and Zam-Buk will soon take the pain out of a scald or burn.

Mrs. Albert Smart of 279 Harbison Ave., Winnipeg, writes: "I upset a pan of boiling water over my arm and foot. As I was wearing slippers my foot was badly scalded. The pain was intense and almost immediately a huge blister formed, covering the top of my foot.

"My husband got some Zam-Buk and applied it at once. The relief was really wonderful. Very soon the burning pain was ended and the inflammation drawn out, and continued applications completely healed the scald."

Zam-Buk is also best for eczema, ulcers, bad legs, blood-poisoning and piles. All dealers, 50c. box.

# Busy Closing Days of Session

(Continued from page One)

needed for the purpose of meeting the interest of the war debt and in providing pensions for disabled returned soldiers, which reduction might have to be taken up by a direct tax on farm lands.

Therefore resolved that in the opinion of the House, it would be unwise to urge the acceptance of a Reciprocity agreement that is subject from year to year termination on the part of the United States Congress.

Further Resolved that before any radical reduction of the tariff of Canada is effected, a commission of inquiry should be created to take evidence as to the best means of meeting the requirements of the Agricultural Provinces, without unduly interfering with a view of avoiding the imposition of a direct tax on the farm lands of Canada.

HON SIR CHARLES DALTON seconded the amendment in a brief speech in which he stated that the Hon. Member from Morell had said so much of what he had intended saying that it was not worth prolonging the session with the remainder.

MR. J. A. DEWAR followed He had not read Mr. Johnston's resolution but he agreed with it and proposed voting for it. He did not believe in too much protection.

PREMIER ARSENAULT followed. He said that any one would be hopelessly blind who could see in Mr. Johnston's resolution anything but a move in a political game, a claptrap argument to catch the votes of the farmers of Kings County, which it was currently reported the Hon. member was shortly going to solicit in a federal contest. The Liberal Party had long preached free trade. They came into power in 1896 on the policy of free trade as it is in England and from 1896 till they went out of power in 1911 they adhered strictly to the National Policy which they denounced They made few adjustments, it was true, such adjustments to the tariff as are being made by all administrators when the necessity arises but the National Policy of Sir John A. McDonald was the policy they adhered to and they could do no other. They tinkered a little with the tariff. They went to the United States and negotiated a reciprocity policy and he held in his hand the United States White Book in which was closely shown by United States politicians that all the advantages of the argument lay with the United States. He quoted Dr. Michael Clark, the only free trader in Canada as showing that the Liberals were in this free trade game for political reasons only and Mr. Fielding as assuring the manufacturers that they were not hurt by the free trade policy carried out by the Liberal Party. He, the Premier was satisfied that the tariff would be lowered at many points but only after a careful enquiry into all the conditions. Before tinkering with the tariff it would be necessary to find out authoritively how the changes would affect the general interests of the whole country. There is a reciprocity between producers and and consumers, between the farmers and the industries. The farmers want the products of the industries; the industries want the products of the farmer. All must be protected. The revenue of Canada for the next year will be 100 millions short. Incomes will be taxed as never before to make up this deficit and he knew that farm values would not be touched to the extent that industries and incomes would be in the adjustment. It had been said by one of the speakers that the accumulation of wealth was the cause of Bolshevism. There was little danger of Bolshevism in Canada. Labor was well paid because its industries were protected and there was less unrest in Canada than elsewhere. It was quite true that many made too much money; that would be enquired into by a competent commission recently appointed for the purpose and the interests of both labor and capital would be safeguarded. It was only a matter of straight and reasonable business that before making a radical change there should be a free and full enquiry. This it was the purpose of the present federal government to make before making any changes.

MR. PATON briefly quoted that celebrated saying of Sir Wilfrid Laurier when he said Canada was not now depending upon the United States, that we don't want their trade now.

MR. A. E. MCLEAN moved an amendment to Mr McEwens amendment. On division Mr. McEwen's amendment was carried by a vote 13 to 11. Mr. Dewar voting with the Opposition.

MR. J. H. BELL moved a resolution laying down a Liberal platform in which unfortunately for Mr. Bell the expenditure of money was involved and which he should have known was out of order. His resolution was ruled out by Mr. Speaker.

MR. A. E. MCLEAN also presented a resolution protesting against the removal of the Carferry at the present uncture.

MR. JAMES PATON moved the following amendment to Mr. McLean's resolution.

That all the words after the word whereas is the third line of said resolution be stuck out and the following inserted in lieu thereof

Whereas the bulk of the exports go on dry dock periodically with no means of the Carferry steamer Prince Edward Island,

And whereas such traffic is gradually increasing and with the widening of the gauge of the railway the traffic will be further increased so as to tax the carrying capacity of the said ferry,

And Whereas the said ferry has to go on dry dock practically with no suitable boat to replace her,

And Whereas in the winter the communication between this province and the Mainland is altogether dependent on said ferry and in the event of an accident to said ferry this Province would be left without any means of communication with the Mainland,

Resolved that in the opinion of this House immediate steps should be taken by the Dominion Government to provide a second ferry steamer fitted for crossing under winter conditions in order to insure the fulfilment of the terms of Confederation, in the event of an accident to the Carferry Prince Edward Island.

MR. GEORGE E. HUGHES moved an amendment to this amendment which, on the suggestion of the Premier and with the concurrence of Mr. Hughes was altered to the following form and added to the amendment.

Further Resolved that the Dominion Government be memorialized to continue steamship service between Charlottetown and Pictou and between Summerside and Point du Chene during the period of open navigation, which was carried unanimously.

Mr. Paton's amendment was carried on division 13 to 11.

MR. JOHN MCMILLAN moved a resolution to the effect that all returned men should be placed on a equality contending that those who did not wish to take up land should be otherwise compensated.

PREMIER ARSENAULT had no objection to the latter resolution but he wanted to inform the Hon. gentleman that he had thoroughly thrashed out the question with the authorities at Ottawa, that he had made a special plea in favor of the fisherman but, he regretted the authorities were not disposed to yield to his request.

The House adjourned at 12.30.

### MAY 15

House met at 12.

MR. HUGHES asked the Commissioner of Public Works if he has received a petition from Thomas K. Wood and others praying that a road be opened connectiong the New Galsgow road with the Millborough Road at or near the line between the land of John L. Matheson and the land of Anthony Buchanan, a distance of about one hundred chains—what action does the government intend to take respecting it?

Reply. The matter will be taken up in recess.

On motion of Premier Arsenault the House went into committee for further consideration of An Act to amend the Election Act. Dr. A. A. McDonald in the chair. This bill was agreed to as amended.

In reply to a question by Mr. Hughes as to contracts given for printing and to whom the Premier tabled the following reply:

On motion of Premier Arsenault the Educational Tax Act was read a third time and passed.

On motion of Premier Arsenault An Act to incorporate the town of Borden was read a third time and passed.

On moton of Premer Arsenault An Act to amend the Statute Act was read a third time.

On moton of Premer Arsenault the House went into committee for second reading of An Act to provide for a referendum to the electorate of P. E. Island on Prohibition. Bill agreed to and ordered to be read a third time today.

PREMIER ARSENAULT referring to the question brought up by him last night re subsidy to the Aerial Transport Co., he said that he did not know whether the silence on the other side of the House meant assent or want of interest.

Mr. W. H. Dennis stated that there was a good deal of interest in the matter and it was desirable there should be more information.

MR. J. J. JOHNSTON said that he was authorized by the Leader of the opposition to express the thanks of the Opposition for the courteous, orderly and intelligent manner in which the ushers and messengers of the House, all returned soldiers, had acquitted themselves.

PREMIER ARSENAULT heartily concurred. The young men had acquitted themselves as he had expected them to and he was pleased and grateful with their conduct throughout.

MR. J. J. JOHNSTON, in reference to the proposed subsidy for aerial service said the Leader of the Opposition was absent and those remaining did not care to assume responsibility.

On moton of Mr. H. D. McEwen the Pauper Scale was considered, Mr. J. A. Dewar in the chair. The scale was agreed to.

House took recess at 1.

### MAY 15

Afternoon Session.

House met at 2 o'clock.

The Clerk read a message stating that His Honour the Lieutenant Governor would be in the House at 2.15 to prorogrue the legislature.

On motion of Premier Arsenault the Act to authorize a referendum in reference to the Prohibition was read a third time and passed.

On motion of Premier Arsenault An Act to amend the Election Act 1913 was read a third time and passed.

PREMIER. We have now arrived at the end of the session, the last before a general election. He presumed there would be a change in some seats but he wished to say that during his incumbency his relations were with all the members most cordial. He did not at all times see eye to eye with members of the opposition but that was to be expected. There had been a spirit of comradeship which was very pleasant and he would be pleased on reassembling to renew old friendships and acquaintances.

Mr. George E. Hughes had much pelasure in endorsing the sentiments expressed by the Premier. He, Mr. Hughes had been in the House for many years but never remembered a more agreeable session. He hoped many of the present members would return after the election. Of course he did not know which side would have the government but if a sufficient number of the electors voted as he hoped they would there was no doubt as to which party would be in power when they next met.

At 2.15 His Honour Lieutenant Governor MacDonald accompanied by his private Secretary Mr. Aeneas MacDonald and his Aide de Camp, Major Bartlett, entered the Chamber and gave his assest to the bills passed during the session, 42 in all; after which he prorogued the House with a speech which appears elsewhee.

At the close of His Honours speech the House and gallery united in singing the National Anthem.

After His Honour retired the members sang "Should Auld Acquaintance be Forgot" and left for their several homes pleased that it was all over.
