CRIME DRAMA PLUS

"CROSSFIRE" HAS DARING THEME

"Crossfire," which opens today at the Prince Edward Theatre, presents a thrilling mystery film whose underlying theme boldly deals with the tussle between religious bigotry. The result is a screen-drama of distinction, one which rates highly as entertainment, while furnishing food for sober thought. Robert Young, Robert Mitchum and Robert Ryan are starred.

The story, laid in post-war Washington, is based upon the senseless murder of a Jewish serviceman.

The subject is handled with fearlessness and no punches are pulled. In addition, "Crossfire" has the distinction of uniformly brilliant work from an outstanding cast who leave an indelible impress on the beholder.

As the shrewd and hard-working detective in charge of the case, Young abandons his accustomed sophisticated breeziness and turns in a top-notch dramatic performance. Mitchum adds to his ever-growing list of acting triumphs in his portrayal of a serviceman who comes under suspicion, and Ryan gets away from rugged hero roles in his completely convincing work as a bigoted ex-army sergeant. Heading the supporting cast are Gloria Grahame as a cheap dancehall girl, Paul Kelly as her husband, a dishonorably discharged vet; Sam Levene as the murder victim, Jacqueline White as the loyal wife of the chief suspect, Steve Brodie as an ill-fated serviceman, George Cooper as the main suspect, and Richard Benedict, Richard Powers, William Phillips, Lex Barker and Mario Weaver. Edward Dmytryk directed and Adrian Scott produced for RKO Radio; John Paxton wrote the screenplay. "Crossfire" is recommended as one of the year's most distinctive pictures.

The Best banking system

CANADA has a banking system which, for efficiency and dependability, is unsurpassed in the world. Competitive, flexible, adaptable to the changing needs of the country, it serves Canada's producers, her industries, her traders—and it serves your personal needs, too.

No customer has to fear for the privacy of his regular banking transactions. This privacy is completely free of political pressures or considerations—it is rooted in Canadian banking practice and tradition.

Contrast this Canadian way with conditions in lands where freedom is denied—where every bank is a political tool, every banker a State official! State monopoly of banking, proposed by Socialists here, would fasten the Marxist foreign pattern on you.

POLLER PROBLEMS

Hay fever has long been responsible for a great deal of unnecessary suffering on the part of Canadians. This is partly because of the mistaken notions regarding the cause of this physical condition and partly because the majority of people do not realize that the ailment can be cured.

Contrary to general opinion, flowering plants such as the rose, dandelion and golden-rod cannot be blamed for hay fever. The large majority of cases are caused by pollen from wind-borne pollinated plants which include certain grasses and weeds, such as ragweed. Other causes include foods, powders, animal dandruff and feathers.

SLOW SUNTAN

Frequently a short holiday in mid-summer may be spoiled by a bad dose of sunburn acquired the first day. With a little care the

ill effects of sunburn may be escaped and a healthy coat of tan acquired instead. The best way of avoiding a painful sunburn lies in making the first sunbaths brief. The length of succeeding sunbaths may be gradually increased. Taken in proper doses the sun has a most beneficial effect on the body.
