STEAMER BURNED AND FOUR PERISHED

Steamer Crystal Stream On St John River Burned In Early Morning Bringing Death To Four Of Crew And Seriously Injuring Six Others Incendiarism Suspected

[SPECIAL BY CABLE] ST. JOHN, N. B. June 21.—The most horrible fatality that has ever occurred on St. John River took place early this morning at west wharf, Coles Island, Queen's County, sixty miles from this city when the steamer Crystal Stream of Indian town caught fire and burned, bringing death to four of her crew and injuring to a greater or less extent a half dozen others.

of a few years ago when three lives were sacrificed, though the Crystal Stream burning is more shocking and horrible to contemplate. Four men were pinned up between decks in their bunks asleep while the fire, over which there could be no control raged about them, cutting off their escape. Despite the heroic efforts of other members of the crew and the shore people the men were lost in the flames, the incinerated remains indicating that they died as rats in traps. The dead are: Willard Logan of Lund's End, King's Co., fireman, unmarried. Allan Logan, his brother of Lund's End King's Co., married and leaves children, a deck hand. Fred Smith of Shannon Settlement,

deck of Wolkham, Queen's Co., deck hand. Edward Baxter, formerly employed by St. John, deck Land belonging to Day's Landing. The injured are: Herbert McAlary, male, of Garham's Bluff, King's Co., badly burned about the body, now in St. John hospital. Westworth Roberts, engineer, of St. John, burned about the face and hands. Mrs Chase of St. John North, stewardess, burned and bruised. H. Purdy Belyea, purser, burned about the face and hands. Others had a narrow escape. A jury has been empaneled and a searching inquest will be held next week. There are rumors of incendiarism.

ANNUAL MEETING TOURIST ASS'N

The President's Report Submitted—The Financial Statement—Many Matters Discussed—Move To Procure Bathing Houses.

The annual meeting of the Prince Edward Island Tourist and Development Association was held last night at the Mayor's office. The President submitted his report, which follows:— Gentlemen: I beg to report for the year 1906-1907 as follows: Since our last annual meeting the Executive Committee of our Association has been actively engaged in carrying out the objects of the Association—the chief of which is the advertising of the Province as a summer resort. During the year several hundred hand-somely illustrated booklets were sent all over the Dominion and the United States. The Plant Line, J. C. R. C. P. R., and other transportation companies have assisted in distributing this advertising matter for the mutual benefits of the companies and the Province. We did considerable advertising in the classified columns of great newspapers in large centres of Canada and the United States. This advertising is comparatively inexpensive and very effective as is proved by the numerous applications received by our Secretary daily for information respecting the Province as a summer resort, all of which enquiries have been answered promptly. One important feature of the year was the visit of the Rev. Edwin Smith of Cardigan to the New England States and New York State where he delivered several lectures with stereopticon views on Prince Edward Island to large and influential audiences. We regret that we were unable, owing to the state of our funds to supply Mr. Smith with any large amount of literature for distribution. He was furnished with a few of the Government handbooks, but these were too bulky to carry in quantities and too expensive for indiscriminate distribution. We anticipate good results from Mr. Smith's efforts. I believe that the Association has done its duty, that the work already accomplished justified its existence; and I am sure that the merchants and citizens generally have benefited by the impetus given to trade. Other Provinces find it advantageous to interest themselves along this line and to spend a large amount of money in advertising their attractions. We have no mines or minerals, but we have a magnificent asset in our beautiful tourist-land which we should not hesitate to advertise to the utmost. If our Association receives the support of the public, we can enter the tourist traffic and it will increase yearly. The City Council should be commended for their great improvement to the streets. I am glad to see that the good work is being continued, and would suggest that every shopkeeper and householder see that their building and premises are put in good order and kept clean. The result would be gratifying and surprising. As I have already intimated our work this year has been along the lines of encouraging the regular tourist traffic. We should be careful as an Association not to relax our efforts in the matter of advertising, and I hope our membership will not decrease. Advertising has to be kept up and it requires funds to it. The advertising is being done in the most judicious manner and I would ask all members of the Association to contribute their annual fees and likewise to give their support and sympathy of all who are interested in the development of the Province as a summer resort; and who should not be the work of the Association benefits not only the city but the Province. We have an idea

summer land and if we do not put forth an effort to make it known to the world we cannot expect to reap the benefits from the tourist traffic that are accruing to the neighbouring Provinces whose natural attractions as a summer resort do not compare with ours. I feel that all our people will make a special effort to please visitors. A well studied tourist is a good advertisement. The resorts all over the Island are more numerous and better equipped than at any time in the past and the hotel accommodation in this City is equal to any in the Maritime Provinces. Respectfully submitted, GEORGE E. HUGHES, President.

Charlotte town June 1907. The finance report showed that during the year 1906 the sum of \$810.24 had been expended for advertising and printing books, secretary's salary, etc and that there remains on hand in bank a balance of \$55.58 to the credit of the Association. A number of matters coming within the scope of the Association's work were discussed. A committee was appointed to confer with the committee appointed at last meeting of the City Council to see about public bathing houses, and endeavor to have something done at once. The secretary was instructed to write the Council expressing the regret of the Association at the withholding of the grant towards the City library, which was viewed as a retrograde step in a City where advancement is being observed on every hand. The continued existence of old and un-ightly buildings such as the old Rankin House, corner Power and Water Streets, was alluded to and the suggestion made that steps be taken with a view to having it removed. The matter of procuring through tickets for a round trip through New Brunswick and Nova Scotia, taking in this Island was considered and a committee appointed to attend to the same. A number of other matters received attention and the meeting adjourned till Tuesday, July 2, at eight p. m. Ask for Minard's and take no other.

Condensed Advertisements (Too late for classification.) WANTED—A girl for general house work. Apply to Mrs. Bishop, Arlington House. 6-22nd 11p. From old up and down securely. Bound by all styles and occupies less room. Apply to Mrs. J. D. Mason, West Richmond Street. 6-22nd 11p.

GOLD IS FOUND IN OPASATIKA.

MONTREAL, June 21.—News has been received on the discovery of three new veins in the properties of the Great Northern goldfields at Like Opasatika, a short distance east of Larder Lake on the Quebec side of the line. One vein has been proved for 230 feet in length with an average width of nearly 50 feet, carrying gold and copper, the second 300 feet long and eight feet wide, carrying gold, the third has been traced for nearly 4,000 feet, with an average width of 12 feet, showing free gold on the surface. Owing to the fact that there is no assay office there, exact values cannot be ascertained until samples arrive. Prospectors are flocking into the country, thirty-five canoes arriving in two days. Rich discoveries of free gold and copper have also been made on the other property adjoining the Great Northern goldfields.

THE KING MAKES A POOR MODEL.

PARIS, June 20.—Harold Sped, the widely known English artist, declared that, though he thinks it a great honor to paint royalty, ordinary mortals are in many ways more satisfactory models. His portraits of King Edward, which attracted much attention at the spring sal is said to be that monarch's favorite likeness of himself. "In the first place," Speed declares, "with a royal sitting one is so limited as to time. The King would come in, look at his watch and remark, 'I can only give you twenty minutes today.' I had to sketch in the entire head and figure in that time. Then he wanted the court robes to hang in severe folds, whereas I wanted to make it flowing graceful lines. Whenever he made a complimentary remark he preface it with the phrase, 'If I may be permitted to say so, you draw well,' or 'quickly,' as the case might be." Keep Minard's Liniment in the house

TRADE AND SHIPPING. PORT OF CHARLOTTETOWN.

Entered, June 20 Union, Gerrit, Sydney; A. Lincoln, Doucette, Rustic; Hopy-G-Lucky, Allen, Marble Mountain. 21—Sir Wilfrid, Roberts, Pictou; Helen S'aver, DeCoste, New York. Cleared, June 20—Morning Light, Richard Pictou; Minnie M. C., Hyde Marble Mountain; Lady Hill, Haughin, Pictou; J. B. Martin, Cain, Port Hood. E. J. M. Young, McMillan, North Sydney; Sir Wilfrid, Roberts, Pictou. "2 IN 1" SHOE POLISH. There are some malicious persons, who in their anxiety to sell other shoe polish have falsely stated that the "2 in 1" shoe Polish injures leather. The proprietors of "2 in 1" will be pleased to have any person who has positive proof that the above statement has been made, communicate with the F. F. Dalley Co., Limited, of Hamilton, Canada, or their collectors, Scott & Robertson, Federal Life Bldg., Hamilton. The proprietor intends to enter suit against all persons who resort to unbusinesslike tactics in trying to belittle the virtues of "2 in 1" Shoe Polish. Minard's Liniment Lumberman's Friend

THE EMMERSON CROCKET LIBEL

Crown Counsel Refuses To Proceed Unless Demurrer Be Referred Full Court—Commission To Examine Witnesses Abroad Refused—Case May be Adjourned Till September.

[SPECIAL BY CABLE] FREDRICKTON, June 21.—The announcement was made in the circuit court here this morning by Dr. Pugsley that the defamatory libel case of the King vs. Crockett would not be tried this term. He applied for a commission to take the evidence of the former named Foster and O'Brien, the former employees of the St. Lawrence Hall and the court refused it. He also asked that the question raised by defendant's plea of justification be referred to the Supreme Court.

On this point His Honor took until Monday to decide. Dr. Pugsley then stated that in a view of the court's decision yesterday he did not propose to go on with the trial this term and the defendant's witnesses might as well return home. Dr. Pugsley contended that under the judge's decision it made no difference whether the libel was true or false the defendant would only have to plead justification and that the libel was discussed in the public interest, to secure an acquittal.

Never before in the history of the Province or of Canada for that matter, has a judge been called upon to decide a case of this nature. The decision given involved the license of the press and it being of the very greatest importance he felt that he was not asking too much when he asked that the matter be referred to the full court. The belief is that Judge Landry will allow the appeal and that the case will stand adjourned till the fall bench meet in September.

BRITISH SOLDIERS LOST IN DESERT.

LONDON, June 20.—News has reached the War office that a detachment of Egyptian troops, consisting of a lieutenant and twenty-five non-commissioned officers and men, who started over a month ago on an expedition through the desert from Spandau, have not yet returned, and that it is thought they were all lost. The War Office has provided for a search and several Egyptian detachments of native as well as British troops are on their way to find their comrades, who may perhaps have died of thirst.

THE PRESIDENT AND HIS GUN

WASHINGTON, June 18.—Those sitting within close proximity of the president when he delivered his address at the laying of the Masonic temple corner stone yesterday were aware that in his hip pocket there reposed peacefully a .45 revolver. When the president entered the speaker's stand he was approached immediately by Grand Master Woodman, who extended to him the sheepskin apron of the Masonic craft. The president threw open his coat to allow the apron to be tied around his waist, and in so doing exposed the butt of his revolver. Several women sitting near gasped and turned fearfully to their escorts. The men, however, smiled, and assured them that it was the president's custom to carry a weapon.

SAID MINISTERS WERE TOO SHARP

St. THOMAS, Ont., June 20.—Rev. William Kettlewell, whose pastorate in the Central Methodist Church expired this month, has asked to be left without a station this year, rather than accept the small and comparatively unimportant station of Lambeth. He says he has been jockeyed out of a better station by "the scramble of the members of the synod committee to improve their own condition at the expense of those whose terms have expired by limitation." In his statement to his congregation he added: "Many a minister of my message financial resources would have been compelled to submit to a conspiracy of selfishness. Fortunately like Paul, I have had a business training as well as a theological training. I can make tents as well as preach sermons. This is what I intend to do this year."

EXTRA JUDICIAL EMPLOYMENT

Sir.—The writer understands that the Dominion Statute of 1905, which increased the judges' salaries contained the following clause: "No judge mentioned in this act shall either directly or indirectly, as director or manager of any corporation, company or firm, or in any other manner whatever, for himself or others engage in any occupation or business other than his judicial duties; but every such judge shall devote himself exclusively to such judicial duties. It would be interesting to know how litigants have suffered before this act was passed, and how far this provision in the act has been observed throughout Canada." Tax Payer.

CHURCH SERVICES

Changes to be made in Church services should be at this office not later than one o'clock Friday afternoon. METHODIST. First Methodist.—Adjutant Sparkes at 11 and Rev. J. T. Robertson at 7.
