WANTED—A capable girl to do housework for cash and door factory, one who can take full charge of factory preferred. Apply at once. The Mechanic Mfg. Co., Summerside. Feb. 12 e o d 2 wks

SUMMERSIDE AND WEST.

It is not often that Summersiders are treated with an exhibition of skating like that which was so interesting and pleasing in Crystal Rink last evening. Mr. John F. Davidson, the world's greatest skater, appeared on the ice on his second visit to this town, and his performances were more appreciated than ever. His first exhibition was

WORKING ON STILTS, strapped to his legs standing two feet above the ice. This was a new feature here and its introduction was viewed with rapt attention. After doing some outside and inside edge work he skated the figure three. Bishop eight, the Dutch roll, one foot serpentine, spread eagle, and flat foot whirl, working in many new manoeuvres, all of which were difficult to perform and to say the least entertaining to look at.

After taking off the stilts he appeared WITH FANCY SKATES and went over all the edge work, then he went through double three forward and backward, single and double foot toe spin, and in performing the Barney jump, which he alone has been able to do, he showed great skill and perfect control of the blades. Then he went through the Bishop eight with cut off cork screw whirl, and the grape vine with serpentine curves which were extremely pretty. He did the Philadelphia twist and also performed some difficult toe catches which he originated himself. The continuous spread eagle with complete turn in the air, one foot whirl, flat foot whirl, and waltzing on the toes of his skates he went through very prettily. He worked in many other fancy curves and twists which were his own and for which he has no name.

He then took a five minutes rest and gave an EXHIBITION OF JUMPS, going over a pole from a height of 2 feet 6 inches to 39 1-2 which is the world's record held by himself, and showing wonderful tact in his line. He also pleased the audience with some broad jumping going over four barrels lying on their flat, and also with surprising ease he glided over three barrels standing on end.

Mr. Davidson uses skates which are made specially for him.

Mr. Davidson's work is interesting because it is original. All fancy skating, at least the most attractive figures, are a matter of curves and glides and the one who can arrange the succession of such movements with the best taste is the most successful skater. And his peculiar choice is in his succession of quick and attractive movements. This originality is gained by the introduction of new twists and figures. His exhibitions last night were admired with deep interest not alone because it is something new to a Summerside audience but because of the ease and grace with which he performs his work. The band aided much in the enjoyment of the evening by rendering a nice program of music.

Mr. Davidson leaves this morning for Souris where he performs on Thursday evening after which he goes to Charlottetown and will give an exhibition there on Friday night.

FOR MAYOR.

- J. A. Braze.
- James A. McNeill.
- FOR COUNCILLORS.
- George Bishop.
- John Dickleson.
- George H. Gardiner.
- John D. Goss.

- D. M. Waugh.
- Harry P. Wood.

A bottle of Liniment for 13. is what you want. That's Bentley's!

THERE was a large and representative audience at the Y. M. C. A. Monday night to hear Rev. W. H. Smith lecture on a "Young Man Library." Mr. John M. Clark presided. The lecturer in his discourse suggested a system of reading which should comprise the following five lines, History, Biography, Poetry, Practical and religious. The historical novel is of great value. Every man should know the history of his nation, and the history of special movements. While history gives a view of life in great circles, biography views life in small circles. The biography of a young man should read in that which appeals to him. The one that is luminous not voluminous. Truth comes to us in the intuition of the poet. Poets have been accused of the speculative and unreal. The real poet interprets life in ideal. They take our minds where we breathe a new atmosphere. He dealt chiefly with the poetry of patriotism which is one that is far too little encouraged. We are now gradually catching the imperial spirit. There may be simplicity in the form of such poetry, but we can not read patriotic writing without catching that same spirit which will make of us better citizens. He referred briefly to the poetry of emotion and the poetry of philosophy. Practical reading should be such that would make us better in our homes, in politics and in society. The aim in reading is to avoid other's mistakes. The most important thing in life is our ideal. There is a social ideal and the political ideal, but religion is necessary for a fully developed character. Science has its limitations. It deals only with the presents. It was thought once that science and religion could not go hand in hand but we find that science demands the existence of God. Religion meets every desire of life and leads one to righteousness and truth. A vote of thanks was moved by Mr. Neil McLeod seconded by E. H. Wright and supported by R. H. Campbell and John Mollison who complimented the lecturer on his able discourse. Mr. Smith made a suitable reply.

THE home of the late Hugh McIntosh, Port Hill, is again visited by sickness. As preparations were being made for removing the remains of the deceased gentleman to its last resting place, a message had been sent for Dr. Long to visit the lady who had so kindly waited upon Mr. McIntosh during his illness. Mrs. French has since then been very low with that dreadful disease pneumonia, but by the aid of the best medical skill and kind treatment the good people of Lot 14, hope for her speedy recovery.

THE Confectionery Store of Mr. G. F. Mutart, Alberton, was broken into on Saturday night last, and goods to the value of about twenty dollars were stolen therefrom. The thieves effected an entrance by breaking a window in the rear end of the store.

Through some misunderstanding in the date arranged for a hockey match between a team from Victoria, Crapaul, and the Pioneers from Summerside in Crystal Rink the Victoria boys arrived here yesterday and expected to play last night but owing to the Davidson performance the game could not be played.

THE qualifications for voters in the civic election are as follows: The voter must be 21 years of age, must be 12 months a resident of Summerside, must be a British subject and must have paid all taxes and rates of any kind due the town.

BORN.

At Cornwall, on Sunday, Feb. 3rd, to Mr. and Mrs. Daniel Frizzell a daughter.

MARRIED.

At the Presbyterian Manse, Summerside, on February 19th, 1901, by Rev. W. H. Smith, M. A. B. D., Susan Day of Kensington and Dorothy Ann Haney of Clinton.

At the residence of the bride's mother, on the 13th Feby. by the Rev. W. W. Wass, assisted by the Rev. W. H. Spencer, Miss Emma V. McMillan of Vernon River to John Russell Brehaut of Montague.

DIED.

At the Brae, on Jan. 15th Mr. John Henry, in the 71st year of his age.

At Bloomfield, on Feb. 16, Mrs. Hugh Hunter in the 83rd year of her age.

At Bonshaw, January 4th, aged 28 years, Margaret, wife of Henry Dart, and daughter of the late Angus McInnis, leaving a loving husband, son, and two daughters to mourn their loss. (Boston papers please copy.)

Died on Feb. 14th 1901, of la grippe, in the 25th year of his age, Robert H. beloved son of Jacob and Caroline H. Dignan of Woodstock, P. E. I. Robert was a consistent Christian and leaves the testimony behind that he is dead to be with Jesus. "Blessed are the dead who die in the Lord."

On Feb. 12 at Ellerslie, Lot 12. P. E. I. Mrs. Samuel Cannon in the 83rd year of her age. She leaves a husband and five children to mourn their sad loss. Her affliction, which was at times more severe than some of her friends seemed to realize, was borne with true Christian patience. Deceased was a member of the Methodist church and had been in church fellowship for 65 years.
