A SMALL HOME WELL PLANNED DESIGNED BY CHAS. S. SEDGWICK

THE home here shown, while small, has a pleasing exterior treatment, as well as a practical floor plan...

Since the beginning of high prices, prospective home builders have been seeking out the smaller type home...

A small home, can be just as conveniently planned, as the large one, it may be made just as attractive, and the home here pictured, when properly landscaped will attract considerable attention...

of the best materials using cement plaster over metal lath, handwood floors, birch and pine trim, natural and ivory finished this home can be built, exclusive of heating and plumbing, for from \$3,000 to \$3,500...

and in the bottom of each is inserted an ordinary flour sifter. Not only is this table practical, but it is aesthetic...

A New Type of Refrigerator. The work in any kitchen consists of three processes. First the preparation of the food, then the serving of the meals, and last, the cleaning after the meals...

The Joy of Grouping Utensils. A simple rule for grouping utensils together, so that all of one process may be done at one time, is to make mental pictures of aesthetic value and composition as well as practical...

A FEW IDEAS. As pointed out in a recent number of Keth's Magazine on Home Building, it is what you get in the home that you build rather than what you pay, that counts...

After the meal, the little white table takes all the dishes in a simple trip to the washing machine. The purchase of the dish washer must be postponed, a cheap and efficient way to wash dishes is to use a sink with stopper for a dish pan...

TO LAY OUT A BUILDING. In laying out a building sometimes it is hard to get the walls exactly at right angles. One can set the stakes for corners and more easily than by using a square make a pretty good guess but when putting up a pipe building I prefer to come down that guessing...

The greatest nationalisms are the sure touch, the sure women, the sure degree. A little difference doesn't show ham.
