C. N. R. Official Is Remembered

Monday afternoon in the C. N. R. Engineers office at the Railway Station a number of the employees associated with Mr. Malcolm Matheson assembled and presented this popular Roadmaster, who has just retired on the Provident Fund with a beautiful meerschaum pipe and tobacco pouch, accompanied by a complimentary address. The address was read by Roadmaster J. J. Bethune and the presentation made by Fred Power of the Roadmaster's office.

Mr. Matheson has just completed forty-four years in the employ of the C. N. R. and is one of the most popular men in the service. Entering the employ of the Road at Emerald forty-four years ago on the section, by his conscientious work he was soon promoted to section foreman at North Wiltsberg. After a number of years here he was, about eight years ago, promoted to the responsible position of Road Master. This appointment necessitated his removing to this city, with his family, and where he soon made many friends.

The Patriot together with his numerous friends throughout the city and province wish Mr. Matheson many years in which to enjoy his rest from official cares and duties.

Dear Sir: The following is the address: Mr. Malcolm Matheson, Roadmaster, C. N. R., Charlottetown.

On your retirement from active duties of railway life in which you have been so long engaged, we who have been so closely associated with you in your official capacity, desire to give expression to the esteem in which you are held not only by us but by every employee with whom you have come in contact.

Your entry into the service dates back to the early eighties, and during that long period, by your assiduous attention to duty you gradually advanced step by step from a section man to the highest position in your department, that of Roadmaster, Eastern and Southern Section, Island Division.

Gas In The Stomach Is Dangerous

Recommend Daily Use of Magnesia To Overcome Trouble Caused by Fermenting Food and Acid Indigestion

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion." Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food remains undigested, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart. It is the worst of vices to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and acid right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation. Bismarck Magnesia (in powder or tablet form) never liquid or milk) is harmless to the stomach, and there is no sourness or pain. The only fence which has the famous Frost Lock

The real value of Frost Fence

Frost Fence costs less for posts and wire—it stretches tighter. Frost Fence costs less to erect—it stretches straight. The genuine Frost Lock holds its accurate spacing true. Frost Fence costs less for maintenance—it requires no repairs. Waved laterals, Frost-made wire and the genuine Frost Lock withstand weather, rust and stock. Frost Fence costs less for renewals—it lasts years longer. Frost Fence costs less for fighting weeds—it replaces weed breeding snake fence allowances with crop bearing land. All these savings assured by Frost Fence mean the greatest value your money could obtain, even if Frost Fence cost more than ordinary fences, which it does not. The makers accept the lowest profit paid by the farmer for anything he buys. The dealer buys Frost Fence in cartload lots at the low price and pays lowest freight rates, enabling him to sell to you at a rock-bottom price no higher than that of ordinary fence! Frost Fence was the choice for H. R. H. the Prince of Wales' ranch at High River.
