

What are Humors?

They are vitiated or morbid fluids coursing the veins and affecting the tissues. They are commonly due to defective digestion but are sometimes inherited.

How do they manifest themselves? In many forms of cutaneous eruption, salt rheum or eczema, pimples and boils, and in weakness, languor, general debility. How are they expelled? By

Hood's Sarsaparilla

which also builds up the system that has suffered from them. It is the best medicine for all humors.
