**Reporter Gets
 Good Story On
 "Something New"**

To the query "Anything new?" a local citizen related to a Guardian representative the following incident which he regarded as being of prime news value.

"I was standing in front of the Public Library the other evening," he said, "when I heard an auto horn blow in a manner different to the ordinary horn. It blew again, two long and two short toots, something like a train, but different. Then, around the corner came a luxurious motor coach all ablaze with lights, and filled with passengers too. It came to a graceful stop, and I got up close to see what it was all about. I saw the passengers get off smiling and pleased looking. I saw the driver hand them their baggage and heard one after the other tell him what a lovely trip they had and what a good driver he was. I may be slow to comprehend but it gradually dawned on me that here was something new—something different. What was it? It could only mean one thing, and that was a new era in transportation."

"I watched the people, a steady throng, asking the driver for information. 'What time do you leave?' 'How much does it cost?' 'When can we get back?' etc. And the driver, always with a smile, answered questions like a veteran tour conductor. Soon people began to enter the coach and take their seats. It must be getting near leaving time. It was only five minutes. Then the driver took his seat and with two short toots of the horn he was away."

"I watched the beautiful streamlined motor coach fade away into the night, and the answer to what I had seen was on my lips. Yes, I said to myself, we have entered a new era in transportation."

ZION CUBS GIVE A BIRTHDAY PARTY—Yesterday was the birthday of Field Commissioner Ed. J. Mitchell, and the Zion Pack (5th Charlottetown) celebrated it by being "at home" to their parents and friends in Zion Church Hall. Akela, Mrs. Parent, and Baloo, Miss Jean Ross, were in charge, and the first part of the programme consisted of a series of Cub games in which all the youngsters took part. New badges and stars won in the past season were presented by Mr. S. C. Moore and Mr. Murdoch Ross, after which a huge birthday cake in two layers was wheeled in with 18 candles burning, these representing the 18 years Mr. Mitchell had been in scouting. The Cubs sang cheerily "Happy Birthday", and added to their gift a copy of Mr. Benj. Bremner's recently published "Tales of Abergweil." Mr. Mitchell, taken by surprise, said he never dreamed that anyone knew that today was his birthday, but somehow "the cat had slipped out of the bag." He deeply appreciated this recognition, and hoped the Cubs would have all the rest of their birthdays in Scouting, just as he had had the past eighteen. Congratulations were added by Provincial Commissioner Morris, Asst. Prov. Com. Brady, and the Rev. G. Carlyle Webster, all of whom also congratulated the Cub-master and Assistant Cub-master on their efficient work, and the parents on having such a fine lot of Cubs passing in the numerous tests they had undertaken in the past season. Afterwards Mr. Mitchell cut the cake and shared it with all the Cubs and "grown-ups" present. But before that was done the Cubs and their leaders "bounced" the Field Commissioner, and a very happy gathering was shortly afterwards brought to a close.

The survey is intended to afford as complete information as it is possible to obtain of the province's industrial opportunities, with particular reference to the basic industries of farming and fishing.

**Service At St. Paul's
 Church Sunday**

Sunday, October 18th, marked the 167th anniversary of St. Paul's Anglican Church. The church was beautifully decorated with fruit and vegetables for the Harvest Thanksgiving services. There was a large congregation; the Guides and Brownies attended in a body. The Rev. H. D. Raymond preached from the text: "Now therefore, our God, we thank thee, and praise thy glorious name." He traced the growth of the church from the time it started one hundred and sixty seven years ago up to the present time. There was a most appropriate talk to the Guides and Brownies concerning their life in the church and the home. In his concluding remarks he referred to the blessing of harvest and man's gratitude to God for His bountiful goodness. "Gratitude," he said, "brings sweetness into the lives of men." The processional hymn: "Come ye thankful people come." The special anthem for the morning and evening services was: "Ye Shall Dwell in the Land"—Sir John Stainer, sung by the choir.

At the conclusion of the morning service the Guides and Brownies marched out of the church with the patrol leaders carrying their colours. At the evening service Rev. G. Gillespie preached from the text: "Rejoice evermore. Pray without ceasing. In everything give thanks." The services of the day were most inspiring and encouraging.

**FOUNDERS DAY
 OBSERVED
 AT GYRO**

**Address Delivered By
 Mr. W. J. Monaghan
 On History And
 Growth of Club.**

Founders Day was observed at the regular meeting of the Charlottetown Gyro Club held last evening in the Canadian National Hotel and presided over by Dr. B. C. Keeping, President.

Two new members, Messrs. Earle C. Baker and W. Earle Reardon were inducted by Mr. Russell C. Chandler, a Past President.

Various items of Club and District interest were discussed and necessary action taken.

The Founders Day address was given by Mr. W. J. Monaghan. A vote of thanks to the speaker was moved by Mr. Sidney T. Green, seconded by Mr. Simon P. Paoli, Jr., and passed.

"Gyro, as you know, is an organization whose first Club—Cleveland, 1912—was organized to retain old friendships and build new; to build up a 'gang' who wanted to work and play together in Friendship—there was at first no thought of other clubs—mutual friendships in Chicago, Cincinnati, and Buffalo led to other clubs and the International organization, after which there came a gradual spreading of the idea and ideals of Gyro till now we have 83 clubs in the United States and Canada," Mr. Monaghan told the meeting in a review of the history and growth of the Gyro organization.

The Charlottetown club was organized in 1928 with Mr. Frank B. Clarke as the first president. Succeeding presidents have been William Gillis, Charles Williams, R. C. Chandler, Stewart Jones, Carl Tibert, Dr. A. P. Creelman, Simon P. Paoli and now Dr. B. C. Keeping.

"Gyro has a real part to play during these trying times," the speaker declared. "The institution is built on the three fundamentals: power, poise and purpose. I will admit that these three words do not register with me at first," Mr. Monaghan continued, "but after watching the various nations attempting to solve the age old problem of civilization I have concluded that after all we do need more power, poise and purpose and less promises and theories."

"When I speak of power I do not mean power that is given to one man or group of men to rule men's destinies but I refer to that power which should be aroused in every man's heart to think for himself and seek the truth," the speaker declared.

"There is just one further word in conclusion," the speaker said. "To get the most out of Gyro, one should develop a convention complex. To mingle with members of clubs of neighboring cities, adjacent provinces or states, of other countries; to eat with them, drink with them, play and be serious with them, is to cast aside forever the prejudices, the misunderstandings and the narrowness that unconsciously may have crept into our lives. That alone makes Gyro worthwhile and in itself justifies its existence. Give this some thought and when planning your next vacation take in a convention. You'll never regret it," Mr. Monaghan said in conclusion.

ARTESIAN WELLS

DO YOU KNOW?
 That a drilled well to be a safe and sanitary source of water supply must be faithfully and thoroughly constructed. Not every hole in the ground with a pipe sticking out of it is a safe well.

Experience, equipment and reputation for doing good work are essential when engaging a well driller.

We have been drilling wells since 1910.

We give an undertaking in writing that our work will stand the test of time.

We drill wells on the basis, "No water, no pay".
