KLAN TO TAKE MONTHLY MEETING OF THE CITY COUNCIL

Baltimore's State Attorney Invited to be 100 Per Cent. American

(Associated Press) BALTIMORE, Md., Aug. 11.—"It is now possible for a Jew who served in the World War to be recognized as a real 100 per cent American," declared E. Milton Altfield, Assistant State's Attorney, today.

(Continued on Page 3)

Dog's Hair Turns Gray From Fright

(Canadian Press) GALVESTON, Tex., Aug. 11.—Dogs, as well as humans, turn gray from fright. Missing since an automobile accident costing the lives of his 7 year old master's parents, Mitt, a black and tan Alsatian, was found in the neighborhood of his home. His hair had turned gray. Mitt had been chained to the running board of the wrecked car.

125 Vets in Sing Sing To Get Bonus

(Canadian Press) OSSINING, N.Y., Aug. 11.—Sing Sing attaches here announced that 125 World War veterans, now prisoners there, were eligible to share in the State soldiers' bonus fund. The records are being compiled by the Rev. Father William E. Cahlin, the prison chaplain. There are about 250 war veterans in Sing Sing, but one half of them either enlisted from States or relatives have applied for the bonus from the prisoner's home address. When the State makes payment the money will be applied to the prisoners' accounts in the prison office and they will be allowed to draw against it.

*LOST—THURSDAY NIGHT BE- (Weymouth St.) Edward Theatre Street, amber and black. Finder please return to 8-9-31.

MONTHLY MEETING OF THE CITY COUNCIL

Mr. Michael Jarvis Presented With Carnegie Medal.—Board of Health Meeting To Be Held Thursday.—Housing Commission Appointment.

Before the transaction of routine business at the City Council last night His Worship Mayor McKenna read a letter from the Royal Humane Society requesting him to present publicly the enclosed bronze Carnegie medal to Mr. Michael Jarvis as a reward for valor shown in saving the lives of Wilfred and Ernest Duffy in June 1923, when they were in danger of drowning in the Ferry dock. As the Mayor pinned the medal on Mr. Jarvis' breast he congratulated him on the distinction he had won and mentioned also the fact that the recipient had seen service in the Great War. The presentation was concluded with vigorous applause on the part of the Council members.

The reading and adoption of the minutes of the meeting of the previous month were followed by the regular business, during the conduct of which the following communication was read:

A letter from the Department of Militia at Halifax notifying the city that the Federal Department of National Defense had given over property on Kensington Range to be used for the sliding made necessary by the increased amount of seed potatoes being handled this year.

In reply to question Mayor McKenna stated that according to present plans this new sliding would run parallel to the shore and about thirty feet from the bank; this

might interfere with the bathing facilities there and efforts were being made to have the sliding set back a distance of approximately one hundred feet. A letter from Mr. G. W. Hill, stating that work on the bronze castings for the Soldier's Monument was progressing satisfactorily and asking that payment be made of the sum of \$5,000 which completion of this part of the work called for. Both communications were allowed to stand over.

The Health Officer, Dr. McMillan reported no contagious diseases during the month and again referred to the localities whose unhealthful condition had created so much previous discussion, namely, the stream flowing into the Government Pond and the waste stream from the Condensed Milk Factory. Dr. McMillan stated that he had inspected both places in the company of two members of the Health Committee. His opinion was that the first nuisance could be done away with by a thorough cleaning of the stream and by removing the obstruction of logs and weeds that prevented a free flow and caused a partial stagnation dangerous to the health of those living in that locality. This clean up could be done by the men at present working on Government Pond itself.

As to the stream of waste milk and water issuing from the milk factory the Health Officer stated that the only adequate remedy was sewer connection. He had learned from the manager that at one time application for this had been made but it was rejected by the Water Commissioners on the ground that the pumping system was not powerful enough to cope with the increased load. Dr. McMillan thought that this difficulty could be overcome. There was no question as to the menace to public health; the rise and fall of the stream left a deposit of slimy

Cops Use Wrist Light As Stop Sign

(Canadian Press) NEW YORK, Aug. 11.—Something new in traffic directing equipment—a small red light attached like a wrist watch to the policeman's hand—has been introduced in this city.

The new device consists of a two inch bulb's eye operated by an electric battery in the traffic policeman's hip pocket. The face on the bulb's eye is a heavy red magnifying glass, behind which is the bulb. When the arm is raised the light flashes on and is shut off when the arm is lowered. It is likely to be put into use throughout the city.

Henry Ford As Candidate For U. S. Senator

(Canadian Press) LANSING, Mich., Aug. 11.—Henry Ford became an involuntary candidate for Republican nomination for United States Senator, when Politics containing sufficient signatures to place his name on the primary ballot September 9, were filed with the Secretary of State yesterday.

Answers Fake Call For Help; Is Drowned

(Canadian Press) MIDDLETOWN, N. Y., Aug. 11.—When Theodore Ratner, a waiter at the Overlook House at High View, near here, heard the jolting call of two youngsters for help in a pond he sprang in to save them, and sank to his death. His body was recovered later. The two children had been wading about in the water, and conceived the idea of calling for help, little dreaming their cries would be taken seriously.

UNITED STATES SHOULD BE PREPARED

Says Retired Admiral Rodgers Before Institute of Politics Meet

(Associated Press) VANCOUVER, B. C., Aug. 11.—The freight steamer Torham Van from Toronto and other ports on the Great Lakes arrived here today with a full cargo of Ontario manufactured goods. The vessel was two months on the voyage.

U. S. May Relax Immigration Law

(Canadian Press) VICTORIA, B.C., Aug. 11.—Definite announcement is expected here soon by immigration authorities to the effect that some relaxation will be shown toward British born subjects in Canada desiring to enter the U. S.

Cost Flour Continues To Rise in Paris

(Canadian Press) PARIS, Aug. 11.—The cost of flour continues to rise and it is understood the price of bread in Paris will be increased one sou per kilogram next week.

Successor To Late Mr. Carvell Mentioned

(Canadian Press) OTTAWA, Aug. 11.—The sudden death on Saturday of Hon. F. B. Carvell makes vacant the chief commissionership of the Railway Commission one of the most important appointments in the federal service. With the appeals against the Crown's Nest Pass freight rate discrimination fixed for September 17, this vacancy will have to be filled without delay.

Will Not Change Its Boundary Policy

(Canadian Press) BELFAST, Aug. 11.—Sir James Craig, the Ulster Premier, in a manifesto issued to the people of Ulster Saturday says that his government has no intention of changing its boundary policy. He repeats his offer to President Cosgrave of the Irish Free State to settle the boundary question in a friendly spirit with the aid of expert opinion.

Editors Will Visit P. E. I.

(Canadian Press) MONTREAL, Aug. 11.—Three of the five Scottish editors who have been touring Canada for the past six weeks as guests of the Colonization and Immigration department of the Canadian National Railways, sailed for England on the White Star liner Megantic on Saturday. The entire party has made a thorough trip through Quebec, Ontario and the Western provinces and has had every opportunity of studying agricultural conditions and opportunities in Canada at first hand.

Two of the editors, James Reid, of the Dumfries and Galloway Standard and Edward W. Watt, of the Aberdeen Press and Journal, are remaining in Canada for a couple of weeks in order to visit N. S., with Sir P. E. I. returning to sallyover from Quebec Friday.

WIRE BRIEFS

Last Minute News Flashed in Over the Wires

(Associated Press) VANCOUVER, B. C., Aug. 11.—The freight steamer Torham Van from Toronto and other ports on the Great Lakes arrived here today with a full cargo of Ontario manufactured goods. The vessel was two months on the voyage.

REGINA, Sask., Aug. 11.—Bread has been raised one cent, the new price being 10 cents for a 20 ounce loaf unwrapped and 10 1/2 cents for wrapped loaf.

OTTAWA, Ont., Aug. 11.—Canada's wheat crop this year is estimated at 282,042,000 bushels, by the Dominion Bureau of Statistics. This estimate issued today by the government is based on definite estimates of the yield of fall wheat and latest reports of the condition of spring wheat throughout Canada. The final estimate of last year's wheat crop was 474,199,000.

MONTREAL, Aug. 11.—The price of bread per loaf was increased one cent from 10 1/2 cents to 11 1/2 cents per loaf today following the increase in the price of flour of \$2.30 per barrel in the past fortnight.

(Canadian Press) HALIFAX, N. S., Aug. 11.—Anthony Delouchry, 53 a carnival visitor from Windsor, N.S. was struck by an outgoing train this morning and instantly killed. He was walking on the tracks in the cutting about a mile from the south terminal station.

Colour Blindness May Be Corrected

Color blindness may be corrected by the wearing of special spectacles in the opinion of H. E. Roaf, M. D., D. S., professor of physiology at London Hospital Medical School, who communicated a research on colour vision to the physiology section of the British Association today. Dr. Roaf has found that in the case of many persons whose ability to distinguish colors is not perfect, that the eye receives sensations from the complete range of the spectrum of colors just as the normal individual does, and that the intensity of the stimulation is about the same as if there were no lack of differentiation.

CANADIANS ARE HONoured BY BRITISH ASS.

Toronto University Professor Pres. of Mathematical Society.

(Canadian Press) TORONTO, Aug. 11.—World famous mathematicians honored Canada today when at the first meeting of the International Mathematical Congress ever held on this continent Dr. J. C. Fields, Professor of Mathematics at the University of Toronto, was chosen president of the organization.

Further recognition was given Canada when four hundred disciples of Euclid representing learned societies and universities in all corners of the globe chose Professor Sydney of the University of Toronto and Professor King of McGill University, Montreal as secretaries of the congress.

Proves Mastodons Not Long Extinct. Evidence that mastodons roamed about Ontario within relatively recent times was offered for the consideration of geologists at the British Association for advancement of science today by Prof. J. W. Russell, of the University of Western Ontario. Numerous mastodon remains have been recovered from deposits of preglacial age at many places in Ontario, but most of these have been found in peat bogs, or imbedded in the marl of ancient or existing lakes. Both the peat and the marl act as preservatives, and will keep the bones in good condition indefinitely, thus the finding of the skeletons in such deposits indicates nothing more than the fact that mastodons roamed about the province after the glaciers passed away.

50 Miners Trapped And Feared Dead

(Canadian Press) TOKIO, Aug. 11.—Fifty miners were trapped in the Iriyama coal mine, Fukushima province, when a gas explosion occurred there Saturday evening. It is feared that all are dead. Nine bodies have been recovered.

Former Islander Rector Of Campion College

Rev. George Bradley, S. J., Loyola College, Montreal and at present conducting missions on the island and has been appointed Rector of Campion College, Regina, Sask. Rev. Father Bradley formerly of Kellys Cross is well known throughout the island having been engaged in mission work here for the past five years. Father Bradley has had an exceptionally brilliant college career and is now recognized as one of the leaders of the Jesuit order in America. After graduating from St. Dunstan's University he entered Loyola and during the past fifteen years has pursued his studies in many of the largest Jesuit Colleges in America. Father Bradley's appointment as head of Campion College is a powerful acquisition to that institution and will without doubt preserve and further augment the high standards already attained by this seat of learning. His many friends congratulate Father Bradley and wish him every success.

MAY SPEND \$500,000,000 FOR POWER IN BRITAIN

Government Scheme Outlined in Commons By Chancellor of the Exchequer Phillip Snowden

(Canadian Press) LONDON, Aug. 11.—Whatever be the truth of the reports of Sir Adam Beck being privately consulted by Premier McDonald, it is a well known fact that great electrical developments are contemplated in Britain.

As an example of the chaotic arrangements which prevail, Mr. Snowden instanced the variety of frequency. The frequency of which power is produced is 100 here 50 there, 33 1/3 somewhere else, and 25 in other places. Therefore it is not possible to interchange between one station and another. The idea of the government is to have the power at a standard frequency in all the big stations, and the intercommunication resulting would greatly cheapen the cost of production. This job of standardising the frequency said Mr. Snowden, would probably take three years, and it would cost the government about \$50,000,000. The plan of very large generating stations involves sub-stations

There are no fewer than 532 (Continued on Page 3)

BANDITS FAIL AT SUDBURY

Attempted to Take \$30,000 From Car.

(Canadian Press) SUDBURY, Ont., Aug. 11.—Unknown bandits yesterday failed in a novel attempt to wreck the pay car of the International Nickel Company and escape with \$30,000 which it contained in a leather satchel. One of the crew of a little hill near Croighton Mine, 12 miles from here, they set a series of four dynamite charges, which they exploded by means of a battery from a hiding place as the motor car passed over it. The car was hurled into the air and the four occupants peppered with sand, but not otherwise hurt. They were all armed and drew ready to fight the bandits, but the latter evidently thought better of it and did not leave their place of seclusion.

The car was able to proceed and police were searching for the bandits last night. The battery and some of their clothing have been found near where the blasts were set off. The scheme to blow up the car failed through the explosive not being placed deep enough in the earth.

DOM. NOT WELL ADVERTISED IN BRITAIN

C. P. R. Head Thinks Cooperation of Newspapers Would Be Effective.

(Canadian Press.) QUEBEC, Aug. 11.—"I agree with those who have observed that Canada is not yet as conspicuously in the public eye in Great Britain as it should be," said E. W. Beatty, chairman and president of the Canadian Pacific Railway, on his arrival here yesterday on board the Empress of France, after a hurried trip to Europe. He visited England and Scandinavia. He said that one reason for this condition was undoubtedly the fact that the existing state of exchange prevented the steady flow of capital from England to Canada.

High Compliment To Prince Of Wales

(Canadian Press) WASHINGTON, Aug. 11.—One of the highest compliments in diplomatic usage, a strictly private luncheon with the executive family—is planned for the Prince of Wales upon his arrival in the United States, for the international polo matches next month at Meadowbrook, says the Washington Post, today, adding that it understands the royal visitor will reach New York, August 30 on the Berengaria.
