. There he will be buried tomorrow morning under the trees in a grave that his chauffeur

### Desolation In Wake of Monday's Tidal Wave

#### Much Apprehension Felt For People Of Flat Island, Off Coast Of Nfld—May Be Engulfed.

(Canadian Press)  
ST. JOHN'S, Nf., Nov. 24—As salvage operations went forward and relief funds grew, there was some apprehension here today for the people of Flat Island, unheard from since Monday's tidal wave which took more than a score of lives on the Burin coast. Cable communications, broken off on Monday, have not yet been resumed. A boat is now on the way to learn the fate of the low lying island. At Port au Basque, the bodies of four women who lost their lives, have been recovered. They were Mrs. Thomas Fudge, Harriet Fudge, Mrs. Samuel Bennett and Mrs. William Allen.

The Minister of Fisheries, reporting tonight from the stricken area, said that out of seventeen dwellings at Taylor's Cove, only five are habitable. The tidal wave there is said to have reached a height of a hundred feet, and houses were demolished or shifted in all directions. Several of the homeless have been taken to Fortune, across the Peninsula. The steamer Daisy is attempting to salvage some of the boats set adrift by the tidal wave and the relief committee is distributing coal, provisions and clothing. In St. John's the fund for relief has already reached the \$10,000 mark. Offers of assistance have been received from the Canadian and United States Red Cross, and tomorrow night a public meeting will be held for organization purposes.
