If Back Hurts Use Salts For Kidneys

EAT LESS MEAT IF KIDNEYS FEEL LIKE LEAD OR BLADDER BOTHERS

Most folks forget that the kidneys like the bowels get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders. You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acid in the urine so it no longer irritates thus ending bladder disorders. Jad Salts is harmless; inexpensive, makes a delightful effervescent (thia water drink which everybody should take now and then to keep their kidneys clean thus avoiding serious complications. A well known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

...**COAL LADEN**—The schooner Glyndon, Doucet master, has received the advance note for discharging coal and will leave at once for Hastings to secure a similar cargo. H
...**NEW CAR OWNERS**—Among the recent purchasers of cars from the different Summerside dealers are: Messrs. J. A. Arsenault, representative of The Imperial Oil Co., of Summerside and A. R. Wells, one of Summerside's successful fox ranchers. Have each purchased a new Slight four Overland from Messrs. Brace & McKay.
...**THAT GERMAN GUN**—Mr. Neil McLeod, K. C., of Summerside, has received the advance note for the German gun which is expected somewhere around the fifteenth of August. Rumors are floating around Summerside that the gun is already here, but will be under cover until the unwilling to take place about the middle of the month.
...**CHALLENGE ACCEPTED**—Some time ago a challenge appeared in the Summerside Journal claiming that the record of 133 fox pups from 24 pens could not be beaten. This record like many others has been broken by the Willow Hill Company under the management of Mr. George Casbeck, who states that 138 pups have been produced in 24 pens thus exceeding the record by 5 pups. Perhaps some one can beat this?

SCHOOL WORK

...**SCHOOL WORK**—Following is the standing of Mr. Carmel School for the month of April:—Grade VIII—1, Ernest Poirier, 2, Bertha Gallant, 3, Sylvain Gallant, Grade VI—1, Bertha Arsenault, 2, Bertha Poirier, 3, George Gallant, 4, Demerise Arsenault, Grade V—1, Marie H. P. E. Island Hospital Acknowledges

Messrs. Prowse Bros. Ltd., City Dear Sirs: On behalf of the Board of Trustees of the P. E. I. Hospital I wish to thank you very much indeed for your cheque for \$250.00 which you have handed us as our share of the proceeds from your Anniversary Sale. As you are doubtless aware the financial problems of institutions like the Hospital and the Orphanage are very serious during the time of high prices and if it were not for the loyal support of good selves and other generous citizens I am sure I do not know how we could get along. Again thanking you for your splendid generosity and thoughtfulfulness of the needy I remain, Yours truly, W. K. ROGERS

EMERGENCY RATIONS

Lady of the House—"You say you haven't had anything to eat today?"
Tramp—"Lady, the only thing I've swallowed today is an insult."

Do You Know This

Wherever gasoline is stored, danger signs should be posted on the doors, warning against the carrying of lights of any kind. Gasoline vapor is heavier than air, consequently it will float along in the ground, like an invisible steam, and may carry thirty feet or more and under favorable conditions ignite. One gallon of gasoline has substantially the power equal to eighty-three pounds of dynamite. Gasoline will give off 130 times its bulk in vapor; and when vaporized it immediately expands 1,500 times its volume of air into explosive mixture, which will ignite a flame or spark. Five gallons or gasoline will generate 8,000 cubic feet of gas; or enough to fill a room 20 x 40 feet and 10 feet high. When ignited it immediately expands to 40 times that space. This would cause a most destructive explosion with probable loss of life.
