GRADUATES WITH HONORS.—According to the Boston Transcript Ellsworth Waitt of West Alton, Mass., was one of the six men in the graduating class of Boston university to be elected to the membership of Phi Beta Kappa. Phi Beta Kappa, founded at the College of William and Mary in 1776, is a national honorary society in which membership is conferred for high scholarship. To be elected to its membership is a high honor among college men, and a society members among its members many of the best known professional and business men of the United States. Ellsworth F. Waitt is the youngest son of Mr. and Mrs. C. H. Waitt of West Alton, Mass. His mother was formerly Annie Craswell of South Rustico, P. E. Island.

Minard's Liniment for Backache.

PERSONALS
Miss O. Evelyn Nicholson, Albany, returned home after spending a pleasant visit with friends in Cornwall.

Mr. Huestis Williams accompanied by his friend Mr. Richard Williams, arrived at his home in Tyn Valley on Tuesday evening to spend a few weeks vacation.

The Guardian regrets to learn that Mr. H. R. Moase, Police Officer of Kensington, has been confined to his bed since Saturday last. All will hope to see him soon, and again soon as he is much missed in his duties as officer in the Town of Kensington and surrounding districts.

The Public Forum
This column is open for the discussion by correspondents of questions of interest. The Charlottetown Guardian does not necessarily endorse the opinions of correspondents.

SOUTHPORT TRAGEDY
Sir,—Would you permit me to refer to the public road leading to Southport Wharf Bridge, the scene of one of the most regrettable accidents in our time. I have visited the place of this sad fatality and have been waiting for some comment on this open death trap. But as I notice one waits on the other to do some thing, and as I am not a writer for you will kindly overlook any errors. I feel as a native and visitor to P. E. I. one cannot write or speak too highly of their homeland. But on the other hand one cannot help in giving some criticism to our P. E. I. and Government or the members for Queen's in allowing to remain a

Less Redeemed by Sinking Fund		150,000	1,130,000

Mr. J. G. G. Kerry, President of the Canadian Paperboard Company, Limited, supplies the following information:—

BUSINESS AND PROPERTIES: The Canadian Paperboard Company Limited and its predecessors have for over thirty years been engaged in the manufacture and sale of all varieties of paperboard, and the Company to-day is the largest producer of this product in Canada, supplying more than 25% of the requirements of the Canadian trade. During the last three years the business of the Company has been limited to the capacity of its mills, which have been steadily operated on full time.

Plants are located at Frankford and Campbellford, Ontario, and at Montreal, Quebec, equipped to turn out daily approximately 125 tons of all grades of paperboard. The Company has under construction at Toronto, Ontario, a fourth plant on property leased for a term of years from the Toronto Harbour Commission with option of purchase. This plant, situated at Commissioners Street and Carlaw Avenue, with 250 feet of deep water dockage on the Ashbridge Bay section of the Harbour, should be completed in August of this year and will have a rated capacity of over 100 tons per day. The property is furnished with both railroad and trucking facilities.

The Company owns all the common stock (except directors' qualifying shares) of the Quinte & Trent Valley Power Company, Limited, which owns and operates power plants at Campbellford and Frankford. The Company's power requirements at these points are supplied from these power plants.

ASSETS: Assets of the Company, as shown by the books as at March 31st, 1928, and after giving effect to this financing were:

Fixed assets, including land, buildings, plant, machinery, water power rights, loans and investments in associated companies, etc.	\$2,887,202.18
Surplus of current assets over current liabilities, including proceeds of this issue	390,298.34
Total assets (not including goodwill)	\$3,277,500.52
Bonds outstanding on completion of present financing	1,130,000.00

All legal details in connection with the issue were approved by Messrs. Fasken, Robertson, Sedgewick, Atchison and Pickup, Toronto, and by Messrs. Campbell, McMaster, Couture, Kerry & Bruneau, Montreal.

PRICE: 102 and accrued interest

The statements contained in this circular are not guaranteed, but are based on information which we believe reliable and on which we acted in purchasing these bonds.

wide open death gate for the visitors and unwary. May I ask why has it been so any why has there not been a gate erected at the approach of this Bridge, and some danger signal installed on same?

I am very sorry to learn that the noble people of our Island especially the heads of our departments of highways and waterways, should be so negligent in their duty as to leave such open dangers unprotected.

This has been the second fatal at this place within the last two years. Might I say all the writing up or criticism on this affair are not going to compensate for those three lives that met a watery grave at midnight on June 26th. I further trust that some more interested person than myself will look into this matter at once.

I might say a word also about our public highways or motor roads as I notice we have but very few auto signs at hill turns, schools, bridges, detours and etc. It would be very helpful to motorists as well as tend to safety first should these signs be erected.

I am, Sir, etc.,
JOHN E. BEATON,
Hunter River, P. E. I.

THE WORLD HAS A NEW AND FINER MOTOR CAR

Salon

Body Designs

The new Salon Body design for the new "400" series was developed after extended personal study by Mr. Nash himself of the latest creations by European body artists of international fame.

Original ideas in body artistry were co-ordinated with the most modern developments revealed in foreign and American Salons.

And the Salon Nash design is the perfected result—a new body type of the most modern beauty.

It could fittingly adorn a chassis priced at many thousands of dollars. Nash invested a fortune in dies and machinery to create it.

But you may avail yourself of it on a line of cars notably moderate in price.

In body design, as in other important features, Nash has again outstripped all competition.

The World has a new and finer motor car—with a radically new and finer type of body.

HOUSEHOLD SCRAP BOOK
By ROBERTA LEE

Sink Brush
Instead of using a sink brush, use strips of cardboard boxes cut into convenient sizes. They will not scratch the sink and can be thrown away or burned after using. They are more sanitary than the brush.

Buttermilk
Buttermilk applied to the hands and face is one of the best cosmetics known. It may be warmed, but should not be boiled.

Cereals
If a cereal sticks to the vessel in which it has been cooked, add a cupful of wood ashes, then fill with water and leave to soak.

DISCIPLINE REWARDED
Train up a child in the way he should go: and when he is old, he will not depart from it.—Prov. 22:6.

will not depart from it.—Prov. 22:6.

PRAYER—For Godly, faithful parents and obedient children, we thank Thee Lord.

LET ME GROW LOVELY
Let me grow lovely, growing old—So may fine things do:
Laces, and ivory, and gold,
And silks need not be new.

And there is healing in old trees,
Old trees a glamor hold;
Why may not I, as well as these,
Grow lovely, growing old?
—Karlle Wilson Baker.

The Land We Love
By Frank Yeigh

Oil and Gas Production
Q. What is the development of Oil and Gas production in Canada?
A. Oil and Gas Production in Canadian West shows steady development with many promising areas being tested. Oil production in the Prairie Provinces increased from 220,000 barrels in 1926 by over 100,000 in 1927, while gas production increased in the one year from 9561 to 11,327,000 cu. ft. The prospects for future development of this important industry are encouraging.
