GRAVES OF BRITISH SOLDIERS DECORATED.

CONCORD.—For the second time within a week, the graves of the British soldiers who were killed in the fight at the Old North Bridge, April 19, 1775, were decorated today, this time by a detail of the Old Concord Post, 180. G. A. R., under the command of George M. Bowker, who went to the Bridge this morning and placed an English Union Jack, with flowers, on the British graves. Sunday the graves were decorated by the British Naval and Military Veterans Association.

Astonishing Power of Iron to Give Strength to Broken Down Nervous People

Physician Says Ordinary Nuxated Iron Will Increase Strength of Delicate Folk 100 Per Cent in Two Weeks' Time in Many Instances.

NEW YORK, N. Y.—In a recent discourse Dr. E. Sauer, a Boston Physician who has studied widely both in this country and the great European Medical Institution: "If you were to make an actual blood test on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied all their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation people become generally weakened, nervous and all run down and frequently develop all sorts of conditions. One is too thin; another is burdened with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepsia, kidney or liver trouble; some can't sleep at night; others are sleepy and tired all day; some fussy and irritable; some skinny and bloodless, but all lack physical power and endurance. In such cases, it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your fading vital powers for the moment, maybe at the expense of your life later on. No matter what any one tells you, if you are not strong and well you must first get yourself to make the following test. See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two

weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous run down people who were all the time double, and even triple their strength and endurance and entirely get rid of their symptoms of dyspepsia, liver and other troubles in from ten to fourteen days (time simply by taking iron in the proper form, and this, after they had in some cases been doctoring for months without obtaining any benefit. You can talk as you please about all the wonders wrought by new remedies, but when you come down to hard facts there is nothing like good old iron to put color in your cheeks and good sound, healthy flesh on your bones. It is also a great nerve and stomach strengthener and the best blood builder in the world. The only trouble was that the old forms of inorganic iron like tincture of iron, iron acetate, etc., often ruined people's teeth, upset their stomachs and were not assimilated and for these reasons they frequently did more harm than good. But with the discovery of the newer forms of organic iron all this has been overcome. Nuxated Iron for example, is pleasant to take, does not injure the teeth and is almost immediately beneficial.

NOTE—The manufacturers of Nuxated Iron have such unbounded confidence in its potency that they authorize the announcement that they will forfeit \$100.00 to any Charitable Institution if they cannot take any man or woman under sixty, who lacks iron and increase their strength 200 per cent or over in four week's time provided they have no serious organic trouble. Also they will refund your money in any case in which Nuxated Iron does not at least double your strength in ten days' time it is dispensed in this city by George E. Hughes, Apothecaries Hall, E. A. Foster, Central Drug Store, H. J. Mahon, (Montague), and all other druggists.
