THE FIRM OF JENKINS & SON, Grocers, have installed a new up-to-date electric mill, which will pulverize coffee to any grain desired and is much superior to the old hand machine way. This firm keeps business up-to-date and no doubt their latest addition will greatly increase the sale of high-grade coffees. 2012

ATTRACTIVE WINDOW.—The window of Jenkins & Son, Grocers which is a very attractive one is now being entered in competition with other windows in Canada for a prize given by the Canadian Grocer for the best dressed-to-date coffee, mill, grinding coffee grocery window in Canada. It was designed and dressed by Mr. Ernest Cudmore. 2012

ISLANDER RETURNS.—Mrs. E. M. Binns of North Battleford Sask. arrived in the city on Monday night. She was met in Sackville by her two daughters Mrs. R. H. Binns and Mrs. E. N. Hill. Mrs. Binns, though still having a good word for Western Canada is more than pleased to get back to Prince Edward Island after an absence of over nine years.

BUSINESS GOOD.—Notwithstanding the fact that some people find business somewhat quiet the firm of Jenkins & Son, grocers, on being interviewed regarding business condition, stated that the month of November 1920 showed a very large increase in business over the corresponding month of last year. This would show that, although the firm is one of the oldest operating in their particular line yet they have kept pace with the times and are giving more efficient service than ever before.

Happenings of the Week

(Continued from Page Four.)

pleased to learn that he is making most satisfactory progress in the Royal Victoria, after his critical operation of bone grafting in the head.

Charlottetown audiences are enjoying some lovely musical happenings this season and are being initiated into the beautiful mysteries of music. The Saturday afternoon twilight recitals are continuing to draw large crowds, that in St. James Church last week, having its full share of patronage and a continuance is looked for even after the present arranged series is finished.

Last evening the Cantata in the Baptist Church left little to be desired in the music line, and a delighted audience widely praised the several soloists who were in excellent voice.

Mr. and Mrs. R. V. Longworth were visitors to St. John this week.

"Sewing bees" are the popular mode of entertainment just now, and even Bridge is being side-tracked for gift making.

Nothing appears to interfere with the numerous dance classes which are now organized in this city, in which old and young seem to be equally interested. This week has been one round of pleasure for the dance devotees, with several special dances arranged for the future, in fact some have dates booked as far ahead as New Year's eve.

Rev. H. L. Haslam of Liverpool, whose home is at Stone Cottage, Springfield, P. E. I., has been appointed rector of the church in Yarmouth, of which the late Rev. Robert D. Bambrick was for so many fruitful years in charge and whose memory is indelibly enshrined in the hearts of his people.

Mrs. W. K. Rogers entertained the St. James Church choir to a thoroughly enjoyable social time last evening.

Mrs. Mathieson, wife of the Chief Justice, has returned from a few weeks visit to her daughter in Montreal.

Mrs. C. H. Black returned last night from Montreal where Mr. Black underwent a successful operation in the Royal Victoria a few weeks ago and is steadily improving.

The Stores are beginning to remind the passer-by that the Christmas season is close at hand and in the majority of cases, Christmas stocks are being artistically displayed and the windows contain many suggestions for suitable gifts.

The NEW EDISON

"The Phonograph With a Soul."

Let the talking-machines vie with one another in glittering generalities. Edison deals with facts alone:

1. The New Edison has sustained 4000 "Tone-Tests."
2. 50 different artists (both vocalists and instrumentalists) made these tests.
3. 4000 different New Edisons (all Laboratory Models out of regular stock) were used in the tests.
4. 3 million people heard these tests.

5. 500 of America's leading newspapers published the results.

6. Everyone has admitted that the human ear cannot distinguish between an artist's voice and the New Edison's Recreation of such voice.

You have something mighty tangible in this proof by the New Edison. When 3 million people hear, consider and agree, you have a fact as firmly established as any scientific law.

You will be interested to know that we have a plan whereby you can arrange your own payments for your New Edison.
