—ANOTHER FOX DIVIDEND.—At a meeting of the directors of the Bayner International Fur Co. Ltd., held in Summerside, September 8th, 1914, the directors, after hearing reports of the business for the year, voted to distribute a dividend of 40 per cent. among the shareholders of that company. Owing to tight money conditions, on account of the war, the directors decided to distribute one half of the dividend the early end of October, although the dividend was not due until after the annual meeting which takes place November 18th, 1914. It was believed by the directors that a distribution of one half of the dividend, from funds on hand, a month earlier than due would be of value to many of the shareholders. The directors visited the ranch and inspected the foxes and the new equipment built this summer, and expressed themselves as highly pleased in every particular with the line lot of foxes and the splendidly equipped ranch, which is considered the finest on P. E. Island.
