Convention Tenders Unanimous Nomination To Premier & Colleague

Rousing Conservative Convention In City Building Last Evening. Provincial And Federal Government Policies Wholeheartedly Approved.

Premier the Hon. W. J. P. MacMillan and Mr. W. A. Stewart, M.L.A., were unanimously re-nominated as Conservative candidates for the Fifth District of Queen's (Charlottetown and Royalty) at a largely attended convention held last evening in the board room of the City Building.

There was a full representation from every poll at the meeting, at which enthusiastic indorsement of the policies both of the provincial and federal Conservative administrations was expressed.

An ovation was rendered by the convention to the candidates on the announcement by the chairman, Mayor Kennedy, president of the Queen's County Conservative Association, declaring them to be duly re-nominated.

Premier MacMillan's re-nomination was moved by Mr. W. D. Gillis, seconded by Mr. J. Frank McQuigan.

Mr. Stewart's re-nomination as Assemblyman was moved by Mr. Patrick Curley, seconded by Mr. J. A. Currie.

An address, reviewing the political situation, of which a summary appears elsewhere in today's Guardian, was delivered by the Premier.

Warm commendation of the work of both representatives was expressed by the chairman in a brief opening speech.

Mr. Stewart, who followed the Premier, voiced appreciation of the honour conferred on him and thanked the support given him in the last provincial election. He had the fullest confidence in the result of the coming contest. He paid an enthusiastic tribute to his colleague, Premier MacMillan, whose untiring zeal and ability had proved an inspiration to every one associated with him. Mr. Stewart also dealt briefly with organization matters.

A short address was also made by Mr. L. P. Tanton, who then moved, seconded by Dr. McIntyre, the following resolution, which was carried unanimously:

"Resolved that this convention of Liberal-Conservatives of Charlottetown and Royalty express our

Rejects League Resolution Re Rearmament

Germany Will Observe Territorial Clauses Of Versailles Treaty. Speech Clarifies Situation.

(Copyright 1935 By The Associated Press)
(A. P. By Guardian's Special Wire)

BERLIN, May 21.—Reichsfuehrer Adolf Hitler tonight blamed Europe's danger-fraught armaments race squarely on nations victorious in the Great War which imposed the Versailles Treaty upon Germany.

In an impassioned address to the Reichstag, summoned into special session, he scathingly denounced other powers for violating the peace treaty's arms limitations, thus forcing the Reich to rearm.

Thunderously cheered as he pronounced his eagerly awaited address on foreign policy, broadcast to millions throughout Germany and Europe, the Fuehrer again protested Germany's desire for peace.

Favors Peace

"If Germany of today favors peace," he said "it favors it neither out of weakness nor cowardice. We desire every war for the substitution of foreign powers.

"Germany of today is immersed in the tremendous work of repairing its domestic damages. None of our subjects of a factual nature will be completed before 10 or 20 years. None of our tasks of an ideal nature can find its fulfillment before 50 or even 100 years.

"What else could I desire but quiet and peace?"

Declaring the present "veritable mania of collective and co-operative effort... the spiritual property of the American President Wilson," Hitler said the Versailles Treaty pronounced the death sentence upon "the collective, cooperative efforts of nations."

Shuns Security System

He said flatly Germany would not join any general security system which might compel Nazis to fight on the side of Communism because insofar as Bolshevism "also drags Germany within its scope, we are its bitterest and most fanatical enemies."

After his denunciation of the Versailles Treaty Hitler said: "Not only did other nations not disarm but on the contrary they

EXHIBITION OF WORKS OF WATER COLOR ARTISTS

Exhibition Officially Opened By Premier MacMillan Last Evening.

Premier MacMillan in opening the exhibition of the works of Canadian water color artists at the Harris Memorial Art Gallery last night urged that the people of this province encourage handicraft as well as the fine arts.

He congratulated the newly formed society for the initiative and public spirit shown in interpreting one of the many wants in the public welfare.

More attention should be paid to music in the schools. Other countries were far ahead of this country in that regard. The Little Theatre movement, sponsored by Lord Bessborough, community concerts, and art associations are playing a worthwhile part in the life of Canadians, the Premier said.

It was his privilege, he continued, to open an exhibit of handicrafts in Montreal next week. The Premier would like to see the old wooden looms of Prince Edward Island working more steadily, turning out home made fabrics.

His word to the makers of hooked rugs was to pay more attention to design as were the people of Cape Breton and Eastern Nova Scotia.

"And now," Premier MacMillan declared, "in this wonderful building perpetuating the name of Prince Edward Island's most famous artist, I take great pleasure in declaring open this exhibition. I warmly congratulate those who have formed this art association which has brought the collection of paintings to Charlottetown."

States Policy Of Government

Opposition Misstatements Challenged In Fighting Speech By Premier MacMillan At Conservative Convention Last Night.

The intention of the Government, with federal financial assistance, to extend this year the trans-Canada highway from Charlottetown to Borden, on which a start was made last fall, was announced last night by Premier MacMillan in addressing the Conservative convention at which he and his colleague, Mr. W. A. Stewart, M.L.A., were unanimously re-nominated.

The announcement was greeted by the convention with a storm of applause.

"We will do it this year," the Premier stated, "and it will be a guaranteed road. There will be no experiment about it."

The highway will be of a hard-surfaced gravel-base, permanent type, and will prove of immense advantage not only to the travelling public locally, but in attracting tourist traffic.

He was convinced the Premier declared that this was the only type of road value for the main highways of the Province, from the standpoint of permanent service and economy.

The Southport Project

Answering Opposition criticism with regard to a portion of the Southport experimental highway which had proved unsatisfactory, the Premier stated the Government's policy had been clearly explained in the Legislature. The defective part of this project was constructed over bad road conditions. The contracting company was replacing it with a gravel-ashphalt road at their own expense.

THE LEA AMENDMENT

The Opposition leader, the Premier said, had moved, at the last legislative session, for a reduction in the Estimates in the Public Works Department sufficient to balance the budget. "That being analyzed means that the Public Works Department to do one-third of the ordinary maintenance work on the roads, let alone any hard-surfacing or improvements. That would have been the result of Mr. Lea's motion had it carried. Of course it was only made for the purpose of embarrassing the Government; and of course they didn't succeed." (Applause)

The Opposition, continued the Premier, had contended that the trans-Canada highway should be built wholly at federal expense. "It is true Premier Bennett would have given us a road up to the standard of the trans-Canada highway in other provinces, with maintenance for some years, but we refused to take it, because it was a rock bottom with gravel top. I leave it to you, gentlemen, whether our judgment was correct or not. But we heard the Liberal Premier of Nova Scotia, Hon. Angus Macdonald, say that since the improved road policy came into effect in 1920 Nova Scotia had spent \$40,000,000 on gravelled highways, and they were worse off than we are. If you travel through you will find the proof of that statement. It has been found in those Provinces that gravelled roads are the most expensive roads to maintain."

No Province in Canada, continued the Premier, had made a better bargain than did Prince Edward Island with the Federal Government in the matter of highway assistance. \$5,500 a mile is being paid federally on the

Urge Conference To Deal With Vital Problems

(A. P. By Guardian's Special Wire)
WASHINGTON, May 21.—A resolution requesting President Roosevelt to call an international conference in Washington to consider a "common sense" cure for the world depression, including a five-year armament holiday and a jump sum settlement of the war debts, was introduced today by United States Senator Tydings (D., M.D.).

He also listed stabilization of currencies by international agreement and revival of world trade through tariff adjustment as subjects for the proposed conference. In a speech he said these four questions were "vital for recovery and for the protection of civilization."

As a basis for discussion at the international gathering, he recommended the plan "liquidating world depression" recently advocated by Salmon O. Levinson, Chicago lawyer and authority on world peace.

Non-Aggression Pact

Germany nevertheless is willing, the Fuehrer told the legislators assembled in the Kroll Opera House, to sign non-aggression pacts with all European nations save Lithuania, "not because we can not enter into a political agreement with a state which disregards the most primitive laws of human society."

"Germany has nothing to gain

EDEN IN ROLE OF CONCILIATOR

League Grapples With Italo-Ethiopian Dispute.

(A. P. By Guardian's Special Wire)
GENEVA, May 21.—League of Nations statesmen tonight were busy disputing over African frontiers, while Anthony Eden, British Lord Privy Seal, cast in the leading role as conciliator.

There were fresh rumors that Italy might desert the League of Nations, even as Japan and Germany have done, if an inquiry by the League should be voted at the current session.

Eden's role was not an unfamiliar one. He it was whom observers credited with quieting Yugoslav-Hungarian passions, aroused by the assassination of King Alexander of Yugoslavia at Marseille last October, which Yugoslavia blamed indirectly on Hungary.

The youthful diplomat was striving to arrange some compromise agreement, perhaps economic in nature, which would remove the necessity of the League's investigating the dispute.

Hampering his efforts, however, was the insistence of Emperor Haile Selassie of Ethiopia that the League examine the controversy. A personal telegram from the Emperor last night accused Italy of "aggression and rapacity against our people," and using propaganda "in an endeavor to justify her occupation of our territory."

Mayor Kennedy, President, Queens County Conservative Association.

Judgment In Inquiry Postponed

MONTREAL, May 21.—Judgment in preliminary inquiry into a charge facing seven Montreal men and a native of Halifax of conspiracy to defraud the Dominion Government, of \$5,000,000 through the smuggling of liquor was postponed by Judge Jules Desmarais today.

Judge Desmarais said he would probably announce his decision early next month. The accused are the four Bronfman brothers, Sam, Allan, Abe and Harry, Dave Costley, F. S. Blair and Barney Aaron, all of Montreal, and William Yule, of Halifax.

Canada's Credit In U.K. Destroyed By Ontario Govt.

OTTAWA, May 21.—Canada's credit in the United Kingdom was destroyed when the Ontario Legislature cancelled the Quebec Power contracts, Premier R. B. Bennett told the House of Commons today. It will cost Canada \$700,000 a year for 20 years because it forced abandonment of a \$28,000,000 conversion loan in London.

When he was in London last fall, Mr. Bennett said the Government's brokers considered the time was ripe for a conversion loan. But he continued, "the public credit of Canada was injured to some extent in London by the Vancouver incident, so-called, but whatever was left was completely destroyed

The Fishing Season!

On May 24th many a man sallies forth for his first day's fishing of the year, and outdoor activities bring outdoor appetites. So be sure to have a plentiful supply of cookies, doughnuts, and other Schwartz-baked goods prepared by men-folk.

Dorset Moors Final Resting Place Of Col. Lawrence

WOOL, Dorsetshire, May 21.—Col. T. E. Lawrence, the glamorous Lawrence of Arabia, was buried today in a grave unmarked by wreath or stone.

In the Dorset moors, far from the scene of his desert triumphs, Lawrence's victim of a motorcycle accident, was buried with simple rites in the little burial plot at the village of Moreton.

Tears welled in the eyes of a few of the mourners as the plain coffin was lowered into the grave. Winston Churchill, wartime Minister of Munitions, made no effort to conceal his emotions.

There were no words of praise spoken at the burial of the 46 year old man whose career had become a saga of heroism while he yet lived.

There was a 17-minute funeral service in the tiny church at Moreton which seats but 170 persons. Then the casket was borne by the pall bearers to a four-wheeled handcart, upon which the body of "Lawrence of Arabia" made the last journey.

A coroner's jury earlier decided Lawrence, who was fatally injured May 13, met his end accidentally. Corporal Ernest Catchpole testified he saw Lawrence swerve his motorcycle to avoid hitting an automobile, and collided then with a butcher's boy's bicycle. The witness said Lawrence was moving at a speed of between 50 and 60 miles an hour when he struck the
