**GROWS NEW TEETH AT 90**

At Brushie, Ballyclare, Scotland, Mrs. J. McCullough, aged 90, has surprised herself and her friends by growing a new set of natural teeth.

Under Women Unionists adopted the three E's slogan of "Remember, Remind and Register" during the election registration campaign in Ireland.

**WILL MEAN LOSS OF \$200,000 REVENUE**

**OTTAWA, Dec. 26.**—The restoration of two-cent postage from Canada to all parts of the British Empire, instead of the present three cents, will mean a loss of revenue of about \$200,000, post office officials here figure.

They state that about 20,000,000 letters go annually from Canada to other parts of the Empire, 90 per cent of which go to the British Isles. However, they say that the increased volume will make up a considerable portion of the loss.

**BROTHERS DROWNED**

(Canadian Press)

**MONTREAL, Dec. 26.**—Charles and Robert Gladhill, brothers, 12 and 14 years old respectively, were drowned today when they crashed through the ice covering the Lachine Canal. Two other boys escaped the fate of their companions. The bodies were recovered.

**THE MARKETS**

**MONTREAL, Dec. 26.**—The domestic trade in cash grain showed no improvement today but the tone of the market for Manitoba low grades of wheat was firmer and prices were advanced 1-2c per bushel with car lots of No. 6 wheat quoted at 84c. No. 4 yellow corn was also strong at an advance of two cents per bushel at \$1.05. Other grades were unchanged. The trade in spring and winter wheat flour continued quiet but the undercurrent to the market was steady. A moderate amount of business was done in all lines of milled and values were firm. Standard grades of rolled oats were unchanged. Extreme dullness marked the trade in butter but prices were well maintained. Receipts were 854 packages. The trade in cheese was dull and prices were nominally unchanged. Receipts were 604 boxes. Little business was done in eggs and prices were inclined to be easier for all grades. Receipts were 2,486 cases. A firmer feeling prevailed in the potato market and values were higher. P. E. I. whites sold at 78c, Green Mountains at 85c per 90 lbs. in bulk. Canadian beans sold at \$5.25 to \$5.40 per bushel.

**EGGS**

**OTTAWA, Dec. 26.**—The tendency in egg prices still continues downward.

**TORONTO**—There is practically no trading here today. The egg market is easy and British Columbia eggs are offering on spot at 44c. The turkey market is easy with weather unfavorable. There were fairly heavy stocks left over from Christmas.

**MONTREAL**—The egg market here is quiet and dull today on both fresh and storage eggs, with trading very light. Fresh eggs are selling to retailers at extras 58c; firsts 52c, pullet extras 48c, seconds 36c to 40c.

**WINNIPEG**—Egg receipts here are increasing and the markets lower. Dealers are buying country shippers for ungraded eggs delivered cases returned, extras 47 to 50; firsts 45 to 46, seconds 32.

**VANCOUVER**—Egg receipts here continue heavy but while the market is still on the weak side, prices are holding steady for the time being. Dealers are quoting producers for ungraded eggs delivered, extras 34, firsts 31, pullet extras 21. Chicago spot 35 to 38, December refrigerator 31, January Ref. 25 3-8, Feb. Fresh 27 1/2.

Bases in the Irish Free State carrying more than seven passengers must comply with 43 specific regulations, according to the new Government rules.

**Card Of Thanks**

Mr. and Mrs. Ira L. Rodd and family wish to thank the friends and neighbors for their many acts of kindness and expressions of sympathy received during their recent sad bereavement. 9963-12-27-11

**BIRTHS**

**TOOMBS**—At the Prince County Hospital, Dec. 29 to Mr. and Mrs. Earle G. Toombs, a son.

**DEATHS**

all potatoes sold in the larger centers reach the consumer in 10 lb. packages. We could advance Island potatoes extravagantly and create a consumer demand for them through this advertising, but the retail grocers would deliver just what they found rendered the biggest profit. They would deliver N. B. or even Quebec potatoes to the consumer who asked for Island potatoes and the consumer would get nothing but disappointment. I have waited for years past that the daily available potatoes can be profitably advertised to have them put up in the size package most of the consumers use, then put a trade mark on that package and advertise it. In fact I have spent a small fortune and all my spare time for the past seven years in designing a trade mark of the kind "take potatoes from the car in bulk and give weight, fold, paste and seal the package and count them in the process. I have perfected this machine so that it will put up potatoes into 10 lb. packages as cheaply as the present cost of putting them into 30 lb. bags. The machine uses a Kraft bag similar to those at present used in the trade. It is impossible to put them into 10 lb. packages at shipping point because of natural sweating in transit, and to use a jute or cotton bag at shipping point for these small consumer packages is impracticable. Firstly because of the added cost of such packages over the cost of Kraft or paper bags and secondly because jute and cotton bags are dirty and would soil the coat of the customer who used the cash and carry system of buying. But do believe that in every large centre of the eastern States and eastern Canada three or more of these machines could be operated and that a profitable outlet of from twenty to thirty cars of table potatoes per day could be created in this small package business. It is steady business and is supported by these packages would only buy a week's supply and the present spasmodic trading due to speculation by jobbers and market reactions would be done away with. Potatoes should be handled and distributed more intelligently than they are now. Every other line of food stuffs is sold in trade marked packages and is supported by consumer demand through advertising. You can readily appreciate the operation at Boston and the trade fact that if packaging plants were market packages advertised freely, that this would create a jobber demand also for the 90 lb. bags of the same quality of potatoes.

Of course this idea would have to be thoroughly tried out as one market before any extensive operations were entered into and it might be better policy to have jobbers operate these machines under contract to use only Island potatoes. But I am convinced that in all larger centres there are sufficient consumers who like good things and who would be willing to pay a nickel or more for really good potatoes than for the ordinary kind. In everything from Cigars and Candy to Steak and Fowls a certain percentage of consumers will pay the best and are willing to pay for it, and this same preference and willingness to pay would operate with potatoes once the consumers were allowed free choice of selection and directed to the better kind of potatoes through judicious advertising.

If this scheme is ever put into effect it would be possible to use the container or package for advertising recipes for cooking, making potato salads etc. at practically no added cost, and so long as the quality was kept up, then there would be no question as to the sale volume of the product. It would stabilize demand and out-put, increase demand and profit and put the Island in first place as a potato growing section in North America.

It would be possible, in my opinion, to realize for the Island growers 10 cents per bushel more in net price than they would be able to realize without organization, and that would mean a million and a half of added revenue to the growers, but it would need a whole lot of hard work and a very solid spirit of co-operation and organization to accomplish this.

I have given so much thought to this potato marketing question for years past, that it is a pleasure to discuss it with one whose ideas are similar to mine.

**Royal Family**

Continued from page 1

at the royal dinner party. This was Sir Stanley Hewett, the faithful physician who has been in close attendance on the King since the illness developed more than six weeks ago. Except for short intervals, he has been at the palace day and night for weeks and he again stayed over night. During the day Queen Mary and her children paid brief visits to the sick room and saw His Majesty. It was a very quiet Christmas indeed, but there was an air of happiness and relief through the Palace as the result of the assurance that the King has been improving.

**LONDON, Dec. 26.**—The physicians have not yet been able to announce that the King is out of danger as had been hoped, but the medical bulletin tonight again tells of "slow progress" toward recovery. Lord Dawson of Penn, Sir Stanley Hewett and Sir Hugh Rigby were only in consultation for 45 minutes this evening and all three left immediately after the bulletin was posted. Sir Stanley dined out but returned to Buckingham Palace later to spend the night near the patient as he has for some weeks.

Tonight's bulletin said: "His Majesty had a quiet day. The slow progress in general and local conditions is maintained. No bulletin will be issued until tomorrow evening."

Apparently it is intended henceforth to issue only one bulletin in 24 hours, which in itself tells that the doctors have a confidence in the recuperative powers of the King which had not existed previously during the whole course of the illness. At the same time they continue to stress the factor of slow progress which is a warning to the nation against over confidence. Again tonight the ultra-violet light treatment was omitted, Doctors Woods and Hewett not coming to the palace.

**DUTIES OF THE QUEEN**

**LONDON, Dec. 26.**—The fortitude and devotion of Queen Mary during the King's illness has become an inspiration to British women. Intimate circles at Buckingham Palace stressed today the courage and composure of the Queen who after 36 days of continuous strain and anxiety refuses to be depressed, betrays the depth of her concern, or shrink her increasingly arduous responsibility.

The volume of work which the Queen accomplishes daily normally heavy enough, is now more than double. It would be formidable to a business woman without other cares. Among other things it involves the signing of heaps of documents and letters taken to her workroom in big wicker baskets by ladies-in-waiting. The Queen holds long consultations with the doctors, and always approves the medical bulletins before they are made public. She personally sees that all the King's needs in the sick room are met, and continues to direct the daily work of the palace.

Although exhausted every night and overburdened with care, she contrives to be cheerful when she pays her final visit of the day to the sick chamber. During even the most trying days when it seemed that the King would die, the Queen never omitted her customary personal inspection into the well-being of every member of the household, and the most humble of the servants about her, expressing concern at the additional duties and longer hours imposed by the constant coming and going of the doctors and visitors. "Not content with looking after her own family, the Queen has always mothered us," remarked a palace servant, "and she continues the same way."

**LONDON, Dec. 26.**—The King today held the improvement which permitted his half-billion subjects to

**Y. BOWLING**

**CITY LEAGUE**

Last night the "Y. M. C. A." won over the "Oddfellows" by 156 pins.

A. Mathieson of the "Oddfellows" claimed all the individual honours, rolling the high single and three of 281 and 733 pins.

The second match was won by default from the "Railway" by the "Telephone Co." E. MacNevin rolled the high single of 249 while L. MacAulay had the high three of 575 pins.

The following are the line-ups:

**Y. M. C. A.**

**SPECIAL HIKE**

The Y.M.C.A. Juniors are having an educational visit to the "O.N.R. Show." All members come.

**VAPURE**

A wonderful inhalant for quickly relieving the discomfort of head, colds and nasal troubles.

Just a drop or two on your handkerchief - Snuff it - and feel the head clearing at once.

**PRICE 50c.**

**THE PROMPT DRUGGISTS**

**Central Guardian**

**COME ONE, come all to the Three Star Dance Friday night, 9998**

**GET YOUR CALENDAR FOR 1929** by paying your subscription to the Guardian. Nine to choose from. You will get an artistic calendar if paid in time.

**BY PAYING YOUR SUBSCRIPTION** now you get the choice of nine calendars from the Charlottetown Guardian.

**VALLEYFIELD - ORWELL HEAD SERVICES**—December 30, 1928, 11 a. m. Valleyfield, Rev. J. M. MacLeod, M. A. F. M., Orwell Head, Rev. J. M. MacLeod, M. A. Rev. D. M. Sinclair, Minister.

**CHURCH OF SCOTLAND**—Rev. Ewen MacDougall, B.D., will preach Saturday, 30th, at Murray River, at 7.30 p. m., and Sabbath, 30th, at Murray River at 10.30; Iris at 2.30, and Belle River at 6.30.

**POLICE COURT**—At the Police Court yesterday morning three drunks appeared. One was fined \$10.00 or thirty days, another \$5.00 or ten days, and a third was dismissed as it was his first offence.

**CENTRAL PARISH** (Church of Scotland)—Rev. D. V. O'Meara will preach at Churchill on Saturday, December 29th, at 7.00 p. m., Canoe Cove on Sunday, December 30th, at 10.30 a. m.; Nine Mile Creek at 2.00 p. m., and in the People's Church, Charlottetown, at 7.00 p. m.

**LATE CARGO**—The S. S. Capot Tower arrived here yesterday morning from Halifax, N. S., and loaded a large general cargo of hay, oats, butter, cheese and eggs for St. John's, Nfld. She sailed last evening. This is perhaps the latest cargo that has ever been loaded in Charlottetown.

**DOUBLE BEREAVEMENT**—It has been a sad Christmas for Police Sergeant William McInnis and Mrs. McInnis of this city. On Monday their little son David, a bright, lovable lad of six years passed away after being ill with diphtheria. Only a few weeks ago his younger sister Jean also fell a victim to the disease. To the grief stricken parents, under the shadow of this double bereavement, the sympathy of all will be extended.

**Rum Running**

Continued from page 1

landings of liquor in the Tantalor district, Mr. Grant said he would not be surprised if the story had a foundation of fact. The work of coping with this evil, he pointed out came under the officials of the federal department. They had the ships and the men to enable them to deal with it.

"When they fall down," he declared, "it makes the work of the temperance inspectors all the more difficult."

**The Evening Mail's Opinion**

The Halifax Evening Mail says: "The Evening Mail is reliably informed that for weeks past the roads of the Province have been lined with rum-runners. The Mail is further informed that during the last few weeks several cargoes consisting of thousands of dollars worth of liquor, had been landed in Lunenburg and Halifax counties. In Halifax county during the last few days, The Mail further learns, liquor has been landed at several points on the shores of Bedford Basin."

"Are rum-runners, bootleggers and dive-keepers above the law in Nova Scotia? If the responsible officials are not alive to what is going on, they must be deaf, dumb and blind."

**WHOLESALE MURDER OF BLACKS**

(By British United Press)

**SYDNEY, New South Wales, Dec. 26.**—The wholesale murder of blacks was revealed in evidence during the trial at Darwin of two men accused of having killed a settler. It was stated that in four instances, while pursuing the alleged murderers of the settler, the police overtook parties of natives and in each instance all the male adults were shot except the two accused who were captured.

Consensus Murray stated that 17 aborigines, including two women, were killed. He tracked the blacks for many days. He came up with six native men and 25 women and children. They showed fight, and threw boomerangs at a distance of 80 yards, whereupon the police opened fire and killed the six. He considered that boomerangs were effective at 150 yards.

Asked why he did not shoot to wound instead of to kill, the constable said: "What could I do with a wounded black fellow hundreds of miles from civilization?"

"FLU" "FLU" "FLU" IT IS EVERYWHERE

Dangerous Pneumonia May Follow Unless a Good Recovery is Made.

With so much Gripe and Flu about, no one can afford to neglect even a simple cold. For a real protection against "Flu" many experienced nurses advocate the following simple treatment.

Put a saucer containing one pint water on the stove; then add one-half teaspoonful of Catarrhose and bring to a boil. Bend over the steaming water; wrap a towel over your head so that it also covers the pan. Let the steam rise so you can inhale it. Breathe in the vapor deeply. The healing fumes of Catarrhose will quickly disinfect your nose, throat and lungs. Flu germs are destroyed.

You can prevent Gripe, Flu and influenza by using Catarrhose. It is healing, soothing, safe and efficient. To stop colds, sore throat, or Catarrh, nothing is more satisfactory than Catarrhose. Even to sit in a room with Catarrhose vapor rising from a pan of boiling water is a wonderful protection to children and overcomes all sorts of winter coughs and colds. All druggists sell Catarrhose. 50c a bottle.

**Queen Hotel**

Since taking over this Hotel we have spent many thousands of dollars in repairs and improvements. It is now the finest Hotel of its class in the Maritime Provinces. It appeals to those who want a comfortable Hotel and splendid table and excellent service at a moderate price.

Rates from \$3.00 to \$4.50 per day.

**Charlottetown Hotel Co., Ltd.**

Proprietors

MISS L. McQUAID, Manager.

To the grief stricken parents, under the shadow of this double bereavement, the sympathy of all will be extended.

**CAPTAIN THOMAS ROY COFFIN**

Captain Thomas Roy Coffin, who will have command of the H. M. S. "Lady Nelson" first of the five new liners of the Canadian National Steamship to go into service between Canada and the West Indies, is a Nova Scotian. He is a native of Barrington, Shelburne County, and a member of a family that were for generations ship builders and ship owners. In the halcyon days of Nova Scotia shipping, when the Maritimes Province owned, controlled and operated one-fifth of the entire shipping of the world, the Coffin family of Barrington was among the foremost ship builders of Eastern Canada.

Although still a young man, Captain Coffin began his career so early in life that the span of his seaman's life goes back from this beautiful modern liner, which he will command, to the old full rigger, that went pounding down to Capetown in the 90's and upon which he served before the mast.

**WHOLESALE MURDER OF BLACKS**

(By British United Press)

They showed fight, and threw boomerangs at a distance of 80 yards, whereupon the police opened fire and killed the six. He considered that boomerangs were effective at 150 yards.

Asked why he did not shoot to wound instead of to kill, the constable said: "What could I do with a wounded black fellow hundreds of miles from civilization?"

"FLU" "FLU" "FLU" IT IS EVERYWHERE

Dangerous Pneumonia May Follow Unless a Good Recovery is Made.

With so much Gripe and Flu about, no one can afford to neglect even a simple cold. For a real protection against "Flu" many experienced nurses advocate the following simple treatment.

Put a saucer containing one pint water on the stove; then add one-half teaspoonful of Catarrhose and bring to a boil. Bend over the steaming water; wrap a towel over your head so that it also covers the pan. Let the steam rise so you can inhale it. Breathe in the vapor deeply. The healing fumes of Catarrhose will quickly disinfect your nose, throat and lungs. Flu germs are destroyed.

You can prevent Gripe, Flu and influenza by using Catarrhose. It is healing, soothing, safe and efficient. To stop colds, sore throat, or Catarrh, nothing is more satisfactory than Catarrhose. Even to sit in a room with Catarrhose vapor rising from a pan of boiling water is a wonderful protection to children and overcomes all sorts of winter coughs and colds. All druggists sell Catarrhose. 50c a bottle.
