**AND THE DEACON PROCEEDED.**

After Pastor Had Elucidated Text from Which He had Drawn His Sermon.

The colored parson had just concluded a powerful sermon on "Salvation Am Free," and was announcing that a collection would be taken for the benefit of the parson and his family. Up jumped an acutely brunette brother in the back of the church.

"Look a year, pahson," he interrupted, "yo' ain't no sooner done tellin' us dat salvation am free dan yo' go askin' us fo' money. If salvation am free, what's de use in payin' fo' it? Dat's what I want to know. An' I tell yo' p'intedly dat I ain't goin' to gib yo' nothin' until I find out. Now—"

"Patience, brudder, patience," said the parson. "I'll elucidate: S'pose yo' was thiraty an' come to a river. Yo' could kneel right down an' drink yo' fill, couldn't yo'? An' it wouldn't cost yo' nothin' would it?"

"Oh, cou'se not. Dat's jest what—"

"Dat water would be free," continued the parson. "But s'posin' yo' was to hab dat water piped to yo' house? Yo' have to pay, wouldn't yo'?"

"Yas, suh, but—"

"Wal, brudder, so it is wid salvation. De salvation am free, but it's de havin' it piped to yo' dat yo' got to pay fo'. Pass de hat, deacon, pass de hat."—Everybody's Magazine.

**'TWIXT THEORY AND CONDITION**

Where the Gifted Playwright Is Confronted with Circumstances He Cannot Control.

Consider the apprentice playwright's vision of his work. He has dreamed a dream and the people of that dream tread out their drama before his mind's eye, all flawless, perfect, just as he made them. He sees them as real people, not as actors. The scenes by moonlight are moonlight indeed to him; he can smell the roses in the garden where his heroine walks, but, sadly enough, this illusion of reality, which continues for a little while after the conclusion of his writing, is apt to be the greatest reward his work will bring him. When the play is staged and he finds that the harvest moon for his moonlight love scene must be discarded because the moon-machine is creaky and there is danger that the audience may hear the moon go up, when the heroine whom he pictured to himself with "elf-gold hair" must play her part as a brunette because elf-gold wigs do not suit her, and when his "pathetic father" has been given to a comedian who "gets a laugh" upon all of his heart-rending speeches, then it is that the playwright begins to comprehend the difference between "the dream and the business."—Booth Tarkington in Collier's.

**30 Tons Pressure on a Bar of Soap**

Every bar of Taylor's Borax Soap is put through the soap which carries away all under a pressure of thirty tons to drive out impurities.

When you buy Taylor's you get all soap-- not a large percentage of water. It makes a saving of half in your soap expense.

There's a big difference between "just soap" and Taylor's Soap.

We use only the purest coconut oil from the Isle of Ceylon. Then we boil it doubly long and mix in the borax. While boiling we run thousands of gallons of clean water through the soap which carries away all impurities.

Taylor's

**Borax Soap**

Twenty-one days are required to make a single cake. The labor of more than 2000 people is represented in the cake.

We put every bar through an ageing process equal to six months in your pantry. You don't have to age this soap.

The bar is hard and firm. It wears much longer. The borax softens the water which also reduces the amount of soap by almost half that ordinarily required.

This pure soap is utterly harmless to the skin--it leaves the hands whiter and softer than ever before.

**“IMPERIAL” Gasoline Motors.**

2 1-2, — 4, — 8, — 12, — 16, H. P.

—in two cycle, three port design—

These Motors are better designed, built and equipped than any other two cycle Motor offered for sale in Canada.

Fishermen and pleasure boat owners, are requested to send for Catalogue and full particulars before placing orders elsewhere. All we ask is a fair comparison with other Motors, and we are satisfied we can make good our statements.

We are always ready and willing to assist and give information in regard to the running of the Motors. And then again, the advantage there is in being able to secure any parts that may be required from time to time, right at home, instead of having to send abroad for them—which you would have to do, if you purchase a foreign make.
