## A Morning Smile

Notice on a shop in a recently-bombed part of the Strand, London. "Don't lean against our window. It isn't here."

Smith bought a new car that impressed his friends favorably. One day a friend remarked: "It's not a bad looking bus, old man. What's the most you ever got out of it?" "Seven times in one mile," answered Smith wistfully.

## Dorothy Dix Says—

### OLD RULES STILL WORK ON HOLDING A WIFE'S LOVE

#### Husbands Should Apply The Golden Rule The Minute They Step Down From The Altar And Continuously Observe It

A woman correspondent says that wives are fed up on advice about how to hold their husbands' affections, and she would like to see a few pertinent words addressed to men on how to keep their wives in love with them. She says that there are a lot more women who are wondering what made them do it than there are men who have lost their taste for their wives. Why, if I were asked to tell any bridegroom how to keep his wife thinking he is the answer to a maiden's prayer, I would say: First and foremost, keep on being a lover after marriage instead of turning into a Tired Business Man who takes his wife for granted. Don't get weary of telling Arabella how beautiful and wonderful and DIVINE she is. Sing her all other women's praises. Make it your theme song. No woman ever gets tired of listening to soft talk, and as long as her husband takes an interest in holding her hand, she will work as hard as the bone for him and consider it a privilege. Make yourself a cheerful and interesting person with whom to marry. Show your companionship and sitting up with a stiff shirt, with a newspaper in his hand, is no more conversational range than a clam. Let your wife put much enthusiasm into your over her defenses head all the temper and nerves he dared not show the outside world.

#### Give Wife Square Deal

Give your wife a square deal about money. It humiliates her just as much to have you financially independent as it would you if you had to manhandle somebody for every cent you had.

In making a comfortable home and rearing the children she works harder than you do and longer hours and for a fair share of the family income.

Give her an allowance for herself and the house. The laborer is her for the virtues you wish her to have, but they can't be driven an inch. So handle your wife in reverse, as it were.

In making the things you want her to do instead of criticizing her, she is merely to set them as a model does a dye, but to praise her for the virtues you wish her to have will make her break her neck to live up to her blue china.

#### Boast Of Her Cooking

Boast of her cooking and she will make herself a corded bleu. Commend her on her looks and she will remember her best when she is dressed up even for a mere husband. Praise her throat and she will pinch every penny.

For he cannot only keep her feeling like a bride by his kisses, but he can kiss her eyes shut so that she will see none of those old-fashioned weaknesses, and he can close her mouth with a kiss so that she will not mention them if she does.

Remember her birthdays and anniversaries. Give her little treats. Say it with flowers occasionally. And don't forget that kissing is the husband's best aid in holding his wife's love and his first line of defense.

#### Keep On Doing Things

Do something actively to make your wife happy. Whether you feel like it or not, put on your road clothes and take her out once or twice a week if it is only to the neighborhood market, and she will thank you for it. If you can't cook herself it all you can afford is a hamburger.

Try to be as entertaining and amusing as you used to be when you were courting her. Don't treat her as if just being married

#### When young folks come in from skating, skiing or tobogganing, a fresh brew of hot tea served in thick, short glasses is refreshing.

#### HOT DRINKS

When young folks come in from skating, skiing or tobogganing, a fresh brew of hot tea served in thick, short glasses is refreshing. Garnish with a few cloves, a slice of fresh lemon and a cinnamon stick for a muller. It will be welcome and warming. Hot chocolate is popular too.

#### USE PAPER TO CLEAN FISH PAN

Reach for crushed newspaper, instead of a dish cloth, when cleaning a frying pan in which fish has been cooked. Discard the paper. Soak out the pan with boiling water to remove the odor and then wash in very hot, sudsy water. Rinse in boiling water. Wipe dry.

#### SHE HAS POISE AND BALANCE BUT DON'T ASK HER TO SPELL

Chicago. The average college girl of today has what it takes for a successful venture in business or the professions—poise and balance. She doesn't know her English, a career school official concluded today.

#### INSULATION VALUE

The comfort of the poultry during the winter season is one of the most important factors in influencing production. Insulation adds to comfort by sealing, the house against drafts, thus lessening the likelihood of colds. It helps to raise the temperature in the house and prevents sudden drops that knock production.

## Living & Leisure

### —The Woman's Realm

#### It's not the weight of Jewel or plate, or the fondle of silk or fur; it's the spirit in which the gift is rich.

As the gifts of the wise ones were. And we are not told whose gift was gold, or whose was the gift of myrrh.

Sixty-five per cent of the patrons of confectioners are men; hard-centre-candies have the widest sale among them.

A sink should not be hung lower than 36 inches from the rim to the floor. An extremely tall person may find a slightly higher placement more comfortable, an extremely short person a slightly lower placement.

Japan will send instructors in physical training throughout the country to improve the physique of school children.

Leeches were in such great demand a century ago for curing disease by the blood-letting process that a game law, protecting them at certain seasons was passed in Russia.

#### MONOGRAM FAD GAINING POPULARITY BY LEAPS AND BOUNDS

It's monogrammania, this practice of marking everything with initials, but like the horseless carriage it is evidently here to stay. No one knows just how and when it started, this idea of marking everything from soup plates to nut picks with one's own initials, but we like it. It confers that personal distinction that means so much, and what's more it helps to prevent loss.

#### PRETTY AND PRACTICAL

The bride assembling her linen takes it for granted that every article is to be marked. With linen marked, laundry losses are minimized and arguments are settled.

It is fun to embroider a decorative initial on linen, but if one isn't an expert embroiderer, the shops will take care of that. There are machines today geared to do an expert job on simulating hand-embroidery, and only an accomplished needle-woman could tell the difference.

With the revival of so many whims of yesterday has come a demand for cross-stitch work. It is an easy stitch even for the amateur, and it would be an easy affair to do a monogram in cross-stitch. If the novice will try it out on a dish cloth first, she'll soon be working pillowcases and sheets.

#### CHANGE TO NEW RICHER RINSO—And End Weary Washdays!

● We know you'll be thrilled with the new "Top-Speed" Rinsol, tub, washer and dishpan. But—until you use it yourself—you'll never know how really wonderful Rinsol is.

So, buy a box, today. See for yourself how quickly it soaks clothes clean—without boiling or hard scrubbing! . . . See for yourself how white it gets white things—how bright it keeps washable colours. See for yourself how Rinsol's marvelous new "suds booster" makes richer suds that last longer—takes less for each full washing. Yes, by all means, buy a box of richer Rinsol today—and see all it saves!

#### Right Clothes Add To Personality

No woman is her most interesting, most charming and best-looking self unless she feels completely at home in what she wears. It's wearing.

Nothing detracts from poise more than the feeling that her dress is too short or too tight or too light. Wearing shoes which make her feet ache or a girdle that rubs over or slides up will make her feel a little less sure of herself, a little less personable.

New shoes should be worn a couple of times at home before you start to wear them. It's a good idea to "break in" a new dress in similar fashion, giving yourself a chance to get used to its new lines.

#### Needlecraft—For The Home

Warm, comfortable pajamas can be smart looking, too. This attractive style has all any one could want in style and good cut. The loose fitted jacket can be worn tucked in, if you wish and the collar buttoned high under the chin. Flannellette is the season's most popular fabric for such practical night wear, and you can choose from many lovely colors and pretty printed designs. Silk or cotton also makes lovely pajamas for yourself or for your friends for Christmas.
