Had a Stroke of Paralysis

AND FOUND A CURE IN DR. CHASE'S NERVE FOOD

It is always better to prevent serious diseases of the nerves. There are many warnings, such as sleeplessness, irritability, headaches and nervous indigestion.

Prostration paralysis and locomotor ataxia only come when the nervous system is greatly exhausted. Even though your ailment may not yet be very serious, there is a great satisfaction in knowing that Dr. Chase's Nerve Food will cure paralysis in its earlier stages.

We honestly believe that English Essence of Vinegar is the strongest and best for pickling and chow. It is guaranteed absolutely pure, a strong, white wine vinegar at a moderate cost. On Monday afternoon next commencing at two p. m. the first stage of the shoot for the City Championship Rifle Trophy will take place at Kensington Range, at 200, 500 and 600 yds., 7 shots at each distance, with one sighting shot.

The second stage 10 shots at 800 and 900 yds. with two sighting shots will probably be shot on the following Monday afternoon, October 6th, all being agreeable. Any citizen may shoot in this match, though he may not be a member of either of the city clubs. Any such who desire to enter must leave his name and a dollar with Mr. E. R. Brow, of this city.

The keenest interest centres around the shoot for this trophy, which must be won three times (not necessarily consecutively) before becoming the final property of winner. The competition started in 1909 when Lieut. E. McNutt won the Trophy; in 1910 and 1911 the winner was Capt. D. A. McKinnon; and in 1912 Gunner G. E. Ritchie.

There are a number of "fresh," perhaps it ought to be said "new" shots who are shooting well this season who think they can put up a good fight against all comers. In any case a keen contest is expected, and it is hoped that a very large number will make an effort to compete.

CENTRAL GUARDIAN

THE GRAIN.—The farmers of Mount Stewart are making a great effort to gather the grain that has been cut for nearly two weeks. However, if this good weather continues none of it will have been materially damaged.

ATTENTION is directed to the large Real Estate "ad" of B. Carter & Co., in this issue. Any person looking for a choice and up-to-date Residence should read this "ad." The property is offered by private sale and will not be sold at Auction. 1555.

TENDERS LET.—The supplying of feed for live stock at the Charlottetown Exhibition has been let to Stewart & Shaw. Exhibitors can be supplied with any kind of feed required at short notice. We ask exhibitors from a distance to order now and this will ensure their stock arrives. Write or phone 298-L 1361.

PRIZE WINNERS.—Mr. T. P. Cass, North River, has received a letter from a gentleman in Chilliwack, B. C., stating that the two Berkshire hogs sold him last November captured 1st and 2nd prizes at Vancouver, B. C. and afterwards sold to go to Alaska. This is a breed and raised in P. E. Island. Mr. Cass is exhibiting at the Charlottetown Exhibition Short-horns, Birkshires and Clydesdales.

WOMEN'S INSTITUTE.—At the French River Women's Institute, the increasing membership is very encouraging. This is another Institute, which is interesting itself in the school. They have decided to present a new map of the Maritime Provinces to the school and in this and other ways are carrying on a good work. The topic for the month was Different Ways of Cooking Apples. The members all took part, each giving her apple dishes, altogether the meeting was a very helpful one.

AN ACCIDENT.—What might have been a more serious accident occurred near Mt. Stewart last Sunday. While Mrs. Handrahan and her son were returning from church, the horse was suddenly frightened by a dog that apparently had been crouching in the ditch. Mr. Handrahan was thrown out and the horse ran away at a tremendous rate with Mrs. Handrahan. After running a short distance, he quickly turned, and returned to the scene of the accident where they managed to stop him. Mrs. Handrahan was unhurt, but her son was considerably bruised, the wheel having passed over his leg. L.

IMPORTANT TO FARMERS.—As announced early in the season, the Dominion Live Stock Branch has this year undertaken a distribution of pure male animals throughout Canada on a somewhat extensive scale. In inaugurating this policy the aim has been to aid sections where pure bred sires were lacking and to encourage new communities in following an intelligent system in breeding. This form of assistance has proven very popular and during the past few months a large number of bulls and several stallions have been placed in various parts of the country in the hands of local associations formed specially for the purpose of handling and maintaining them. All animals placed remain the property of the Department of Agriculture, the local associations assuming the responsibility for their maintenance and management under the general supervision of officers of the Live Stock Branch. The distribution of bulls and stallions having been brought to a close for this year the opportunity is now open to deal with applications for boards and rams. Full information regarding the rules governing the distribution and the procedure to be followed in forming the necessary organization may be had upon application to the Live Stock Commissioner, Ottawa. As it is the intention to consider only such requests as are forwarded before October 20th, it will be necessary for districts desiring to take advantage of this offer to act promptly.
