After Ten Years

PATTY'S DECISION
Chapter 45

But no one fortunately, took the calamity stories seriously. It was more logical to believe that Humphrey had gone off because of the unpleasantness at home. There was more zest to a tale like this, and more previous rumors to back it up.

Wissakogan divided into two, but three camps. All the men were on Humphrey's side, and the women were divided among themselves, some blaming him for "deserting" his wife and mother in the hour of calamity, as they called it; some saying "it served her right"; it was usually a matter of whether or not they liked Millie.

"Everyone has been just sweet," Millie said however, not choosing to notice those whose antagonism she felt. "We've been invited everywhere as a proof of friendship. I've four dinner parties for the next six days."

But to show her shuddered frame of mind, she wore all her dark dresses, didn't curl her hair, why is wavy hair a sign of joyousness? and danced not only when intimate friends were to be present.

"Mrs. Werner is giving a reception to the visiting members of the country club federation, and has asked me to help receive," she went on, satisfaction in every tone. "I'll have to get some black chiffon to make long sleeves on my gray and black dress. Short sleeves won't look well, now."

The "now" was significant. It seems a trivial thing to say that mourning is sometimes a token of grief, but it has been so in many cases since the world grew old enough for human nature to become complex.

"We must do something," Millie would remark.

The "something" came from Patty. She received a letter from Mrs. Grainger-Munn, a long envelope of crisp paper of the palest gray, with monogram and address stamped in silver, a bit of quiet distinction that Millie envied and Patty adored.

"Darling child, you are not going to Chicago if you break away from me," the letter read. "If there is any news, it must be here where I can watch over you a bit. I'll take you again in our old pleasant relationship." Patty loved the tactful way she put it, "though we won't be travelling for a long time yet. Or my branch of the Civic Society needs a secretary, and you might just as well have that position as an utter stranger. I'm afraid we can only pay \$20 a week, but perhaps that can be improved later. Why not try it, my dear? I shall love having you near me and your mother won't worry, knowing you have a friend."

"I'm going," Patty said and read the letter to her family.

50 BODIES RECOVERED

ATHENS, Jan. 9.—Fifty bodies have been recovered from aboard the Greek torpedo boat destroyer Yoon, anchored in the harbor of Piraeus, which was wrecked yesterday by an explosion of a torpedo that damaged nearby warships and caused houses ashore to collapse, killing a number of the inhabitants.

Two officers of the Greek torpedo boat destroyer Leon were killed by the shell which exploded on board and her two engineers of the destroyer Jerax lying near by also were killed, says official account of the accident.

LOOK!

If you were told of a new discovery for the treatment of coughs, colds and bronchitis, as certain in its action on all chest troubles as a, anti-toxin in an inhalant, or vaccination on small-pox, wouldn't you feel like giving it a trial?

Peps is the discovery!

Peps are little tablets, containing certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapour, and are at once breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs.

In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence their work of healing.

To the Electors of the City of Charlottetown

Ladies and Gentlemen:—

I beg to announce that I will be a candidate for the Mayoralty at the coming election, February 8th, and take this means of soliciting your support.

Four years ago, the citizens of Ward five honored me by electing me as councillor; at that time I promised that if elected, my efforts would be directed towards the improvement of our streets; the members of the City Council honored me still further by electing me as Chairman of the Street Committee, and during my term of four years in this capacity, we have put down three and one-third miles, or 60,000 square yards of paved streets which are the equal of any in America, and it is a pleasure here to note that the cost per square yard has been lower than that of any City in Canada.

Whether I have carried out my pre-election promises or not is for you to say.

I believe good streets are one of the best assets any City can have, and I believe that the introduction of this system of paving is the most progressive movement that has taken place in our City since the installation of Water Works and Sewerage, and I think I can safely claim the credit of having introduced the system here.

With the present serious unemployment conditions prevailing I believe it is our duty as a City to provide work, where possible, for our laboring men, and if you honor me by election, I will use my best efforts to have the work of paving continued.

Our City never was, nor never will be a large manufacturing centre, and while I am in favor of offering every inducement possible to manufacturers to locate here, I believe we should cater more to the tourist trade, and the making of our City attractive by the building of good streets, is one of the best inducements we can offer them.

What we need in Charlottetown is more civic pride from both the individual and civic standpoint. Nature has done her part for us with a lavish hand, our shores are laved by the waters of three beautiful bays emptying into a spacious land locked harbor, while within our civic jurisdiction we have one of the most magnificent parks in the world. Our forefathers with a vision that was prophetic laid out our limits with wide streets and open squares which to day evoke the admiration of the visitor, it is therefore now for us to do our part, and if elected to the office of Chief Magistrate it shall be my object and aim to make this Capital City a larger, better and more beautiful Charlottetown.

In addition to my position as Chairman of the Street Committee I have also been a member of the Light Committee, and when the new contract was being arranged with the Electric Light Company, I was instrumental in having a clause inserted, which, when put into effect will, I believe very much improve our street lighting.

I am strongly in favor of Meat and Milk inspection, and while I do not claim the credit for having introduced this measure, I do claim that it had my qualified support, and if elected I will endeavour to have it extended and enlarged so as to more fully safeguard the public health. It is not my intention to make a house to house canvass, I believe every man and woman in our City is intelligent enough to judge for themselves as to whom they desire to see elected. My record for the past four years is before you, and if you decide that it is such as to entitle me to be elected Mayor, I will appreciate the honor most highly.

Thanking you in anticipation of your support, and assuring you that if elected I will use my best efforts for the welfare of our City.

Yours Respectfully,
J. J. MCKINNON.

To the Electors of the City of Charlottetown

Ladies and Gentlemen:—

Agreeable to the request of electors representing every Ward in the City, I shall place myself in nomination for the office of Mayor at the Civic Election to be held on February 8th, and take this opportunity of soliciting your influence and support on this occasion.

Having been closely identified with the financial affairs of the city—as auditor—for many years, and after a service of EIGHT consecutive years at the Council Board as Councillor for Ward Five,—during which time I served two years as Chairman of the Police Committee and six years as chairman of the Tender and Property Committee, was also a member of the Market Committee for two years, Light Committee for four years and for four years was assistant on the Finance Committee. I respectfully submit that my civic training should greatly assist me in the administration of the office which I now seek at your hands.

Owing to the hearty co-operation of the various Councils, the City has undergone a wonderful change during the last eight years. While it is true the financial burdens have somewhat increased, yet, the work completed has been of a thoroughly permanent nature, an employment as given at a time when most needed.

For the next two years—at least—our finances will not permit of programs entailing large expenditures; yet, there is much work to be done in linking up our principal streets, and re-building with gravel our extension and side streets which have necessarily been somewhat neglected during the last few years—owing to lack of proper material.

There is also a great necessity for more concrete sidewalks, and they should be put down, as early as conditions will permit.

Our Firemen are entitled to greater consideration. If we cannot afford to pay them, the city should at least provide them with a reliable Fire Alarm System, which, I am told need not be expensive—yet efficient.

Gravel for our extension and side streets: The time has arrived when a co-operative effort should be made to re-open the City Gravel Pit at Surrey, where hundreds of thousands of tons of the choicest grades of gravel are to be had. The Railway is searching for gravel for ballast; the Provincial Government is importing such material from Nova Scotia, and the City had been doing the same. Why not get together, and as a result use our own material and give employment to our own people? Our laboring men deserve this at our hands, for, were it not for the honest work performed for the wage paid we would not be in a position to boast of having concrete streets and Permanent works so cheaply.

Our Electric Lighting will be readjusted this year according to a contract already entered into by the Council, and a much better service may be expected.

A different system of Civic Assessment must be put in force in order to place more equitable valuations.

No PLACE IN CANADA affords greater attractions for the Tourist and Health seeker than Prince Edward Island, and its headquarters should be Charlottetown. We must unite in getting that trade.

Let our policy be progression within our means, and it is because I feel that I can be of greater service in forwarding the interests of Charlottetown that I respectfully ask you to elect me as Mayor.

The Ballot Act requires that no Candidate shall make a personal canvass. To do so destroys the secrecy of the ballot which should be of the Law, and intending doing so in the coming election. Consequently, if elected, I shall feel that you have of your own free will so honored me that I shall be in duty bound to render you in return the very best service within my power.

Thanking you in anticipation of your support, I am faithfully yours,
L. B. MILLER
