MEMBERSHIP CAMPAIGN AT THE "Y"

The Y. M. C. A. started off their Big Membership Drive last evening with a supper for the canvassers. About fifty young men met at the Social room and partook of a splendid supper which was provided by the Ladies' auxiliary.

Mr. W. A. Stewart, chairman of the Committee presided at the supper and called on the banqueters for the song O Canada to open with. After supper was partaken of a very enjoyable sing song was carried on for about ten minutes and then the chairman called on Mr. Gorbell to explain the rules of the Contest. Following this Mr. Roy Quigley was heard in a fine solo. Professor Fletcher accompanied Mr. Quigley and played the piano for the sing song.

CHARLIE CHAPLIN DECIDES TO QUIT HURLING PIES

NEW YORK, Oct. 19— Charlie Chaplin is back home again with a new idea about foreign girls. English young ladies he finds "more subtle," French "more obvious." The second idea Charlie brings back has been budding in his mind for some time. It is that he is going to desert comedy. Charlie has been hinting at this desertion for some time. But now he comes right out and says he is determined to realize his life's ambition—to do a real drama. Before he gets to that he admits just to turn serious. "What did you see you liked best over there?" reporters asked him when the Berengaria, formerly the Imperator, came up from Sandy Hook. "Best time I had," he replied, "was the week-end with H. G. Wells and that reminds me, I'm going to give Mr. Wells' history of "Polly" as one of my earliest productions. "But it was all one wonderful time. While at the Ritz I received 63,000 personal letters. I had to employ two stenographers and although I tried to answer them all, I had to give it up as too much of a job.

INDIANS MADE SAWS MANY CENTURIES AGO

The Indians of Central California made saws before Columbus ever visited America. James A. Barr has made a hobby of collecting pre-historic implements, and he has made a collection of 158 Indian saws. Three of these, possibly used to skin game or fish, were fragile implements of soapstone; all of the rest were of hard, black obsidian. The Indians not only had no metal of which to make their saws but they had no metal tools with which to make them. Each saw had to be slowly chipped or ground or polished with other bits of

Headache

Recurring headaches usually come from an exhaustion of the nervous system, and they do not disappear until the vigor of the nerve cells is restored by such up-building treatment as Dr. Chase's Nerve Food.

Temporary relief by use of powders is often obtained at an enormous expense to the nervous system and the general health.

Get the nerves right and the headaches will not return.

Mrs. W. J. Pearse, Nunn St., Cobourg, Ont., writes:

"My system became run-down and I suffered greatly with pain in my head. This was so severe that I would have to bind a cloth tightly about my head so that I could get my work done. A friend advised the use of Dr. Chase's Nerve Food, and after taking the first box I found quite an improvement in my condition. I continued using them until I had taken about seven boxes, and they strengthened and built up my system splendidly, completely relieving the pain in my head."
