Friends of Mr. Alton O'Brien of Elmsdale are pleased to learn that he has secured a position in O'Leary as egg-grader.—E.

Port Elgin Man Given Time By Montreal Judge

(C.P. By Guardian's Special Wire)

MONTREAL, April 27—Charles Calloway, alias Anderson, alias Murphy of Port Elgin, N. B., was sentenced to time in jail by Judge J. Desmarais today when he appeared on charge of having menaced his wife with threatening letters.

Judge Desmarais quoted part of a letter Calloway allegedly admitted having written his wife, "I will get you before they get me and if I get you this time I will fix you so that no other man will look at you again."

The accused's wife testified Calloway had met her on the street early in April and said he was going to kill her.

Calloway declared all pages of the letter exhibited in court had not been written his wife but had been mixed up with the part containing the alleged threats.

When asked whether he would like to make a statement, Calloway's declaration was featured by a sharp argument with the presiding judge, who repeatedly had to remind the accused to stick to the charges of the court and not to bring in details of his wife's personal life.

Calloway still faces another charge of allegedly having escaped from custody of the Royal Canadian Mounted Police while being taken to entrain for Truro, N. S., where other charges await him.

EVENTIDE.

The bright autumn day fades slowly
As the sun sinks low in the west,
And the waters peacefully ripple
As a boat gently glides o'er the crest.
The Watchful Eye of the lighthouse
Like a guardian sends forth its ray,
As the birdies all nestle closely
And the calm of the darkness holds sway.
Then the faint tinkle of church bells
Calling God's people to worship once more,
And the calm of the peaceful even
Is hushed from the day's busy roar.

Expedition Leaders Too Tired To Talk

GEORGETOWN, British Guiana April 27—(CP Cable)—"Very, very tired—too tired to talk" Theodore Waldeck and his wife, leaders of an ill-fated search for Paul Redfern, United States aviator lost 10 years ago in a flight over South America, returned to Georgetown from the British Guiana jungle today.

"We couldn't make a very good search," Waldeck said. "We are very tired just now but we'll see you people (newspaper reporters) tomorrow."

Waldeck, New York sportsman, led an expedition into the British Guiana hinterland last December. With him were his wife, only woman in the party, William Astor Chanler of New York, and Dr. Frederick Fox, a native of Lucann, Ont., and a party of natives.

RAISE MONEY FOR RINK

(By The Canadian Press)

ARCOLA, Sask.—Vic Mahon, farmer of this village 75 miles southeast of Regina, has donated use of 10 acres of his farm to seed 15 bushels of Thatcher wheat, purchased by the Arcola hockey club. He will sow, cut and thresh the crop with the help of members of the team. Proceeds will go towards building a closed rink.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c

HOWE OUTLINES FEDERAL AIR SERVICE PLANS

Moncton Eastern Terminus With Feeder Services To Other Centres.

(C. P. by Guardian's Special Wire)

OTTAWA, April 27—Moncton will be the eastern terminus of the Trans-Canada Air Lines but there will be feeder services from other Maritime cities to that point, Transport Minister Howe told the House of Commons Railyway Committee here today.

Answering W. A. Walsh (Cons., Mount Royal), the Minister said services to the Maritime Provinces would be established after the leg from Kapuskasking, Ont., to Montreal had been completed.

Negotiations were in progress with Maritime cities with regard to airports, so that, when the extension to Montreal was made, the facilities would be present for completion of the nation-wide service to the Maritimes.

Express and mail services on a commercial basis will be opened by the air lines between Winnipeg and Vancouver on May 5, Mr. Howe said.

Service Extension

So far as Eastern Canada is concerned, extension of the service will depend on the rapidity with which equipment is delivered and other facilities completed.

At present regular flying schedules are maintained each day daily between Winnipeg and Vancouver while night flights are being made from Winnipeg to Regina. The purpose of these is to experience the pilots in that type of flying. The first leg of the Trans-Canada east of Winnipeg will be to Kapuskasing.

The Minister explained the agreement under which Canada participates in the Trans-Atlantic service. This was covered in the legislation passed by Parliament earlier in the session. It embraces the United Kingdom, Eire and Canada.

A company is being formed, with the British Government holding 50 per cent of the stock, Eire and Canada 24 1-2 per cent each. Each country designates its operating company, in the case of the United Kingdom, Imperial Airways, and the Trans-Canada Air Lines in Canada's case.

The committee adopted the annual report of the Canadian National Railways, the Canadian National (West Indies) Steamships Ltd., the first annual report of the Trans-Canada Air Lines, and the annual report of the Canadian National Railway securities trust.

The committee approved estimates amounting to $2,278,000, under the Maritime Freight Rates Act, $860,000, under the same act, for the constituent companies in New Brunswick, Nova Scotia and Quebec, $35,000 for the Prince Edward Island Car Ferry, and $24,000 to the Canadian National Steamships (West Indies) Ltd.

Railways Plan Further "Pooling"

(C.P. By Guardian's Special Wire)

OTTAWA, April 27—Agreements between the Canadian National and Canadian Pacific Railways for the abandonment of two short stretches of railway line, one in Nova Scotia and the other in Western Ontario, will shortly come before the Board of Railway Commissioners for approval, it was learned here today.

The agreements were worked out in accordance with the co-operative policy the two railways are directed to pursue by act of parliament and are designed to eliminate duplicating services.

Along the north shore of Nova Scotia the C. N. R. proposes to abandon its line between Middleton and Bridgetown which parallels a C. P. R. line for a distance of 14 miles and also the extention of this line to Granville centre making a total abandonment of 23 miles.

Probe Drowning Of Minister's Wife

(A.P. By Guardian's Special Wire)

ORLEANS, Mass., April 27—Continuation of an investigation into the death of Mrs. Mary Snively, 51, Wellesley graduate and wife of Rev. Alfred Snively, Whitinsville Episcopal minister, was ordered by District Attorney William C. Crossley today after a medical examiner's finding of "death by drowning."

State Detective Lieutenant Ernest S. Bradford, who had previously expressed an opinion that Mrs. Snively was a suicide, was directed by Crossley to continue his inquiry after doctors who performed an autopsy said the woman had drowned but that the manner of drowning was undetermined.

Demand Higher Price For Herring Catch

(C.P. By Guardian's Special Wire)

NORTH SYDNEY, N. S., April 28—North Sydney herring fishermen took their nets up today and declared they would not carry on further fishing for the local market until they had reached a price agreement with buyers.

The fishermen decided, however, to supply the Lunenburg and Newfoundland bankers with herring for baiting purposes "at a just and reasonable price."

The decisions were reached at a special meeting of members of Fishermen's Union, local No. 53, representing about 200 men fishing out of North Sydney. The meeting was presided over by Captain Claire Flander.

The union had sent a committee to wait on local buyers and ask a flat price of $1.50 a barrel for their catch during the spring. When, in request, they filed their demand in writing, they received no reply from the buyers, it was claimed.

Withdrawal Of Oyster Bed Leases Urged

OTTAWA, April 27—(CP)—Withdrawal of all leases granted for oyster beds in the tidal waters of Prince Edward Island was urged in a petition presented to the House of Commons today. It was signed by Ellsworth Gillis of Ellerslie, P. E. I., secretary of fishermen's union no. 8.

The petition declared the judicial committee of the Privy Council had held the granting of such leases was ultra vires the Dominion Parliament and failing withdrawal of the present leases, advocated a reference to the Privy Council on the question. It was presented by A. E. MacLean (Lib. Prince).

The department of fisheries has granted more than 400 leases along the shore of Prince Edward Island in an attempt to build up an oyster-farming industry. The maximum area leased to an individual is five and one half acres. The rental is $1 an acre a year and after five years a royalty of 10 cents a barrel on all oysters taken becomes payable.

Former Resident Of Summerside Dies At Chipman, N. B.

Friends in Summerside will learn with regret of the passing of Mrs. Annie Alward, whose death occurred on Tuesday at the home of her daughter, Mrs. Sutherland at Chipman, N. B.

Mrs. Alward was the widow of Nelson Alward, a former resident of Summerside, who died some few years ago. Before her marriage Mrs. Alward was Annie Thomas, daughter of the late Robert Thomas of St. Eleanors. Mrs. Alward resided for many years in Summerside where she was loved and honored for her beautiful christian character and kind disposition. For some years past Mrs. Alward has resided with her daughter.

There are left to cherish her memory four daughters, Mrs. A. R. Brennan, Summerside; Miss Lois of Ottawa; Mrs. Sutherland, Chipman and Mrs. Raymond Dill, Hampton, N. B., to whom much sympathy is extended. Mrs. Brennan who went over on Friday last to be with her mother will accompany her mother's body to Summerside and is expected to arrive this afternoon. —S

Nazis To Confiscate Jewish Property

BERLIN, April 27—(AP)—A high authority tonight disclosed the German Government plans to take over all Jewish property "in due course of time" and to encourage Jews to emigrate from Germany.

This disclosure was made in explanation of a new decree requiring the approximately 250,000 Jews in Greater Germany to register their fortunes and properties both at home and abroad.

The decree was issued today by Field Marshal Hermann Goering, No. 2 Nazi, as director of Germany's four year plan to gain economic independence.

"This decree is intended to place on a legal footing the gradual elimination of the Jew from German business life, in that he is to be assured that the properties declared are actually his and will not simply be taken away from him by unauthorized action" the authority said.

Once the exact figures are known he continued, the government can proceed with its plan.

Ship Eight Months Without Fumigation

HALIFAX, April 27—(CP)—The City Freighter City of Auckland had not been fumigated for about eight months before she arrived at Halifax early in March with a case of small pox aboard. Dr. D. J. Douglas, quarantine officer at Halifax for the Department of Pensions and health, declared today before a royal commission investigating the death of an East Indian.

Tian Tobcaka, a member of the vessel's crew was taken to Camp Hill Hospital and later removed to the quarantine station at Lawlor Island, at the mouth of the harbor, where he died. Two orderlies that attended him at Camp Hill were still recovering, having caught the disease that sent almost half the population of the city to physicians for vaccinations.

One Dead, Seven Hurt In Iron Mine Blast

ST. JOHN'S, Nfld., Apr. 27—(CP Cable)—An explosion believed to have been caused by gas killed 30-year-old Samuel Chaytor and injured seven fellow-workers severely in No. 6 iron mine at Bell Island today. The injured miners were rushed to hospital in St. John's for treatment.

The Wabana ore mines on Bell Island, 20 miles from St. John's, are owned by the Nova Scotia Steel and Coal Company.

3 Sore Corns Caused Acute Lameness

"Painful corns almost ruined my toes. I could scarcely walk, but just a drop or two of Putnam's Corn Extractor on my three sore toes—and out came all the pain. I got glorious relief from Putnam's Corn Extractor; it left the skin on my toes smooth as a baby's cheek." This was the delightful experience of James McGuire, who recommends the use of Putnam's Corn Extractor.

BRITISH

(Continued from page 1)

increase was certainly preferable to Mr. Chamberlain's tax last year on profits—the national defence contribution scheme. But he protested against the tea tax and the differentiation against one particular industry. This was a reference to the increase in oil taxes which will affect the automobile industry heavily.

He would have preferred the following six methods toward obtaining needed revenue:—

An increase in the surtax,
An increase in death duties,
Economy and elimination of waste,
Taxation of land values,
Revival of overseas trade by reduction of tariffs and abolition of quotas, and
Adoption of the Van Zeeland report aimed at economic appeasement in the world.

Foreign Policy

There should be a constructive peace policy by collective resistance to aggression, he argued. Britain should make it clear there was no grievance, financial, economic or colonial which she was not willing to submit to third party arbitration.

Sir Archibald said the "austere and honest" budget submitted by Sir John Simon as Chancellor of the Ekchequer followed the policy of his predecessor (Mr. Chamberlain) and and which the government have been following for the past six years."

Fresh taxation was made necessary by that policy, he said. But he admitted the need for rearmament. Foreign governments would be mistaken if they reckoned on the British taxpayer faltering.

He deplored large profits some aircraft manufacturers were making and was disqueted about waste in various directions of the rearmament plan. The defence coordination minister, Sir Thomas Inskip, had not saved the country from the old device of departmental scramble "in which the Admiralty always scooped the pool."

For Labor Mr. Pethick-Lawrence accused the government of error.

"You say you are started on the road to reconciliation," he said, looking toward the treasury benches.

"We ask what evidence you have. In Ireland you have been in time to recall the bankers your government made a few years ago. In Germany you are yielding to autocracy what you refused to give to justice and democracy. In Spain you throw away democracy and freedom when you allowed non-intervention to become a farce. What form will appeasement take when there are no more weak nations to be flung to the wolves?"

The budget was a war budget, he said. "If there is to be war, if greater sacrifices are still to be demanded, the Labor party has no intention of sitting idly by while rich men make themselves richer."

Toronto Reliefers On Protest Strike

TORONTO, April 27—(CP)—Fifty men marched to a York County road work relief project in Toronto township today and asked that six who remained on the job join them in a protest strike.

The six stayed on the job under Provincial police surveillance and the strikers marched away to plan another attempt to obtain emergency relief vouchers that would augment what they claim are "starvation" allowances. All have been paid their full April allowance, and Reeve E. D. Maguire claims the township is "powerless to pay more.

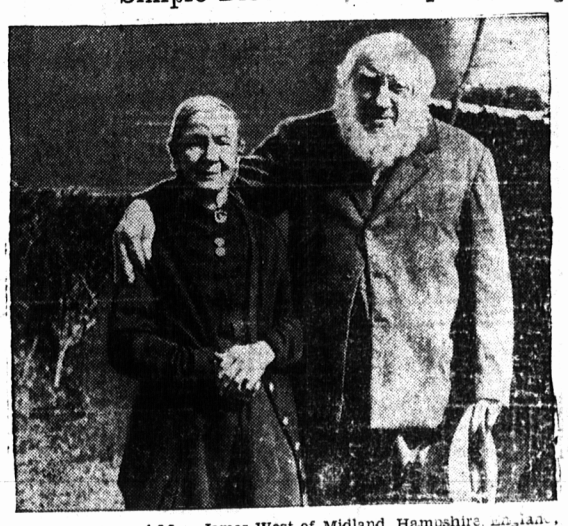
Simple Diet Their Recipe



When Mr. and Mrs. James West of Midland, Hampshire, England, celebrated their 75th wedding anniversary recently, they advocated plain living as a means of reaching a ripe old age. Mr. West who is 98 years old started work as a bird scarer in the "Hungry Forties" when his usual breakfast was an apple and a piece of bread. Our photo shows the couple as they celebrated their 75th anniversary. About 100 of their children descendants are still living. They had 14 children and are proud of the fact that no serious quarrel has
