

Provincial News of the week for Saturday Subscribers.

MONDAY.

Belispe Division, No. 206, New Haven, is in a flourish condition. At the present time interesting meetings are being held every Thursday night.

Among the resolutions that will come up for consideration at the Farmers Institute Convention in Summerside on Tuesday are: (a) Resolved that it would be in the interests of Agriculture in the Maritime Provinces to have the Maritime Seed Fair held in Summerside in the month of March, instead of as at present, at Amherst in Dec. (b) Resolved that it would be in the interests of Agriculture in P. E. Island to have all the weeds named in the Provincial Weed Act...

A letter has been received by The Guardian from B. L. Woodside, Secretary of the Seattle Exhibition, and reads as follows. Seattle, Wash., June 24th. To The Editor Guardian—Dear Sir Your letter to hand with thanks for your good wishes for the success of the P. E. Club.

How Weak Girls May Grow Into Strong Women

The Blood Supply Must be Kept Rich, Red and Pure—Good Blood Means Good Health

Healthy girlhood is the only path to healthy womanhood. The merging of girlhood into womanhood lays a new tax upon the blood. It is the overtaxing of the scanty blood supply that makes growing girls suffer from all those headaches, backaches and side aches—all that paleness, weakness and weariness—all that languor, despondency and constant ill health.

The prohibition case against Daniel Murray on Saturday morning adjourned for one week. The case against Brydges, Hanna and Smith was adjourned till today. The little boy Dolron charged with stealing comes up in the City Police Court today. A prohibition summons has been served upon Edward Higgins in connection with the recent search on his premises on Water Street. The summons is returnable tomorrow.

and visitors from foreign countries are more than pleased, in fact, delighted to find such a fine Exposition, many stating it far exceeds their most sanguine expectations. The P. E. I. Club meets the second and fourth Wednesday of each month (and for the present is meeting in T. M. A. Hall 774 3rd Avenue). It has now a membership of about 100 members and is continually adding to its number. They will open a register containing names and addresses of all persons known to them and what part of P. E. I. they came from. A copy of this directory and register will be found at the Kennedy Hotel in the Madison room, corner of Ninth Avenue. To all visiting Islanders and to all former residents of P. E. I. we recommend the above Hotel. We have their rates which they guarantee will be under no circumstances be advanced, during the A.Y.P. Exposition. They further guarantee us that they will care for all our guests. They desire, however, that intending guests would notify them directly or through the Secretary of the Club, B. L. Woodside, 2004 East Union Street, Seattle, a few days in advance. As the P. E. I. Club wish to have the directory and register made a record book they are desirous to have every visiting guest sign the register. This includes all residents, or former residents of Prince Edward Island.

The Club has planned and decided to have a P. E. I. day at the Exposition on September 20th. This will give Islanders an opportunity of meeting old friends and will no doubt be a most enjoyable time. The Club has issued a hearty invitation to all residents, their sons and daughters, husbands and wives and former residents of P. E. I., to join with us on that occasion and will be pleased to extend to them the glad hand, known to all Islanders.

I might here state that the Exposition has very kindly placed for the day a hall and land for our convenience, and the Committee are negotiating with some well known P. E. I. orators for the occasion. Will you residents and former residents of P. E. I. come out and help us make this the day of days and something that Prince Edward Island will be proud to have. You will meet many of your old friends who will make you feel as though it was good to be there. The Secretary is at all times willing to give all information possible. His address is given above. We herewith give you names of Islanders now residing in Seattle and vicinity:

- Burns, Alex. and family. Bell, R. P. Mrs. and family. Bell, Harry and Mrs. Bell, Benjamin and Mrs. Bruce, J. M. Boyd, Mrs. (Nee Inula McNutt). Bramble, Mrs. (Nee Cassie Lacy). Burns, A. P. and family. Cameron, Alex. and Mrs. Casson, Thos. Cooper, Miss Julia. Cooper, Miss Netta. Carroll, J. A. and Mrs. Carter, Mr. and Mrs. Clark, Miss Edna. Clark, Mrs. Geo. Coggins, Mr. Chappin, J. A. and Mrs. Dammarell, Leal e. Dorn Henry. Deehan, Thos. Draper, Mrs. Chas. (Nee Christine Gunn). Enman, L. D. Ellis, E. E. and Mrs. Higgins, Geo. J. Howard, R. Hall, J. B. and Mrs. Hall, Alfred. Huley, Miss Loretta. Jardine, Miss Emily. Johnson, Jos. Johnson, Archibald. Kaiser, Mrs. Wm. (Nee Bessie Oaks). Kellar, Mrs. G. Lawson, W. Lewis, W. C. Moore, Dr. W. G. Mr. and Mrs. Muirhead, J. C. Murphy, J. B. and Mrs. Mathieson, A. and Mrs. May, Geo. and Mrs. McCombs, G. and Mrs. McKinley, Rev. C. E. and Mrs. McDonald, Joseph and Mrs. McDonald, Neil. McLean, John and Mrs. McLean, Wm. McKinnon, Miss A. L. McDonald, Peter. McDonald, J. W. McLeod, Edgar. McEachern, Margaret. McDonald, Chas. and Mrs. McLeod, J. A. McKinnon, Dr. J. A. and Mrs. McDowell, Mrs. (Nee Miss Rood). McEan, Allen and Mrs. McQuilty, John. McIsaac, John. McLeod, John. McLean, Allen. McDonald, Hugh A. McKay, J. N. McDonald, J. J. MacQuaid, J. F. McIntosh, A. E. McPherson, Jas. McLeod, James. McDonald, Wm. McDonald, Ioyd. McDonald, Harry. McFarland, G. W. MacQuaid, Ed. Nicholson, Dr. D. A. and Mrs. Nicholson, Dr. M. J. O'Neil, J. O'Brien, Father J. E. O'Brien, Lawrence. Pendergast, W. L. Profit, John R. and Mrs. Powers, J. D. and Mrs. Patterson, J. J. Sharp, A. J. and Mrs. Sherry, A. P. and Mrs. Severn, H. C. (Nee Ethel Burns). Stratton, W. B. Mrs. (Nee Jean Rodd). Stewart, Alex. Taylor, Duocan. Tombs, W. W. and Mrs. Vanborn Mrs. (Nee Pearl Schurman).

Bel, Betta Miss. Callock, W. H. and Mrs. Hughes, J. Gunn, Oliver. Gunn, Miss L. J. Howard, Dr. and Mrs. McRae, John and Mrs. Morrison, Robert. Ferguson, Alex. Ferguson, George. McVittie, John. Myers, Sumner. Smith, Marcel. Humber, Mrs. Oakes, Allan. Mrs. Greave (Annie Myers) Mrs. Frank Poster (Miss Bowness). Mitchell, Mrs. Eds. (Nee Emma Oakes). Robertson, Fred. Cameron, Harry. McKinnon, Theo. Calbeck, Thos.

The case of Ernest Dorion, charged with store-breaking came up for hearing in the City Police Court yesterday. The little boy was released upon suspended sentence.

The marriage takes place on Wednesday in Manitowish, Wis. Grace Gordon, teacher, daughter of Faded Gordon, Roseneath, P. E. I., to Mr. Woods a prominent farmer and rancher.

A valuable horse was forwarded from Fort Augustus to James Mc Donald V.P.S., Summerside, last week to undergo an operation. The doctor removed a tumor from the horse's shoulder, weighing 5 lbs. The animal is doing well.

Shortly after the big London Show opened up in the skating rink last night the grand stand gave away and about 300 persons were precipitated to the floor and a number of persons were slightly injured, but for the most part escaped serious injuries. Among the number were W. S. Garrison, a well known fruit agent who did not fare so well, having received a broken leg which will cause him to be laid aside for some time. Order was restored and the show went on without further accident.

A congregational meeting was held in St. Paul's school room last evening. Mr. Justice Fitzgerald was elected chairman and presided. A committee of fifteen members were appointed to arrange about the securing of Mr. Woodroffe's successor. Percy Pope and the Hon. A. B. Warburton were appointed to draft a reply to the Rector's resignation. Some informal committee then took place after which the meeting adjourned. The committee appointed will meet and report on Monday August second.

The Guardian had a pleasant visit yesterday from E. J. Campbell, Heatherdale, who returned on Saturday evening from a two months visit to the Old Country. Mr. Campbell enjoyed his visit very much and although it is many years since he visited his old home renewed many acquaintances among relatives and friends at Kilmulhe, Isle of Skye. Mr. Campbell says that the Isle of Skye has been taken from the landlords and is being resettled by prosperous who are looking forward to prosper years. Among the old homesteads which he was personally acquainted with was that of Mr. Montgomery, father of late Superintendent of Education of this Province. The ruins of the old homestead still remained until torn down this season to make way for a more modern house.

...A pretty wedding took place in the Cathedral of the Holy Cross, Boston, Mass., on June 27th, when Teresa Connolly, daughter of Bernard and Mrs. Connolly of Morell, was united in marriage to Joseph Mooney, son of the late John Mooney, of Peake's Station.

...A rather unusual accident occurred to No. 31. Railway engine, attached to the eastern mail train, Saturday evening. While standing on the wharf the main boom of the schooner Lizzie Catherine, when being turned around, came in contact with the engine, breaking the piston on which the bell was suspended, causing the bell to fall into the water.

...The marriage takes place Tuesday morning, at St. Mary's Cathedral of Louis Couvelier, merchant, of the city to Miss Minnie King, of Prince Edward Island. Rev. Father McQuillan officiated. The bride wore a costume of brown with large white picture hat to match and carried a prayer-book. She was attended by Miss Florence Johns who wore a costume of brown with large white picture hat. James Myers acted as the best man. After the ceremony the happy couple left by the D. A. R. for a short trip through the Province—Halifax Herald.

...At a meeting of the Onward Institute held in Georgetown on Friday evening, the program of the Prince County Institute Convention came up for discussion. It was decided to leave it over for a future meeting, but it was considered advisable to take action on two of the resolutions which had already been discussed at former meetings and the following resolutions were moved by Allison McDonald, seconded and carried unanimously. (1) Resolved that we the farmers of Onward Institute do hereby approve of the action of the Dept. of Agriculture in establishing and encouraging Farmers' Institutes, and would respectfully ask that prompt action be taken to organize in the parts of the province that are as yet unorganized, and further that the whole time of Prof. Ross, who has proved himself capable of organizing and of infusing new life and energy into those already organized, be given to the work of the Institutes. (2) Resolved that we the farmers of Onward Institute desire to place ourselves on record as disapproving of the teaching of Latin in our ungraded schools, and would respectfully urge that it be no longer required for matriculation to Prince of Wales College, and that the course now offered for Third Year students be discontinued that training E. B. McLaren, for teacher training. E. B. McLaren, President, John E. McPhee, Secretary.

The first session of the thirtieth annual convention of the P. E. Island Teachers' Association was held in the Prince of Wales College Hall yesterday afternoon.

The President Inspector Boulter, took the chair at 3.15 o'clock. After the reading of the minutes of the last session, the following committees were appointed. Credentials—Miss Lizzie Noonan, Miss Cornfoot and Miss Brown. Finance—J. Landrigan, H. McLean, Miss Laura Scott. Resolutions—J. D. Seaman, Miss McGrath. Questions—H. L. Smith R. H. Campbell, Justin Hynes, Miss McLeod. Program—Miss Cornfoot, Miss Watson, Miss Finnessey. The President gave a helpful and encouraging address. He urged upon the teachers the importance of giving all the possible attention to the sanitary condition of the school room and surroundings.

The following further particulars have been received by The Guardian with reference to the death of Mrs. W. H. Taylor. "Mrs. Mabel Walsh Taylor, wife of William H. Taylor formerly of Freetown, P. E. Island, who recently entertained The Guardian Party, at the Waldorf Astoria, in New York City, during their tour dropped dead at the home of Mrs. Frank Weatherbee in Waltham, Mass., on Tuesday last week. Mrs. Taylor who was visiting her sister-in-law Mrs. Newcome and her aunt Mrs. W. T. Henderson, both of Dorchester, intended leaving on Thursday of this week with her husband, who was to join her in Boston, for a trip to Prince Edward Island, there to visit Mr. Taylor's parents in Freetown. On Tuesday Mrs. Henderson and Mrs. Taylor visited in Waltham, and there with no apparent signs of ill health she succumbed to heart trouble. The grief stricken husband was reached in New York by telephone and arrived Wednesday morning. A short service was held at the home of Mrs. Henderson in Dorchester and the body was taken to New York City for burial. Mrs. Taylor was thirty-two years of age, her birthday coming on the day she was to have sailed for the Island. Mrs. Taylor was born in Paris, France, of English parents and was one of the leading dressmakers of New York City. Passage had been arranged for a trip to London and Paris, leaving New York July 28.

The picnic for the P. E. I. Orphanage was held on the grounds of the Orphanage, St. Herbert yesterday by the Orphanage.

The affair was a grand success, to say the least, and hundreds of people had the time of their lives. Sports and amusements of various kinds helped to make the day enjoyable. Splendid addresses were given by Rev. Orman, Vernon River, followed by T. MacKay, Summerside, and Rev. D. MacLean, Charlottetown. The last speaker made an appeal to his hearers for voluntary aid in support of the orphanage. His appeal was rewarded by a handsome sum of over \$60, ranging from \$0.15 to \$2.00, even little boys and girls contributed their share. The Reverend gentleman was asked if a small donation would be received from an American, as a respectable looking gentleman moved to the Grand Stand. The reply of course being in the affirmative a two dollar bill was passed into the minister's hands. The generous action was followed by three hearty cheers for the land of the Stars and Stripes. A pleasing feature of the day was a presentation of a handsomely bound Morocco Bible to Mr. MacLean by the members of the Orphanage, for which he tendered his heartiest thanks. The thanks of the committee were tendered to all who had in any way contributed to the success of the tea, particularly the ladies. While a final estimate of the net proceeds had not been given out it is stated by those in charge that the sum of \$1000 must have at least been realized. The picketers returned to the City about seven forty-five, and the Ward's Band who had furnished music during the day paraded through the City to the City Hall where they dispersed.

He urged upon the teachers the importance of giving all the possible attention to the sanitary condition of the school room and surroundings. Care should be taken to see that the children who attend school are clean.

He thought the teachers might do something to improve the present state of affairs, by giving suggestions to the commission now examining into the present state of education in the Province. Favorable comment was made upon the papers set, on the entrance examination to Prince of Wales College for the present year. Following the President's address brief addresses on the present state of education in the Province were made by Prin. Seaman, Inspector McCormac, Prin. R. H. Campbell and others. The following committee were appointed to prepare a list of suggestions for the improvement of the educational system, and suggestions to be forwarded to the Educational Commission or Inspector McCormac Prin. R. H. Campbell or Prin. Bradley. Convention then adjourned to meet today at 9 o'clock a.m., when Dr. S. B. Sinclair of Macdonald College will address the convention.

It was thirty-two years ago yesterday that the so-called Orange Riot took place on Queen St. and Judge Fitzgerald was obliged to read the Riot Act. It is a pleasure to compare those bygone days with the present time for one cannot do so without noticing how much more broad-minded many people have become and what good feeling prevails between Catholic and Protestant.

The highest temperature recorded yesterday was seventy degrees above zero. At nine a.m. the mercury registered sixty-eight above and at nine p.m. sixty-nine above.

The only case occupying the attention of the Supreme Court yesterday was that of an ejectment suit. The Court will open this morning at ten o'clock when argument will be heard.

Tuesday Morning Session of the P. E. Island Teachers' Association was opened at 9.30 o'clock a.m. President Boulter in the chair. Minutes of Monday's Session were read and approved. Dr. S. B. Sinclair of the Macdonald College spoke on "Stages of Child Development." Books written on this subject forty years ago are not worth reading today. The old idea divorced mind and body, and home and school. We are dealing in the child with an active entity not a passive receptacle to be filled up. The child is keenly alert to its education. It must also be born in mind that the same knowledge is not equally valuable in all periods of the child's age, nor is it of equal value in all countries. Seeing that we have a large and growing country we must have a different education to develop leaders for the vast country than would be applicable to the citizens of the British Isles which are territorially fully occupied. To be practical should be the aim of those operating our short system. To have ideals that are apparently beyond our reach, may not result in much good. What we need is to have teacher and parent to study the actual conditions, that are found to exist and combine to improve them. The old idea in education was that the child must be made to do what was required "Lickin' and learnin'." The new view exalts the child—everything must be made easy for the child. If not made easy the child may forget it! Study the child's needs. Create a desire in the child for the things that are best for him. Educate the child to overcome the difficulties that are in the way of the child's acquiring the desired thing. The child loves to overcome difficulties. The teacher has nothing to do, in the first stage of child development, but to help the child to do what he is able to do. Educate the child to overcome the difficulties that are in the way of the child's acquiring the desired thing. The child loves to overcome difficulties. The teacher has nothing to do, in the first stage of child development, but to help the child to do what he is able to do. Educate the child to overcome the difficulties that are in the way of the child's acquiring the desired thing. The child loves to overcome difficulties.

The second stage is from three to six years of age. In some cases there is the Kindergarten—in some places they are not possible. In these days the muscular must be developed. This is the stage where the child loves play—he loves stones. By a series of illustrations in drawing there was clearly shown the nature development of the child, and teachers were urged not to check the natural tendencies of the child but to encourage them in the development of them. The third stage takes the child up to about eight years of age. He likes now to notice things in their serial order. In this stage he watches the development of things in their natural order. The growth of plants etc. In teaching arithmetic difficulties should be introduced as live problems. Make his own rule for solution and then comes drill upon the principle involved. In all teaching there is an educative value. But the business of the teacher is to see that the subject taught is of the most value for the child's education. Here comes the duty of a selection of the subjects to be taught. The next stage takes the child to twelve and fourteen years of age. In this stage the scientific attitude appeals to them. The want now to know the Why. They are able now to apply what they have learned in the earlier stages. School gardens and drawings can and should be clearly related. Half a day spent in the school garden will not hinder the child in his arithmetic, composition, drawing, extension, etc., but will help in making him more proficient in these subjects. This most interesting and profitable address held the undivided attention of the assembled teachers. D. C. McLeod, K. C. James Landrigan, J. D. Seaman, G. W. Hay, B. L., of St. John, N. B., W. J. McLean and J. W. Jones, B.S.A., discussed the address. On motion the thanks of the association were tendered Dr. Sinclair for

The second stage is from three to six years of age. In some cases there is the Kindergarten—in some places they are not possible. In these days the muscular must be developed. This is the stage where the child loves play—he loves stones. By a series of illustrations in drawing there was clearly shown the nature development of the child, and teachers were urged not to check the natural tendencies of the child but to encourage them in the development of them. The third stage takes the child up to about eight years of age. He likes now to notice things in their serial order. In this stage he watches the development of things in their natural order. The growth of plants etc. In teaching arithmetic difficulties should be introduced as live problems. Make his own rule for solution and then comes drill upon the principle involved. In all teaching there is an educative value. But the business of the teacher is to see that the subject taught is of the most value for the child's education. Here comes the duty of a selection of the subjects to be taught. The next stage takes the child to twelve and fourteen years of age. In this stage the scientific attitude appeals to them. The want now to know the Why. They are able now to apply what they have learned in the earlier stages. School gardens and drawings can and should be clearly related.
