The ceremony was performed by Rev. J. M. McLeod, of St. Peter's, cousin of the bride, in the presence of the immediate family and friends of the contracting parties, the parlors being very prettily decorated for the occasion. The old saying "happy is the bride whom the sun shines on" never was demonstrated better than on this occasion, it being a perfect day. The bride's costume consisted of a white silk dress, with lace and pearl trimmings, and she carried a magnificent bouquet of white flowers. Miss Alice Matheson acted as bridesmaid and Mr. Roy MacLaine, of St. Peter's, as best man. The flower girls were two nieces of the bride and groom, Miss Kathrine Matheson and Miss C. Ulling McKay. After congratulations were showered on the happy couple at the close of the ceremony, refreshments were in order and carriages taken to Dundas, the future home of the bride and groom, where a sumptuous wedding supper was served. WOMEN'S PATRIOTIC MEETING
—At the Armouries yesterday afternoon forty enthusiastic ladies of the P. E. I. Women's Patriotic Association were gathered together to consider how best they could further the interests of the Red Cross Society, in co-operation with which laudable institution it is working. The meeting, which began at 2.30 o'clock, was presided over by Mrs. Rogers, of Government House. There were in use two hand-sewing machines and three sewing machines, one of which was very kindly lent by Mr. Forsyth, of Miller Bros. The ladies highly appreciated Mr. Forsyth's kindness. A large number of names were added to the membership roll and several contributions were received by the Treasurer, Mrs. Chas. Lyons. This is a splendid beginning, and donations in money or in the form of suitable material are requested by the Association. The hall was placed at the disposal of the ladies by Col. Peake.

WASHINGTON, Aug. 27.—The French embassy to-day received from its foreign office, dated yesterday, the following: The move begun yesterday by the Commander-in-Chief has been followed all day by the greatest method and the enemy is unable to stop it. It is confirmed five army corps of the French-Prussian guard was much exhausted. The Prussian guard was attacked terrifically by the Algerians and suffered great loss. The Prussian attack on Nancy was again unsuccessful. The Belgians coming from Emburse have been able by an energetic offensive movement to recapture Malines and push back the Germans to Vilvorde.

The Russians are moving forward with great energy. Their move in Galicia routed a cavalry division. The Serbs have routed the Austrians from Chibez and their own territory. The spirit of the population remains excellent. They will fight to the finish.

SPAIN ALSO

MADRID Aug. 27.—The Imperial and Diario editorially appeal to Spain to join France and England against Germany.

UNITED STATES AND HOLLAND

LONDON, Aug. 27.—The Daily Chronicle warns the English Government of the danger of England becoming embroiled with the United States over questions contraband of war and argues that any estrangement between the two countries would be the extreme of bad management.

"It must be a guiding power of British Government," it says, "to direct its naval policy so that we may not become embroiled with any neutral power. In nearly every war of the past two centuries we incurred this danger."

"The only really powerful neutral at the present time is the United States. If there is wise statesmanship we shall remain in perfect unity with that Power, as well as with the Netherlands, which possesses the great gateway leading to the heart of Germany. The United States possesses the right to send cargoes to Rotterdam and will exercise that right. We must be prepared to see neutral American vessels discharging cargoes in Holland ports."

LONDON, Aug. 27.—A St. Petersburg despatch to the Reuter Telegram Company says that the Russian troops in Eastern Prussia have occupied the towns of Nordenburg, Sensburg and Bischofsburg and the railway station at Rothnie, and that the Russian advance continues. In Eastern Galicia the Russians have driven back the Austrian rear guard beyond the river Lipa, which runs north and south, about thirty miles west of Tarnopol.

A report was in circulation this afternoon that Russian troops yesterday occupied Marjenburg, in West Prussia, 7 miles southeast of Danzig. This news has not been confirmed from any other source.

A despatch from Bucharest says that the Russian columns invading Galicia have occupied Tarnopol, an important city, eighty miles east, southeast, of Lemberg, capital of Galicia. Three Austrian army corps are said to be opposing them.

THE BATTLEAT MONS

PARIS, August 27.—A Belgian who escaped from Mons told the International News Service today "The terrible din of thundering artillery and shells burst over town in all directions. The inhabitants who had not fled from the town rushed into cellars and barricaded their doors. We were unable to see the actual fighting but when I left Mons the town was utterly wrecked. Bodies lay in piles everywhere. Some were terribly mutilated by shells. As I rushed from the town during a lull in the battle, I witnessed one thrilling episode of the engagement. I was hidden in a densely wooded district of the forest from which I saw column after column of German infantry emerge. The French were waiting for them and their heavy guns and mitrailleuses belched a continuous stream of lead upon the enemy. It was a tempest of flame. Bullets from mitrilleuses mowing down the enemy with terrifying precision. But still the Germans kept marching from the woods onto the roads. I saw a German aeroplane struck down with a shell fired with deadly accuracy from a French gun. Amid all this frightful carnage what most impressed me was the devastating effect of the French artillery fire."

All accounts agreed on this point. A surgeon major, writing from the eastern frontier says "for an hour sheltered under a low wall I was two hundred feet from a French battery working magnificently. During the hour six hundred German shells fell near this battery. One first hears a dull boom then as the shell flies over head with a screaming whistle it bursts with a deafening explosion and with dense smoke the lead strikes down trees and anything else within reach. I saw one shell alone kill the second Lieutenant and gunner and wound a Lieutenant, and five men. I noticed among the officers and men there seemed to be no thought of death one gunner said to another in the street, "What, not dead yet?" and today", was the reply, "I will let you know when I am."

A Great World Industry is Yet in Its Infancy

FOX FARMING is one of the most lucrative business enterprises in the world today.

"It is fortunate that Prince Edward Island has boldly entered this field of industrial activity, while the enterprise is YET NEW and while the rewards are so great and the prospects so bright as they are at the present time".
